50 Years of Artery Blockages CLEARED!

Madison Heights Resident Clears Own Arteries of Deadly Plaque; Heads Off Future Brain Disaster

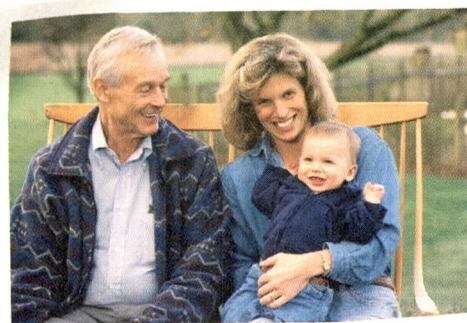

In 2005, Robert D. of Madison Heights, Michigan suffered a severe blockage of blood flow to the brain that was triggered, his doctor said, by a 90% blockage of his carotid artery.

Robert's doctor desperately needed to operate on the blocked artery to prevent future problems and possibly even to save his life. But Robert's weakened condition made the operation too dangerous.

That's when — out of sheer desperation — Robert decided to try something radical: A small, easy-to-swallow 23-cent

supplement capsule that thousands of Americans swear has worked miracles for them.

Three months later, Robert saw his doctor again to see if he was fit for surgery.

The news was better than Robert could have ever dreamed. The Doppler showed the blockage had shrunk dramatically in just 90 days: The artery, which had been 90% blocked just three months earlier, was now 80% CLEAR!

His doctor was positively stunned... announced that surgery was no longer needed... **CANCELLED** the operation ...and sent Robert home!

—by Layne Lowery
President, Health Resources™

Is Robert's story unique? Far from it: Nearly every day of the year, thousands of Americans are discovering the same secret Robert did!

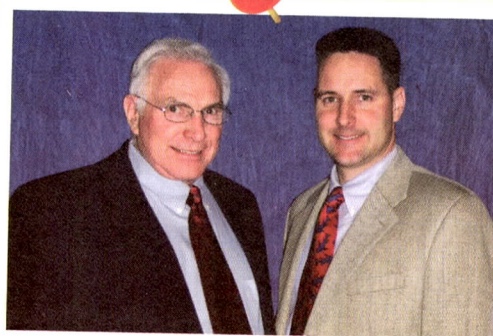

And now, this revolution in health can help free YOU from heart worries... help protect YOUR brain against a devastating blockage of blood flow... and help bring new strength, energy and improved function to every muscle, joint, and organ in YOUR body!

In this report, I'm going to give you the power to help scrub away 50, 60 — even 70 years of artery-clogging plaque — and help clear your arteries so quickly, both you *and your doctors* will be utterly astonished!

My name is Layne Lowery and I'm president of Health Resources™. More importantly, I'm Don Lowery's son.

From my youngest days, I remember my dad struggling with high blood pressure — “Malignant hypertension,” the doctors called it. I honestly can't remember a time when Dad wasn't dealing with his heart problem — and absolutely *fed up* with the high cost and miserable side-effects of the drugs doctors gave him to control it.

Now, Dad has a lot going for him. He's smart... inquisitive... he's a cracker-jack health researcher... and most of all, he's suspicious of the massive drug companies that control America's trillion-

“Six years ago, my dad — Don Lowery — discovered the ultimate heart-saver: A revolution in health that can help free you from heart worries...

dollar medical industry.

...And so, Dad launched a personal quest for a better way to deal with his heart problems. Not just to ease symptoms, mind you — to end them. Naturally. Permanently. Without side-effects. And for a fraction of what doctors and drug companies charge you.

In 1998, my Dad told Mom and me that he had found the answer. It was called “Chelation”

— from a Greek word that means “to claw” because it claws heavy metals, cholesterol, and plaque out of the human body...

- ▶ He told me how the U.S. Navy had used chelation therapy to claw toxic lead deposits out of the bodies of sailors working on military ships...
- ▶ He showed me medical studies from around the globe, proving it flushes heavy metals out of the body — and that it's up to 82% effective at dissolving dangerous artery plaque...
- ▶ He told me how the active ingredient in chelation therapy — EDTA — is so safe, both the U.S. Food and Drug Administration and the U.S. Department of Agriculture approve it for use in baby food. And how EDTA has been given to more than 1.5 million heart patients — and millions more victims of heavy metal poisoning — for more than 57 years without any significant adverse side effects ever being reported.

