

Cleanse Your Entire Body Safely and Naturally

Not just a colon cleanse - an entire body cleanse that removes toxins, poisons and even heavy metals from your entire body including your brain

Yes, you really did come in contact with over 2 million harmful toxins today. Here's how:

Air: 200,000
Water: 150,000
Food: 325,000
Beverages: 160,000
Prescriptions: 180,000
Bacteria: 525,800
Stress: 200,000
Heavy Metals: 130,000
Radiation: 230,000
(Radiation from cell-phones, microwaves, power lines, computers etc.)

Still think that you don't need to detoxify your body? I didn't think so.

Allow me to introduce to you the easiest, most efficient and safe, top studied body detoxifier in the world: Renew Natural. It supports the body's natural detoxification systems.

Renew Natural comes to you after years of research and studies done by the world renowned biochemist; Harvey Kaufman.

After being a biochemist for over 35 years studying cancer treatments and MS, even Mr. Kaufman is blown away at how beneficial Renew Natural can be for your body.

Through study after study, year after year, Mr. Kaufman has proven that Renew Natural can help your body in the following ways:

- Improved Energy
- Greater Focus
- Improved Memory
- Pain Reduction
- Better Mood
- Better Sleep
- Improved immune system
- Weight loss

Renew Natural also helps with improving your finger-nail, skin and hair health.

Please understand... this is not a colon cleanse that will just clean out your bowels. This is a full body cleanse that literally helps grab fats and toxins throughout your entire body and immediately removes them through your urine.

Renew Natural is also a Neurotoxin eliminator which means it helps remove toxins from your brain so that it supports memory and focus improvement.

It helps support kidney and liver function.

And is literally better than any pill you will ever take because it is a liquid. Liquids can deliver nutrients to each and every cell in your body.

Renew Natural also helps make your cells tougher, preventing health issues.

The tougher your cells, the harder time free radicals have breaking down your cells and your body.

Renew Natural is safe. There have been no serious side effects since it was created over 15 years ago.

So, if you're experiencing problems sleeping, poor memory, increased colds and flu, headaches and lack of vitality, toxic build-up could be your problem.

If you're like the millions of Americans that just don't feel as good as you should, then you should start taking Renew Natural.

If you're tired, achy, depressed and have trouble losing weight (Renew Natural grabs fat toxins and disperses them too) then Renew Natural is for you. If you have health problems that are dragging you down, Renew Natural is for you.

When we interviewed the world renowned biochemist Mr. Harvey Kaufman for this article today, he told us a story of one of the people he helped just to prove how powerful Renew Natural really is. (And we checked... it's a true story.) A girls soccer player that had earned a scholarship to a very profound college started to have health problems - and like many health problems, they came out of nowhere.

She started to fall down on the soccer field for no reason. She started to lose control of her body and couldn't run anymore... walking even became a challenge and she felt horribly sick with flu-like

symptoms.

Her condition got to the point where she could no longer participate on the college soccer team and unfortunately lost her scholarship. She eventually became so ill that she had to drop out of college and return home.

After a urine test, Mr. Kaufman could verify that she had extremely high levels of toxicity. And even though it took a few months for Renew Natural to work for her because her toxins were so high, she was able to return to school within just a couple of months.

Even though she didn't receive her scholarship back, she returned to school and completed her degree and started doing what she loved again... thanks to Renew Natural.

Mr. Kaufman was nice enough to sit down and explain Renew Natural to us in detail. You may have also seen or heard him speak on television or the radio.

Although we didn't have room for everything in this ad, we've brought you the highlights.

Here's how he explained everything to us:

Memory Support: Renew Natural can actually help remove heavy metals from the brain. Yes, you have toxins in your brain too.

Lead and mercury are responsible for memory problems. Aluminum and copper contribute to memory loss and a reduction in cognitive functions. Renew Natural can help remove all of those harmful toxins.

Renew Natural also helps stimulate electrical activity in the brain.

