

Dieters line up for new weight loss capsule

PatentLEAN[™] awarded U.S. Patent for weight loss. Clinical results confirm safe and effective use of the new oral capsule can be 200% more effective than exercise and diet alone

By Laura Fisher, Media Services

People who need to lose weight fast are lining up at drugstores today enough to have the impressive new pill called PatentLEAN.

"PatentLEAN is a huge breakthrough with a powerful compound for weight loss. It's safe, effective and is backed by clinical studies," said Dr. John L. Zeak, former Chief of Medicine at St. Francis Hospital.

"PatentLEAN is so fast to get because drugstores can't keep it in stock," said Matthew Woods, company spokesman.

"We have drugstores selling over 200 bottles in just one day. Since marketing is taking several weeks, we opened a National Direct Order Line (1-800-764-6467) so anyone who doesn't want to wait can immediately have PatentLEAN sent to their home."

New PatentLEAN is a powerful and Therapeutic Regulator for the loss of body weight. Using readings from the 7-point caliper method, the results are so astounding that on average, 80% of the weight loss is from body fat. Results quickly showed losses of up to 52 pounds of fat.

The main PatentLEAN promise is to help overweight people reduce not just their body weight, but the waist circumference of the waist is fat.

"PatentLEAN will satisfy all their fat diet people have tried," according to Dr. John L. Zeak, former Chief of Medicine at St. Francis Hospital. "PatentLEAN is a huge breakthrough," he said.

PatentLEAN's powerful compound has been awarded a United States Patent for use in weight loss and weight management. PatentLEAN has been awarded an additional health related U.S. patent.

PatentLEAN's weight loss method enhances effective and healthy Thermogenesis.

Many of today's popular weight loss products claim they boost metabolism but are actually stimulant based and have no beneficial effect on metabolism rate.

Moderation is your body's way of converting the foods you eat to energy (heat) and waste products. The time it takes for this process to occur is

called the metabolic rate.

The primary mechanism of action for these stimulants is suppression of the specific center in the brain. Other weight loss products have also been associated with negative side effects.

In contrast, two separate clinical studies have shown that PatentLEAN was used safely and caused no adverse side effects when used as directed.

Dr. Henry Landy, a prominent researcher at The University of Wisconsin, discovered that the active ingredient in PatentLEAN (D-Acetyl-7- One-Dihydrophenanthrene) is naturally found in everyone's body. It

dedicates the ingredients, the active ingredient in PatentLEAN is extracted only from natural organic plant material.

PatentLEAN results show that there is a statistically significant reduction of both body weight and body fat. The study noted no differences in exercise, diet and body water for PatentLEAN's impressive weight loss. The clinical study showed results were obtained in just eight weeks with twenty-three overweight men and women, nine percent made a sixty-one percent females. Consumption included one thousand

eight hundred calories each day and utilized exercise for just one hundred eighty minutes during the week.

PatentLEAN is now available directly to the general public, yet it is always recommended to consult a physician before using it or any weight loss supplement.

"With PatentLEAN we've seen significant weight loss and body fat reductions in people and clinical studies report no adverse side effects."

For those who want it now, we are providing the information on how to have it immediately sent directly to your home. No prescription is needed.

"People who have not seen you for a while will gaze at you with their mouths open. You will get compliments after compliments. You'll display new zest for life," Dr. Zeak said.

One of the most appealing effects of PatentLEAN is the reduction in waist circumference. So, when you see PatentLEAN you'll focus not only on the scale, but also the mirror. You will find that your body is changing from fat to the attractive physical features that everyone wants.

With all of the dangers at drugstores, use the telephone number we are providing. You are only hours away from the start of a new body. You will be amazed at how fast you will lose weight and shape up. Enjoy!
