

“International Success and Wealth Expert Reveals The Single Most Profitable Business Concept You Will EVER Discover To Become RICH!”

Only a Very Limited Number Good, Decent, Hard Working Men and Women Will Have The Opportunity To Build Long Term Financial Security and Earn An Outstanding Income In This Exceptional Business! Will You Part Of The Chosen Few?

My name is Ed Burton. If you're interested in wealth, real estate investment and financial success, you've probably heard of me. If not, let me quickly refresh your memory.

I am the bestselling author of two books. I own 51 investment properties. I am a licensed tax advisor... and... financial advisor (insert licenses). I have a net worth in excess of \$7 million.

Over X people have attended my seminars across the country. I have hundreds and hundreds of testimonials from people who have built real wealth from my strategies.

I own luxury cars, fine jewellery, expensive clothes and have all the material 'stuff' that goes with success.

But this article isn't about me. It's about YOU.

It's about you being in your own business, as your OWN boss, earning a surgeons income if you like, building up financial security, loving your life and doing the things that you *really* enjoy.

It's about YOU being part of an outstanding NEW business. A business that I recently stumbled across... which... is unlike anything I've ever seen.

WHAT THIS ASTOUNDING BUSINESS IS ALL ABOUT

Before I tell what this business is (and what makes it so unique and credible) first I'll tell you what it is NOT:

It is **NOT** multilevel or network marketing

It is **NOT** a direct mail business

It is **NOT** another 'get rich scheme' on the internet

It is **NOT** time consuming

It is **NOT** real estate or share market oriented

It is **NOT** a difficult business (in fact, it may be the simplest business you've ever laid your eyes on)

There is **NO** steep learning curve

You **DON'T** any prior experience or special education or skills

NO office required outside of your home (unless you want one)

NO employees needed, no matter how much money you make

NO expensive start up cost

NO need to hold stock on your shelves

This is a completely credible, ethical and viable business. It's a business that will help you pay off all your debts... buy luxury cars... beautiful jewellery... purchase a holiday home... be home for your children each day... donate money to charity, help your church. Whatever you like.

In this business:

YOU can make \$2,500-\$4000 per sale

YOU can work from home

YOU can be your own boss

YOU can a full time from part time hours (you could be quickly out earning most surgeons and lawyers if you like)

YOU are free to set your own hours

YOU can have hot, prospective clients given to you on a daily basis (that's right, no need to find your own leads if you don't want)

YOU have ALL the sales and marketing materials already written for you (you don't lift a finger)

YOU have unlimited ongoing support from our team of experts whenever you need them. You're never alone.

And most important of all, YOU have ME, and I've been there and done it. So I've proven it's possible.

In the U.S. it's a \$1.5 billion business (and growing every day)... yet...

It's Still In Its Early Infancy!

Ditto for Australia. In fact, it's one of the fastest growing industries in this country. In Australia however, there is NO competition. Nobody has gotten wind of it, yet.

What business am I talking about? Asset Protection! I am talking about YOU becoming an Asset Protection Consultant, helping your clients bullet proof their assets, putting an iron cage around them so NOBODY can take them away (not even the best 'top gun' lawyer in a big city firm!)

Don't know anything about asset protection? Don't worry. You don't need to! No prior knowledge is required. We'll show you everything you need to be a success.

Actually, becoming an Asset Protection Consultant is very similar to being a mortgage broker. But instead of helping your clients choose a mortgage, your helping them protect their assets. Wait and see, I've put it all together so it's Homer Simpson easy.

As an Asset Protection Consultant you can easily make \$100K plus per year, working from home as your OWN boss. It's an easy, pleasant business. No need to be stuck in morning traf-

fic... you don't have to answer to anybody... and you can work the hours you choose!

You are at the forefront of the hottest, most discussed, most needed and most desired financial service of all: asset protection.

We've all seen the headlines. We've all heard about the court cases of thieves suing home owners for injuries... smokers suing tobacco companies... silly people spilling hot coffee on their laps suing the restaurant. Lawyer are busy, busy, busy! And they're busier every day.

You are in a 'guarantee growth' recession proof, high demand business. The need for asset protection is sky high – the consumer awareness is sky high. And there is virtually NO competition! This truly is a unique opportunity to get in on the ground floor in what is a huge untapped market. If you want, you can make more money each month than most doctors and executives do.

WHY AM I TELLING YOU?

So, why would a bestselling author and multimillionaire investor like myself put his reputation and credibility on the line to tell you about this new business opportunity? Clearly I don't need to make any more money. What's my motivation? Two reasons:

1. Kath (my wife) and I have been blessed in our lives. Lots of people helped us along our path to financial prosperity, and we are very grateful for that. We made pact long ago that we would leave this world in better condition than when we arrived.

2. Quite simply, in all of my 25+ years of specialist accounting practice, I saw new business concepts virtually every-day... and... I've NEVER... EVER... seen anything like this. And there are just too many good, decent hard working men and women frustrated with their careers, searching for a way to make an outstanding income in a business they enjoy.