Interstitial scanning (like the one displayed at right) shows how brain activity is increased with Renew Natural and shows it works. People also report clear memories, the ability to concentrate longer, less irritability, more restful sleep and increased ability to perform and complete tasks.

Mr. Kaufman gave us these two examples of how Renew Natural can directly benefit your life: Have you ever walked in to a room and then forgot why you went in there?

Have you ever started a sentence and then stopped midway through because you either lost your train of thought or just couldn't grasp the word you needed?

Those both could be signs of toxicity. Renew Natural can help with both of those problems.

Vitality and Mobility: Since Renew Natural is powerful enough to work at a cellular level, it can help remove harmful toxins away from your body that were robbing you of energy. You will feel better than ever.

Body Aches and Pain: Renew Natural has been shown in a placebo-controlled study to help improve critical wellness indications.

Which means for you and your health... Renew Natural supports the removal of heavy metals, biotoxins, solvents, pesticides and chemicals that may cause your aches and pains.

Toxins accumulate in muscles, connective tissues, fat on cell walls and around nerve endings. All of that may cause pain that you don't need.

So Renew Natural supports the removal of the toxins.

Aging Issues:

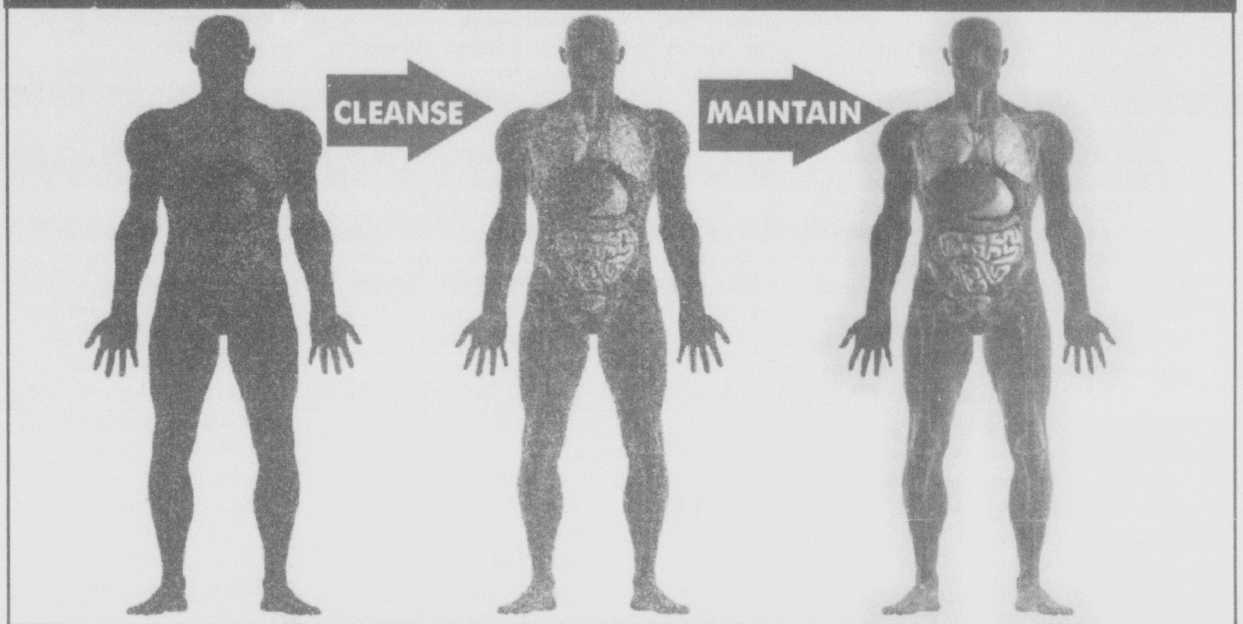

Removing toxins helps slow the aging process and Renew Natural has been proven to help a wide range of aging problems. It is a revolutionary anti-aging product that supports healthy cellular growth and natural vitality.

