From the desk of Joann Metzger...

★ HOW HOMEMADE PINEAPPLE JELLY ★
★ MADE ME LOSE 43 POUNDS.... ★

New York,
Thursday 9:45 a.m.

Hello,

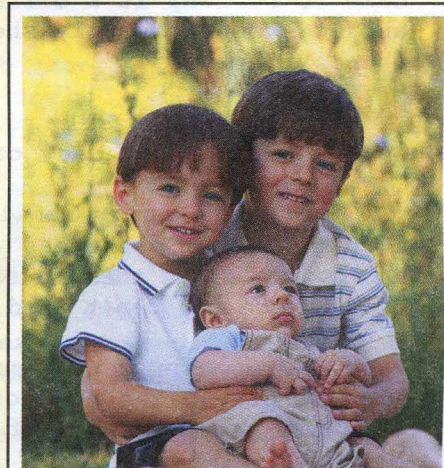

My name is Joann Metzger. I'm nobody special
-- just an ordinary mother of three beautiful kids.

But if you're like me, constantly battling to
get rid of extra pounds and inches, the exciting
news I have for you is anything but ordinary.

In fact, it's so extraordinary it can change
your life like it has changed mine! That's why I'm
sharing my incredible true story of hope and
victory over fat with you now.

I tried everything... and nothing worked.

I gained 36 pounds while I was pregnant with
my first child, Dan. And I've spent the last
4 years trying desperately to lose it.

These are my children, Dan, Tyler et Rick.

*sound
familiar?*

I dieted... I exercised... I fasted... I jogged... I tried all the fad diets...
I gave up fat... Then I gave up carbs... I even went vegetarian. Believe me,
I tried everything -- and nothing worked!

Sure I might lose a few pounds at first, but it never lasted. Soon I would
gain back every pound, and then some. Plus I hated every minute of the hunger,
the cravings, the fatigue, the hard work, the feelings of depravation. I was
miserable.

I actually became terribly depressed because I believed I was destined to be
"fat" for the rest of my life. I'll bet you know exactly what I mean.

Just when I thought there was no hope, I made the discovery that changed my
life. Here's why I call it a weight loss miracle:

*lose it...
and keep
it off!*

Without even trying, I lost 43 pounds in just 6 weeks! And here's the best
part... it's so easy, I've kept it off for 8 months! There's NO WAY it's
ever coming back!

It was fast. It was effortless. And I promise it will work for you too!
In fact...

I will send you a Free 1-Week sample of this weight-loss miracle, totally
FREE so you can see for yourself how fast you will lose your extra pounds!

next page →

Now I realize that since nothing else has worked for you before, you're probably thinking this won't either. But you would be wrong.

Remember, I was just like you. I know this works. And with this free-sample offer, you don't even have to take my word for it. YOU can soon be a walking, talking weight loss success story just like me, and you won't risk one penny proving it to yourself!

Before I tell you how to start losing pounds and inches with your 1-week free sample, let me tell you how this incredible weight-loss miracle came to be, why it's different than anything else, and how you can easily shed all your unwanted pounds in no time.

**How homemade jelly made me lose 43 pounds...
and helped many others do the same!**

Everyone in my family LOVES pineapple, and I love to cook. So one day about 6 months ago, I decided to treat them to some homemade pineapple jelly since you can't find it in stores.

I was starting to cut the pineapple chunks when I noticed the back of the jelly mix said in very small print, "Do Not Add Pineapple; Jelly Will Not Set."

This got my attention, not only because my jelly would be ruined, but because I remembered hearing a doctor on TV say that eating pineapples was the ideal natural way to lose weight.

★ Suddenly it made perfect sense to me. Something in the pineapple must prevent fat cells from forming just like it prevents the fat-like jelly from setting. So I put down my jelly, and made a call to my friend who is a pharmacist and nutritionist.

