Bob Vila endorses and recommends the famous EdenPURE® portable heater

Millions of Americans now saving up to 50% on their heating bills and raving about the “heavenly heat”

Does not get hot, cannot start a fire and will not reduce humidity or oxygen

By John Whitehead, Media Services

The famous infrared portable heater, the EdenPURE®, which can cut your heating bills by up to 50%, has been greatly improved.

You have probably heard about the remarkable EdenPURE® from Bob Vila, America’s Favorite Home Improvement Expert, who endorses and recommends the EdenPURE® and on television features across the nation.

The new EdenPURE® GEN3 heater heats better, faster, saves more on heating bills and runs almost silent.

The EdenPURE® saves you big money on your heating bill, but, you will be toasty warm. The heat it produces is unlike any past heating sources. It produces what customers call “heavenly heat”.

The EdenPURE® can pay for itself in a matter of weeks and then start putting a great deal of extra money in your pocket after that.

A major cause of residential fires in the United States is portable heaters. But the EdenPURE® cannot cause a fire. That is because the advanced infrared heating element never gets to a temperature that can ignite anything.

The outside of the EdenPURE® only gets warm to the touch so that it will not burn children or pets.

The EdenPURE® will also keep you healthy. That is because, unlike other heating sources, it will not reduce humidity or oxygen in the room.

The advanced space-age EdenPURE® Infrared Portable Heater also heats the room evenly, wall-to-wall and floor-to-ceiling. And, as you know, most other portable heaters only heat an area a few feet around the heater.

Unlike other heating sources, the EdenPURE® cannot put poisonous carbon monoxide, any type of fumes or any type of harmful radiation into a room.

For more details on the amazing EdenPURE® GEN3 Quartz Infrared Portable Heater, here is my interview with Bob Vila, America’s Favorite TV Home Improvement Expert.

Q. What is the origin of this amazing heating element in the EdenPURE®?

A. This advanced heating technology was discovered accidentally by a man named John Jones. Jones found that a stack of a certain type of copper stored by his coal furnace kept his whole house warm long after the coal fire went out.

Through a great deal of research and development he came up with safe quartz infrared lamps to heat treated copper. This and other technology produced the Eden-

Never be cold again

Cannot start a fire; a child or animal can touch or sit on it without harm

Pictured above is Bob Vila demonstrating the famous EdenPURE® GEN3 Model 1000 heater with a family. It saves big money on your heating bill while keeping you toasty warm with “heavenly heat”.

PURE® infrared portable heater.

This infrared heating process was designed around the three most important consumer benefits: economy, comfort, and safety.

Q. Why is it that this quartz infrared heating source uses less energy to create heat than other sources?

A. Actually, there is more than one reason. One of the primary reasons is that heat at combustion level, which is what all other heat sources use, causes the heat to instantly rise to the ceiling. Therefore, the heat is not evenly distributed, causing a very inefficient and uncomfortable heat source.

The EdenPURE® GEN3 Quartz Infrared Portable Heater does not use burning heat. Once the cured copper heat exchanger absorbs the infrared heat, it exhales the heat into the living area which is carried by the existing humidity in the air. This causes the heat to travel rapidly and evenly throughout a room.

In actual studies, photos using infrared lighting demonstrated that the heat was almost perfectly even from floor-to-ceiling and wall-to-wall. The EdenPURE® Quartz Infrared efficiency is based on the distribution of energized air, not on just fan movement. This heat is coined as "soft heat" due to how comfortable it is. Customers call it “heavenly heat”.

Q. What are the other disadvantages of combustion heat sources?

A. Heat sources that are above the burning level have many unhealthy side effects. One of these is that it creates dry, irritating indoor air. It also burns a great deal of oxygen in the air. If you remember, when you sit in front of a fireplace or a portable heater or close to a heat source, you will remember yawning. This is because you are not getting enough oxygen.

This dry irritating heat and lack of oxygen dries out sinuses and mucus in the throat, and makes

people susceptible to disease. The lack of oxygen causes fatigue.

Also, many combustible heat sources produce carbon monoxide, static cling, and some produce radiation.

