

Say good-bye to your flabby abs!

AbGONE™ reduces fat and water in the abdomen

As SEEN ON
TV

Available to the public for the first time. AbGONE™, developed from concepts in research conducted at the Universities of Yale, Pittsburgh, UCLA, and California, is a major new breakthrough pill that targets abdominal fat and water that cause the pot belly.

AbGONE™, manufactured to pharmaceutical standards with patented ingredients, enables the body to reduce excess water and fat in the abdomen that the body could not reduce before, while inhibiting the excess collection of abdominal fat in the future.

Non-prescription AbGONE™ was developed with a specific proprietary formula containing Conjugated Linoleic Acid (CLA), Phosphatidylserine (PS), a highly absorbable form of chromium, and other natural ingredients to support healthy blood sugar levels, enhanced neurological boosting effects, preserving lean body mass, and the continued support of optimal water balance.

AbGONE™ has triple action ingredients: AbGONE™ ingredients increase the rate of fat metabolism, which reduces both surface and intestinal abdominal fat and helps inhibit the future formation of these abdominal fats.

AbGONE™ ingredients help lower harmful high Cortisol levels. Stressed-induced Cortisol level increases have been linked to increasing abdominal fat. Higher levels of Cortisol and stress can actually increase appetite, especially craving for sweet foods. The stopping of excessive Cortisol is also important for your psychological condition and may help improve mood and reduce anxiety.

AbGONE™ ingredients help support optimal body water balance. Therefore, you are not carrying all of those excess pounds caused by excess body water. Excess body water can increase the size of the abdomen and hide your muscles and

make you look puffy and flabby.

You need all 3 of these components working to properly reduce abdominal fat, reduce the overall size of the abdomen, and maximize the appearance of the abdomen. Men can have that "six pack" and women can get that smooth, firm, flat sexy abdomen.

The ingredients in AbGONE™ do not contain Ephedra or other harmful stimulants. The only side effects of the ingredients you should see in AbGONE™ is a better appearance. Of course, proper eating and exercise can further enhance the effects of AbGONE™.

AbGONE™ carries a 100% money back guarantee. If you are not totally satisfied, your purchase price will be refunded-No questions asked.

Readers of USA Weekend have been authorized to save \$10.00 on their purchase of a 30 day supply of AbGONE™ and pay only \$29.

For the fastest service to get AbGONE™ order from our web-site or Call Toll Free. Operators are on duty 24 hours, 7 days a week.

To order by mail, write your name, address and number of bottles you want on a sheet of paper (strict limit of 3 bottles at this discount price). Send your request with check or money order for \$29 plus a handling charge of \$3.85 per order.