But there was a problem. Chelation therapy was expensive, time-consuming, and often painful. You had to go to a doctor's office... have a needle stuck into your vein... sit there for three hours or so while the EDTA did its work.

And even worse: A single session cost up to \$300, and to be effective, most people required at least ten sessions — *at a cost of \$3,000!*

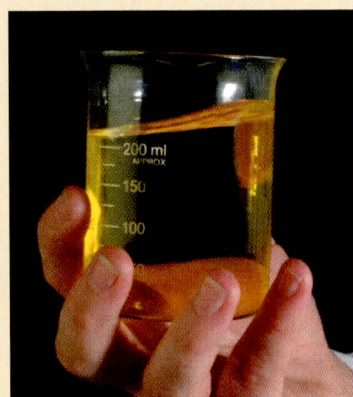

So Dad began to wonder, “There's no doubt intravenous (I.V.) chelation is a heart

Enhanced Oral Chelation™ Clears Away Plaque Like a White Tornado!

Take EOC™ for 1–2 weeks

Clear non-EOC urine sample

EOC "white tornado" sample

You Can Know FOR SURE It's Working for You!

Just try this simple test:

- ▶ **Step One:** Use a small, clear glass bottle to store a urine sample the morning before you begin taking Enhanced Oral Chelation™.
- ▶ **Step Two:** Take Enhanced Oral Chelation™ as directed for one to two weeks.
- ▶ **Step Three:** Take a second urine sample.
- ▶ **Step Four:** Hold the first (pre-chelation) sample in front of a bright light and swirl the bottle. You'll observe that the urine is clear.

Then, do the same thing with the second (during chelation) sample. You'll see a "white tornado" of sediment swirling in the urine.

"I was skeptical as to whether it was working then I took the test. Caught my first sample of morning urine, then let it set.

"Wow! I saw proof it was working. Now I'm a full believer."

—Frieda C., Fallbrook, CA

"I asked my physician what that white powder was and he said 'plaque.'

"Your Enhanced Oral Chelation™ is getting the plaque out of my arteries, which makes me a good candidate for NO HEART PROBLEMS!"

—Gerry W., West Falmouth, MA

miracle. But it's inconvenient, painful, and costly...

"...Could EDTA work as well if it was taken by mouth?"

"...Could it work *even better* if combined with key vitamins, minerals, and amino acids that are also *scientifically proven* to help lower blood pressure, reduce cholesterol, and lower heart and brain risk?"

Finally, in early 2001 — after years of testing — our team of top-flight scientists struck on the optimal oral chelation formula!

Because his formula contains vitamins, minerals, and amino acids that intensify EDTA's ability to scrub arteries clean, he named his invention "Enhanced Oral Chelation™."

At first, Dad just used it himself and gave it to a few friends. Then, word began to spread and we had no choice but to begin selling it — keeping the price as low as possible to help as many people as possible.

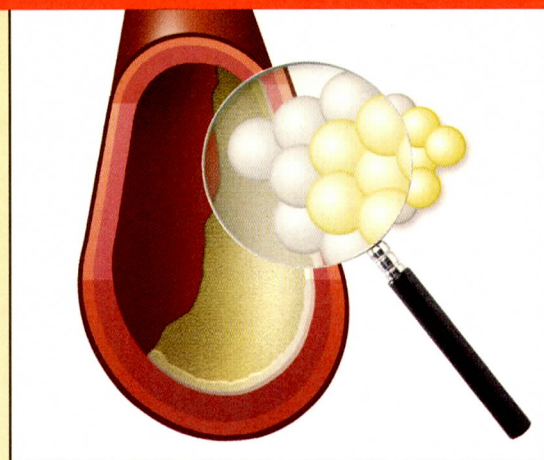

Nothing — I repeat: NOTHING — could have prepared us for what happened next...