Q. So you're saying that children or pets can come up to this unit and touch it and not be harmed?

A. That is absolutely correct. As a matter of fact, pets are actually drawn to this heat because it is a natural source of heat, just like the sun heats the earth. Animals are much more instinctive than humans. This heat not only heats the air, but it also heats the objects in the room. It is a perfectly balanced heat.

Q. How can a person cut their heating bill by up to 50% with the EdenPURE®?

A. The EdenPURE® will heat a room in minutes. Therefore, you can turn the heat down in your house to as low as 50 degrees, but the room you are occupying, which has the EdenPURE®, will be warm and comfortable. The EdenPURE® is portable. When you move to another room, it will quickly heat that room also. This can drastically cut heating bills, in some

How it works:

Testimonials from a few of the millions of satisfied EdenPURE® customers

The EdenPURE® has cut my gas bill to a third of what it was last year. *Leslie Wilson, Vancouver, WA*

I recently had an addition that was over 800 square feet added to my home. When it was completed we had to consider a heat source. We investigated everything from upgrading our current furnace, and duct work, to a vent less fireplace. Then I heard about the EdenPURE®. I must admit I was a bit skeptical, however I decided to place one in the room and give it a test. I can't tell you how pleasantly surprised I was. The EdenPURE® heater is our exclusive heat source and is comfortably heating our room at a cost of under \$15.00 per month. It is certainly refreshing to find a product that surpasses it's performance claims. *D. Capps, Vancouver, WA*

With our EdenPURE® heater our gas bill dropped so much that the gas company called us and said our gas meter must be broken and they wanted to replace it. *John and Sandy Hopkins, Elyria, OH*

It's working great and heats the house well. I was so glad to find a company that stands behind their products and cares about customer concerns. I am now recommending the heater to family and friends. *Lyn Royer, Sterling, VA*

The EdenPURE® #1000 has saved 40% on our heating bill! My 18 month old daughter sits on it, that's how safe it is. The heater is also very mobile. *Steve G., Binghamton, N.Y.*

I must say I am well pleased with my new heater. So far it is working just like I had expected. We have a small home, slightly less than 1,000 square feet, so it should be sufficient for our needs. I like the quiet operation of the heater, because one gets tired of hearing the blower or a fan going on a gas furnace constantly. *Edna M., Forest Park, GA*

The EdenPURE® really puts out the heat like a little solar furnace. It's below freezing outside and cozy warm in the rather over large living room area where I'm using it. I have already noticed a 40 to 60% drop in the cost of my heating bills. *George B., Triangle, N.Y.*

I turned my thermostat down to 60. I have 2 dogs and 3 cats and all 5 laid down in front of it and were fast asleep. My chair is 1 foot away and it is like being in front of a fireplace. *Carl Cormier, Jerome, ID*

instances, by up to 50%. The infrared quartz-cured copper heating technology also produces heat for 30% less cost than conventional services.

The EdenPURE® heater is now greatly improved. With no increase in price, the new EdenPURE® has been updated with the latest technology, safety, and comfort features to provide you with even greater comfort, more

savings, and years of reliability. The EdenPURE® comes with a comprehensive three year warranty along with a 60-day no questions asked satisfaction guarantee – we pay the return shipping.

This product has been listed by Underwriters Laboratories.

End of interview.

The EdenPURE® GEN3 comes in 2 models. The GEN3 Model 500 which

heats a room up to 300 square feet and the GEN3 Model 1000 which heats a room up to 1,000 square feet.

The EdenPURE® will pay for itself in weeks. It will keep a great deal of extra money in a users pocket. Because of today's spiraling gas, oil, propane, and other energy costs, the EdenPURE® will provide even greater savings as the time goes by.

SPECIAL READER'S DISCOUNT COUPON

The price of the EdenPURE® GEN3 Model 500 is \$372 plus \$17 shipping for a total of \$389 delivered. The GEN3 Model 1000 is \$472 plus \$27 shipping and handling for a total of \$499 delivered. People reading this publication get a \$75 discount plus free shipping and handling with this coupon and pay only \$297 delivered for the GEN3 Model 500 and \$397 delivered for the GEN3 Model 1000 if you order within 10 days.