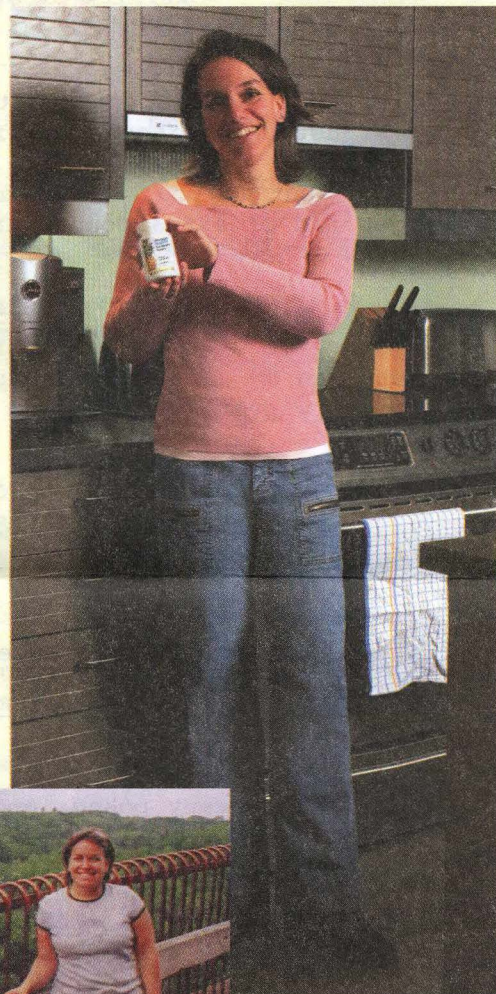

He told me that pineapples have been known for their weight-loss properties for some time, but the idea hadn't been pursued because there were two problems:

- 1) Only certain types of pineapple seemed to work, and
- 2) You would have to eat about 10 of these special pineapples every day to get the benefits.

Remember, I was desperate to lose weight, and I knew I was close to something BIG. I wasn't going to let a couple small problems get in my way. So I started researching everything I could find out about the power of pineapples. And I finally made the discovery that would change my life:

*The secret
revealed!*

To have maximum fat-fighting power, pineapples must be harvested BEFORE they are ripe. That is when their enzymatic activity is at its peak.

Armed with this powerful information, I contacted a food processing company who found the unripe pineapples I needed. They then extracted the powerful enzymes in a super-concentrated form.

Next I then sent this concentrate to a natural supplement manufacturer who figured out how to combine the powerful enzymes from 5 pineapples into one easy-to-swallow tablet.

Talk about nervous: I had to order 500 bottles of pills to start. If my idea didn't work, I'd be out a ton of money. But I was so desperate and so confident this would work that I ordered 500 bottles anyway.

like magic! ((I didn't tell anyone about my pills and I didn't change anything with my lifestyle. I didn't diet. I didn't exercise. I just started taking the pills... and thank God, the weight started to disappear like magic!))

Soon my friends and neighbours noticed how much weight I was losing and asked me for my secret. Needless to say, I sold out the balance of my 500 bottles in just a few weeks!

Everyone's success spread like wild-fire, and no one even had to say a word. All anyone had to do was look at how thin, trim and sexy everyone was becoming. It was incredible! I felt SO GOOD helping all my friends lose weight too!

So I ordered 1,000 more bottles, and they sold almost immediately. Next I ordered 2,000 bottles and sold them too. Everyone was losing weight like crazy... including me! Now my **Pineapple Super Fat-Melter** tablets are taking the country by storm!

The natural, proven way to lose all your extra weight quickly and easily.

There is no doubt that my **Pineapple Super Fat-Melter** tablets eliminate fat like nothing else. I am living proof, and so are dozens of my friends, relatives and co-workers and their friends.

But as word of my **Pineapple Super Fat-Melter** spread, people started asking why it works so well. My natural supplement manufacturer did some research for me, and this is how he explained it...

Fat doesn't stand a chance! All day, even while you sit, sleep or relax, the powerful enzymes in my **Pineapple Super Fat-Melter** tablets burn away the body fat that is stored in your hips, abdomen and buttocks. Plus **Pineapple Super Fat-Melter** breaks down fat and carbohydrates in the food you eat before they can spread throughout your body. This means whatever you eat never even gets a chance to turn into body fat. Your body can't help but lose fat.

That's the technical explanation for what happens, but here's the real-world truth about what my **Pineapple Super Fat-Melter** tablets will mean for YOU:

→ You - - and everyone else too - - will see your body becoming more sexy, trim and beautiful every day. ←

→ Losing years of stubborn fat and inches is fast and easy with my **Pineapple Super Fat-Melter**. In just days, you will see fat that you thought you could ←

never get rid of, disappear as if by magic. With NO dieting... NO strenuous exercising... NO willpower... NO effort on your part at all! Imagine...

The first day on **Pineapple Super Fat-Melter** you may wear a size 14...

... But within 7 days, you can be shopping for new size 10s!

Today, hardly anything in your closet fits you comfortably...

... But in days, you'll have your pick of your wardrobe!

Today, hardly anyone pays any attention to you...

... But soon, the compliments and conversation will be non-stop!

And you will not only LOOK great, you will FEEL great too! Within 3 weeks, up to 32 pounds or more of unwanted flab will disappear leaving you feeling slim, trim and energized! You will feel healthier and happier than you have in years!