This needs to be shared.

There you have it. That's my motivation. Though I don't expect you to believe every word that I say (at least not yet), keep in mind something extremely important: I CAN'T LIE IN PRINT LIKE THIS! I would lose my tax license and my financial advisors license... my seminar rooms would clear out, and word of my dishonesty would spread like wildfire. Everything I've worked so hard in my life to build would instantly disappear in a puff of smoke! I'd be an embarrassment to myself and my family, and I don't want that.

HOW I STUMBLED ON THIS OPPORTUNITY

As you know, I speak to tens of thousands of people every year about how to build wealth through real estate, how to legally slash their taxes and the secrets to managing their own superannuation fund. The response to my seminars has been astounding, surpassing even my own expectations.

Though I talk about a range of important wealth creation topics, the ONE topic I attain the most interest from is ASSET PROTECTION.

So, at seminars... after seminars... in between seminars... during breaks in seminars... in private consultations... in phone coaching sessions... in Inner Circle meetings... by email... by fax... by courier pigeon (just kidding)... anytime or anywhere imaginable, I am grilled with questions about... yep, you guessed it, ASSET PROTECTION!

My office phone literally rings off the hook from people wanting to speak to me about how they can protect their hard won assets, before some greedy SOB tries to take them away. And often, people happily wait up to 6 weeks to speak to me!

The problem is, I'm only one man. I can't be at all places at one time. There are *far more people* that need this assistance that I can possibly help.

Being a smart guy, it took only TWO years of this bombardment for me to realise, that maybe, just maybe I could duplicate my simple SYSTEM. That's the secret to MY success. I've designed system so simple that anybody with just average intelligence can copy and put to use.

WHY YOU CAN MAKE BIG \$\$\$

Do you know how many real estate investors, landlords, home owners, business owners, white collar professionals and medical practitioners are in Australia? Millions! These are ALL prospective clients for you! The market is huge! Affluent and 'well off' Australians WANT and NEED this information.

It means you have endless amounts of prospective clients to speak to. And it means you are selling to people who can afford to buy what you're selling! Isn't THAT nice.

But best of all, I also discovered that nobody, and I mean NOBODY, is selling the type of "Bullet Proof" asset protection that I specialise in (and that you'll specialise in).

Not at this price.

Sure, you have tax specialists selling offshore trusts to their wealthy clientele (such as movie stars, CEOs etc...) but these cost in excess of \$20,000.

Most Australians simply can't afford this.

I've designed a way to provide the same level of asset protection for only a fraction of the price. And as I said above, nobody else is doing the same.

It means nobody else in the marketplace can offer the same level of asset protection at this price!

It means that you have NO competition.

It means you are getting in on the ground floor, and ethically profiting from Australia's litigation explosion.

It means you can make \$2,000-\$4,500 per client.

It means you can be your OWN boss, working from home in your shorts if you like.

It means you have a very real chance to earn an outstanding income, in a business that is an absolute breeze to operate.

WE'VE DONE ALL THE HEAVY LIFTING FOR YOU

As a distributor our my firm's asset protection structures, you'll be armed with a complete arsenal of systems, procedures, manuals and sales strategies to virtually ensure you will be a success as an asset protection consultant.

We've created a SYSTEM for making lots of money in the shortest possible time. The SYSTEM we've designed for you is how I'm certain you'll be a success. It's all laid out for you, step-by-step. It's Homer Simpson easy!

You'll get ongoing support and exclusive access to our team of expert solicitors, financial planners and accountant... ongoing teleconferences... new innovative ways to get prospective clients... sample ads and sales letters (you don't have to write anything, we've done all, too)... and orientation days with me personally! You get it all!

Unlike many of the licensing and franchising opportunities you see advertised, we show you how to get clients.

In fact, we can even provide you hot, qualified leads on a daily basis! That's right: you don't even have to get the leads if you don't want to. Every morning, you can walk into your home office and find sitting on your fax machine a list of qualified prospects to contact you.

How many franchises or licensing agreements do THAT for you? I don't know of any.

By the way, I canNOT guarantee you any monthly or yearly income. None of the income numbers stated above should be taken as guarantees or even as representations of what you may or not make as an Asset Protection Consultant. There are just too many variables – including YOU! to try and forecast earnings.

But I can say with total conviction that I've done everything in my power and expertise to provide you an opportunity to make an outstanding income, a REAL chance to be your own boss and build up security in one the most booming industries in Australia.

The rest is up to you.

This is, however, a limited offer. To keep it fair I intend to restrict the number of Asset Protection Consultants.

If you would like more information, you should call now, before it's too late. Just phone a FREE 24 hour recorded message, 1800 000 000 leave your details on the service (no 'pushy' salespeople) and a complete information kit, including FREE report and DVD will be sent to you, at no cost or further obligation.