An Avalanche of Gratitude

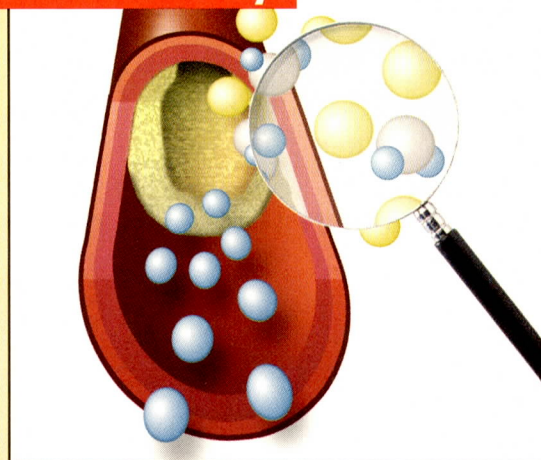

Within a few months, Dad's mailbox was overflowing with letters — each one telling an amazing story of how Enhanced Oral Chelation™ had helped...

- ✓ **Blast deadly plaque** out of their blocked arteries...
- ✓ **Miraculously lower** their blood pressure and cholesterol...
- ✓ **Restore life-giving circulation** to their cold, numb, and painful arms and hands, legs, and feet...

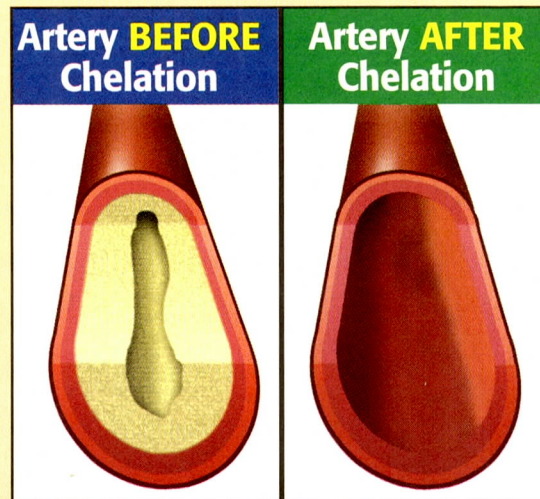

How EDTA Chelation Works In Your Body

▲ Plaque is made up of microscopic cholesterol molecules that are bound together and then attached to your arteries with calcium "glue."

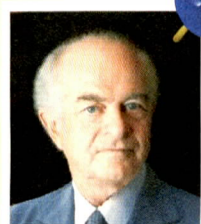

▲ EDTA chelation dissolves plaque by "clawing" away the calcium that holds it together — reducing it to a harmless white powder which is flushed away in your urine.

▲ As plaque is flushed away, healthy blood flow is restored to the heart, brain, muscles, extremities, and every organ in your body!

These statements are anecdotal and may not represent typical results. Individual results will vary. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

"Published research and extensive clinical experience showed that EDTA helps reduce and prevent arteriosclerotic plaques, thus improving blood flow to the heart and other organs."

"EDTA chelation therapy might eliminate the need for bypass surgery."

"Chelation has an equally valid rationale for use as preventive treatment."

— **Dr. Linus Pauling**
Two-time Nobel Prize-Winning Scientist

- ✓ Eliminate their skipped heartbeats and erased their heart pain.

And of course, a staggering number also tell us how Enhanced Oral Chelation™ allowed their doctors to reduce or even cancel costly medications and in some cases call off dangerous surgical procedures.

And as Enhanced Oral Chelation™ cleared dangerous plaque out of user's 75,000 miles of blood vessels — and nutrient-rich, life-giving blood began coursing to places it hadn't reached in decades — even more astounding letters came pouring in, saying...

- ✓ Brain cells that control learning, reasoning, coordination, and memory were rejuvenated and sparked to life again...
- ✓ Nerve endings, once deadened, were being revived and electrified. Creaky, inflamed, painful joints were being soothed, renewed, and rendered pain-free...
- ✓ Entire organs — eyes and ears... hearts, lungs, and livers... stomachs, pancreas, and intestines — and even sexual organs — were being revitalized and returned to their normal functions...
- ✓ Extremities — arms and hands, legs and feet — once cold, tingling, and numb were being warmed and desensitized by abundant supplies of life-giving blood...
- ✓ Skin that was thinning and weakening with each passing year regained the smoothness, elasticity, and youthful glow

**Heart and brain problems... cholesterol...
high blood pressure... circulation...**

How can one, simple supplement help solve *so many* problems?