Instead of feeling embarrassed and frustrated with your weight, the mirror will become your friend! You'll be beaming with pride and happy to show off the brand new, slim and sexy you... even in a bathing suit! (In fact, I hope your partner is not the jealous kind!!)

NEW YORK MOM

WITH 3 KIDS BECOMES FAMOUS FOR WEIGHT-LOSS

BREAKTHROUGH!

Ordinary homemaker helps herself and her friends beat fat for good! Now her discovery is taking the country by storm! Her amazing victory over fat can soon be YOURS too!

NEW YORK - - The day we visited Joann Metzger, there were kids running and screaming in the yard, dishes piled up in the sink and neighbours visiting on the porch. Another typical day in the life of this ordinary mother of three.

Only Joann Metzger's life has become anything but ordinary. About a year ago, she invented Pineapple Super Fat-Melter tablets, and her life hasn't been the same since.

"I lost 43 pounds in 6 weeks without even trying!"

The first big change was her own dramatic weight loss. "Like everyone else, I gained quite a bit of weight while pregnant with Dan, my first child," Joann said. "But after 7 years of total frustration with one diet after another, I couldn't lose the weight. I even became clinically depressed about it."

Then one day, almost by accident, Joann made the discovery that changed her life. I was going to treat my family to some homemade pineapple jelly," she said, "when I discovered that pineapples prevent jelly from setting properly. I wondered if it would have the same effect on fat."

"After lots of research, I figured out that ordinary pineapple supplements won't work. A certain natural enzyme is at its fat-fighting peak only in unripe pineapples. With nothing else to lose, I decided to try it out on myself, and the results were amazing! I lost 43 pounds in 6 weeks without changing what I ate at all."

Joann's friends couldn't help but notice the dramatic change, and soon they wanted to try her secret discovery.

Now everyone can lose fat without risk or effort!

"I never intended to make this a business or anything," Joann said. "I was just trying to help myself. But once I saw how it helped all my friends lose weight and how happy it made them, I decided I had to make this available for everybody."

"It wasn't easy, but I found a top-quality

manufacturer and a highly respected national distributor to help me reach as many people as possible with my Pineapple Super Fat-Melter tablets."

The key was finding suppliers who would ensure that there would be absolutely no risk for anyone to give Pineapple Super Fat-Melter tablets a try.

Joann explains, "I don't want anyone to miss out on having their life changed because they're afraid they won't work. I want everyone to benefit from these!"

"Now they're taking the country by storm, and as spokesperson for my own product, my phone never stops ringing," says Joann.

"What I like most, though, is when total strangers stop me on the street, or write me letters telling me how Pineapple Super Fat-Melter has changed their lives."

"People tell me all the time how they've lost 20 ... 40 ... even 50 pounds in a few weeks with Pineapple Super Fat-Melter tablets. They're fitting into clothes they haven't worn in years with no dieting or exercise. People have even told me how this has saved their marriage."

You can change your life!

Joann says she never imagined she'd ever be able to help people the way she has with her Pineapple Super Fat-Melter tablets.

"I'm just an ordinary housewife from New York who has been richly blessed. Thankfully, I still have time to cook and play with my kids," says Joann.

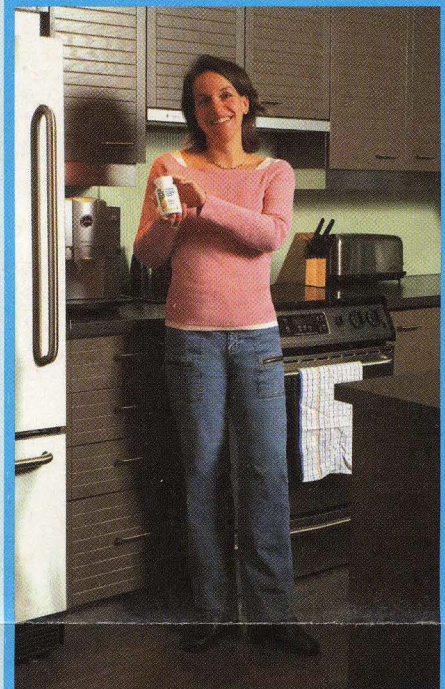

"I'm touched and proud that my Pineapple Super Fat-Melter is making a difference in people's lives."

Editor's Note: Joann insisted that we tell our readers you can try Pineapple Super Fat-Melter Tablets on a 100% risk-free trial basis. All you have to do is call 1-888-573-2929.
