"After 2 weeks, my blood sugar went from 180 to 112 and stayed there!"

Breakthrough "Antioxidant" Diabetic Drink Hailed 'A Miracle'

Naturally improves blood sugar, cholesterol, circulation, energy and more in as little as 2 weeks!

"I've been a diabetic for 48 years, my quality of life has been restored!"

What part of your diabetes would you like to see "go away"? Are you plagued by weight gain and food cravings, high and low blood sugar levels, mood swings, low energy and constant fatigue, poor circulation, vision problems, intermittent pain or aggravating bouts of brain fog or memory lapses?

There is good news and it comes in the form of an effervescent drink called OPC Factor, which quickly revitalizes your entire body and mind.

Better Blood Sugar!

"My doctor was amazed! I don't know what you're doing, but keep doing it!"

Holistic health specialist, Dr. Charles Berg, says, "Antioxidant therapy may slow progress of impaired glucose tolerance."

Diabetic Doyle Allen is living proof, "After only two weeks, my blood sugar went from 180 to 112 and stayed there!"

The secret is a powerful blend of super antioxidants called oligomeric proanthocyanadins, or OPCs including powerhouses like grape seed, green tea, pine bark, and red wine extracts, along with lemon bioflavonoids, resveratrol, and 23 naturally occurring vitamins and enzymes.

No more horse pills!

Cell Essential's OPC Factor™ is the first 100% organic formula fueled by a revolutionary, high-speed isotonic liquid delivery system that mimics the body's natural pH. This provides an amazing 97% absorption rate.

Results in 20 Minutes!

Actual blood scans taken twenty minutes apart show how OPC Factor virtually flushes away free radicals, excess cholesterol crystals and sugar molecules in the bloodstream.

Excess sugar in your blood causes oxidation which leads to "slow sticky blood," a problem linked to neuropathy and edema in extremities as well as kidney damage and even blindness.

OPC Factor greatly improves circulation promoting faster blood flow; crucial for diabetics.

David Payne, a diabetic from Texas, echoes this, "Since taking OPC Factor, my blood sugar is easier to manage. It boosted my immune system and even helped my cholesterol."

"OPC Factor has helped lower my glucose levels. I sleep better and have more energy and better circulation," says Charles Leavitt.

NH Study Proves It!

A National Institute of Health funded "double blind" clinical study published in July, 2008, supports customer claims about energy. For diabetics, energy equals better sleep, moods, and overall balance.

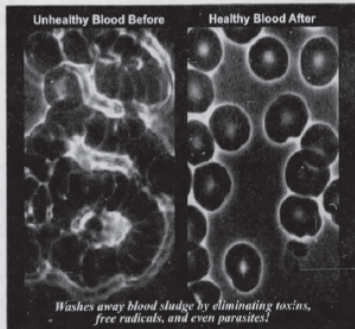

"I started taking OPC Factor and approximately a week after, I went back and had my blood checked. My blood sugar had dropped from about a 180 down to a 112. I had been having back problems and it seemed to resolve that. I like the taste. The taste is very pleasant. It has helped my overall health. The thing that I've noticed the most is the lack of back pain. I've just felt good this past year," rejoices Doyle Allen, D.

"Studies have found that free radicals produce oxidation that disrupts insulin. OPC Factor works 20-50 times better than traditional antioxidants against oxidation," says Dr. Charles Berg. "OPCs enhance insulin's ability to lower blood sugar."

The result of OPC's penetrating the blood brain barrier and quenching the free radicals is quite astounding. It's possible that after just one week of drinking OPC Factor™ you'll feel more awake and mentally energized. You'll experience sharper thinking and improved concentration.

David Payne, a diabetic from Texas, echoes this, "Since taking OPC Factor, my blood sugar is easier to manage. It boosted my immune system and even helped my cholesterol."

"My doctor said, 'I don't know what you're doing, but keep doing it.'" says Teresa Wood, from WA.

Washes away blood sludge by eliminating toxins, free radicals, and even parasites!
