“For 40-Years, I was tortured with unbearable indigestion”

Confessions of an acid reflux victim

“And How I BEAT the indigestion Nightmare that Almost Killed Me!”

By Ralph Burns;
“Former” acid reflux sufferer

Here's My Story: I've Suffered With Acid Reflux for Almost 40 Years Now.

Unless you experience it; you can't imagine how horrible it is. Every time I ate spicy foods I would get what I called “ROT GUT”. Like something was rotting in my stomach. But now I can eat anything... No matter how spicy. Even if I never could before.

Let me explain... For the better part of my life; I purposely avoided a lot of foods. Especially ones with even a tiny bit of seasoning. Because if I didn't, I'd experience a burning sensation through my esophagus— like somebody poured hot lead or battery acid down my throat. Add to that, those disgusting “mini-throw ups” and I was in “indigestion hell”.

“I was beside myself. What was I gonna do? Keep taking the pills, or suffer with problems that could ultimately be my demise.”

Doctors put me on all sorts of antacid remedies. But nothing worked. Or if they did, it would only be for a brief period. And then boom! My nightmare would return.

Sometimes, I felt like I was dying. The pain was unbearable and nothing could make it stop.

But then my wife, who occasionally suffered with the same problem; gave me one of her prescription acid blockers. It was a miracle. I felt like I could live again. Because before that, I was just miserable. I wanted to kill myself. But thankfully, it worked, and worked well.

I felt great, until about one year ago; when I read an FDA warning that scared the heck out of me. It went something like this...

FDA WARNING! Using proton pump inhibitors (PPIs) on a long term basis, increases your risk of hip, bone and spinal fractures.

That's a particular concern to me, since many acid blockers are PPI's. I've gone through two back surgeries and bilateral hip replacements. I had to ask myself, could PPI's have been responsible for my medical woes? After all...

“The Recommended treatment for Prilosec®, Prevacid®, and all other PPIs is only 14 days— I TOOK THEM FOR 14 YEARS!”

I was “between a rock and a hard place”. Stop using the PPI's and I'm a “dead man in the water”. It would be unbearable. I wouldn't be able to eat anything. I'd have to go on a water diet.

But that FDA warning was scary. I knew I had to stop or else risk developing spinal stenosis. My mother had that. And I watched her die a horrible death. Her spine just fractured. It was the worst death. She didn't deserve that. And neither do I.

I had to quit. So I stopped taking PPI's for a day or so. But my indigestion was worse than ever. I would rather take the chance of a spinal fracture than to live like that again. I tried everything. Even started using home remedies like Apple cider vinegar. But it just felt like I was pouring even more acid down my throat.

Then one day at dinner, a friend of mine said “why don't you try an aloe drink?” I said “aloe drink”? Jeez. That doesn't sound good at all!” The next day he brought me a case of something called AloeCure®. I was skeptical, but I was desperate! So instead of being an ingrate I decided to try it.

I was shocked! AloeCure® tasted pretty good too. It has a pleasant grape flavor that I actually enjoy drinking. I decided to

experiment. I stopped taking the PPI's altogether and replaced it with a daily diet of AloeCure®. Then something remarkable happened... NOTHING! Not even the slightest hint of indigestion.

And here's the best part. The next day we had Italian food — my worst enemy. But for the first time in 40 years I didn't get indigestion without relying on prescription or OTC pills and tablets. Finally, I just didn't need them anymore!

I was so thrilled; I wrote the AloeCure® company to tell them how amazing their product is. They thanked me, and asked me to tell my story... The story that changed my life. I said “Sure, but only if you send me a hefty supply of AloeCure®. I just can't live without it.”

But don't believe me. You have to try this stuff for yourself. I recommend AloeCure® to anyone who suffers with the same problem I did. It gives you immediate relief. You'll be grateful you did. I sure am. It's the best thing that's happened to me in a long, long time.