Of course we wanted to know even more about this amazing product so here are the cold hard questions we asked.

Q. Is Renew Natural safe to use?

A. Yes. Renew Natural is a patented molecule that is 100% soluble in water and

Renew Natural cleanses your entire body, not just your colon, so you're running at optimal health all day - every day!

therefore can pass through the blood-brain barrier.

It is made from a naturally occurring substance mother nature gave us over 1000 years ago. Its ingredients are on the FDA list of substances with GRAS status (Generally Recognized as Safe.)

Renew Natural has had no reported adverse effects over more than ten years of use by thousands of people. But before starting any new supplement or work out program you may want to consult your doctor.

Q: How much should I take?

A: The recommended daily dosage for normal use is 10 drops per day. This is taken 5 drops in the morning and 5 drops at night, mixed with water or any non-carbonated liquid. It has absolutely no taste at all, so feel free to put it in almost anything you drink without it affecting the taste whatsoever.

Q: How do I know Renew Natural is working?

A: Renew Natural is supported by placebo-controlled studies, heavy metal removal data and laboratory testing.

People usually know it's working because they experience increased energy, concentration and focus. They find that their memory and mental clarity increases and that their sleep improves.

Many find that they are less irritable. Some people increase their water intake, as Renew Natural helps hydrate your cells.

Some people have noticed increases in muscle strength.

Also, products that you are taking to help with joint pain may become even more effective.

This is because Renew Natural has proven through studies to actually help deliver medicines and vitamins that you are currently taking. It is so powerful that it can actually grab hold of your medicine and help deliver it right to your cells.

When people take medicine it is usually broken down by stomach acids and then a large part of it is flushed out by the colon.

But with Renew Natural your medicine or vitamins have a much better chance at reaching your body at the cellular level where you need them most.

End of interview.

CLINICAL STUDY PATIENT 012-BRAIN Just look at the improvement in function.

At the beginning of this study, this participant had very low electrolytic activity across both the frontal and temporal lobes of the brain. The increase in electrolytic activity was observed in a number of Renew Natural participants proving Renew Natural is extremely beneficial to the brain and brain function.

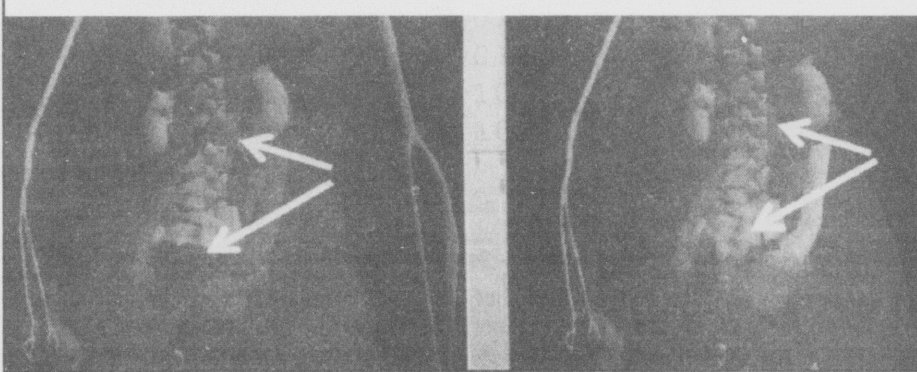

CLINICAL STUDY PATIENT 016-NECK SIGNIFICANT REDUCTION IN NECK PAIN

This participant was experiencing chronic neck pain at the beginning of the study. After taking Renew Natural, the electrolytic neutrality in the previously depressed vertebrae were returned to normal. This participant noted a significant reduction in neck pain.

CLINICAL STUDY PATIENT 009-BACK BACK PAIN DIMINISHED

This patient was experiencing lower back pain at the beginning of the study. After taking Renew Natural, she noticed that the back pain had diminished. An observation supported by the increase in electrolytic activity in the previously depressed vertebrae.
