“Gastric Bypass” Milkshake?

Australian weight-loss phenomenon gives you same
“I’m Too Full to Eat” results as stomach stapling!

I’ve been overweight my whole life! But now...

"I just can't eat anymore!"

“It’s crazy. I drink a milkshake and BAM... I lost 22-lbs so fast. It’s like I had my stomach stapled. Now, I couldn’t gain weight if I tried.”

By Lani Mullen
Rapid Loss Volunteer
Success Story #896

At first, the newspaper ad I saw seemed too good to be true-

But there also was a 100% Money Back Guarantee. So I called 1-800-000-0000 to sign up as a Rapid Loss Volunteer.

And why not? I only have one life to live and I want to be a healthy, active- and sexy-looking person! Wouldn’t you?

SO EASY – SO FAST

With Rapid Loss milkshakes, I lost weight almost instantly – an average of a half-pound a day! Without starving, exhausting exercise, or changing any behavior:

- ✓ You can dine at fine restaurants
- ✓ Eat fast food
- ✓ Grab a hefty snack on the run
- ✓ Share family meals
- ✓ Celebrate holidays & special occasions
- ✓ Enjoy ALL the foods you love!

SAVED ME FROM SCARY SURGERY!

Before Rapid Loss, I tried every fad diet out there and they all failed. I was DESPERATE for something - ANYTHING - that worked. I even went online to research stomach staple surgery.

It has a decent success rate, so I made an appointment to do it. But I was worried about all the possible painful, permanently-disfiguring complications- not to mention all the time and expense.

Lucky for me I saw a Rapid Loss newspaper ad and cancelled the surgery in time. Why be drastic when you can try an easy way that’s worked for thousands of people?

BETTER SUCCESS RATE THAN STOMACH STAPLE SURGERY.

That’s because Rapid Loss milkshakes work the same way. They shrink the size of your stomach and make you feel full sooner. You eat a lot less and lose weight fast!

Rapid Loss milkshakes do it all. With 5 delicious flavors- chocolate, vanilla, latte, strawberry and banana.

Each shake is a nutritionally-balanced meal, enriched with 23 essential vitamins and minerals. What sets it apart are two unique, powerful ingredients:

1. Inulin is a proven appetite reducer. It suppresses hunger, even if you haven’t eaten. All natural.

2. Sodium Alginate forms a jelly-like ball in the stomach that shrinks the space left for food. This large ball digests slowly, so you feel full for the rest of the day and you eat much less.

It’s the safe, effective, easy way to go – a ‘no brainer’ really - and it’s making stomach staple surgery obsolete!

Lose all the weight you want...eat foods you love...NEVER get hungry-tell your story as a Rapid Loss model.

PHYSICIAN ENDORSED

Rapid Loss was developed in Australia x years ago. It’s the #1 weight control product there and recommended by physicians. But what do American doctors think?

There are hundreds of Rapid Loss success stories. Here are just two of them:

Dr. Name MD of ((City, State)), a leading weight loss physician and nutritionist, says: “Before prescribing stomach staple surgery for my obese patients, I always discuss these milkshakes. The success rate is significantly better.”

“Lost 88 pounds in 6 weeks”

“My doctor gave me 5 years to live unless I lost weight. Now I have everything to live for. It saved my life.” Peter King

“Amazing” “I used to eat a whole family pizza, but with Rapid Loss I only eat a slice or two and feel too full to eat anymore.