Three reasons:

1. EDTA helps remove rogue calcium deposits throughout your body — and by doing so, transforms dangerous plaque into a harmless powder that's flushed out in the urine:

Suddenly, your eyes, ears, skin, joints, muscles, and every organ in your body — begin getting the blood, oxygen, nutrients, and immune cells they need for repair, to keep you healthy and help you function normally!

2. EDTA helps remove toxic heavy metals and chemicals that can poison your body, depress your immune system, and promote abnormal cell growth:

Since the moment you were conceived, you've been absorbing dangerous

pollutants from the foods you eat, the drugs you take, and from the environment.

Over time, they accumulate inside you and begin poisoning your cells — including the special immune cells Nature designed to destroy invading viruses and bacteria and even abnormal cells.

EDTA helps steadily ELIMINATE these poisons from your body, giving it the power to fight illness and help keep you healthy!

3. EDTA removes dangerous free radicals that prematurely age you and deform your cells:

EDTA is so powerful at destroying free radicals, it's approved by the U.S. Food and Drug Administration AND the USDA as an additive to keep the foods you eat from turning rancid!

it had 10, 20, even 30 years ago...

- ✓ And as users' bodies rallied, even the fatigue that began plaguing them after age 50 was giving way; replaced by deep reservoirs of vibrant new energy!

Real people. Real results.

Q: Why doesn't my doctor know about Oral Chelation? **A: Maybe he's a little behind on his reading!**

Reports of oral chelation's astonishing effectiveness are popping up in medical journals all the time. In a report published in the highly respected *Journal of Chronic Disease* for example, when 10 patients with heart and

vascular problems were given one gram of oral EDTA daily for three months ...

- ✓ 7 of the 10 patients experienced significant reductions in their cholesterol levels — one patient's cholesterol plummeted 54% — from a high of 278 to a low of 128!
- ✓ All 10 enjoyed a lowering of their high blood pressure...
- ✓ All 4 patients with angina reported significant pain relief, and...

- ✓ The patient with peripheral vascular problems reported improved exercise tolerance; researchers found an improved pulse in his extremities.

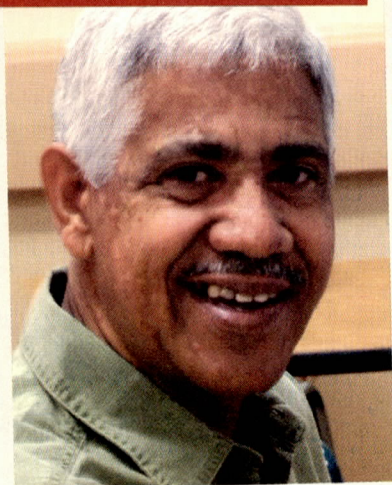

And in a second study reported in the same prestigious medical journal, when 20 patients who suffered from high cholesterol, high blood pressure, angina or peripheral vascular problems were given one gram of oral EDTA per day for 90 days...

- ✓ Elevated cholesterol levels in 9 patients dropped to within the normal

range, making statin drugs unnecessary...

- ✓ Angina attacks were reduced in both frequency and severity in 5 individuals...
- ✓ One person — a heart attack victim who had been suffering several angina attacks every day — obtained complete relief, and...
- ✓ NO adverse results were experienced by any of the patients!

Note: Enhanced Oral Chelation™ provides 200mg of EDTA per daily serving.

...What Will it Do For YOU?

Miraculous!

"I ordered Enhanced Oral Chelation™ for my mother who suffered a blockage in the fall of 2005. At the time she began taking it, she was taking medication for high blood pressure."

"After a couple of months of taking Enhanced Oral Chelation™, she noticed that the wooziness she had experienced had cleared up. She is no longer taking the high blood pressure medication. The benefits have been miraculous."

—V.L., Grandview, MO

Q: How does Enhanced Oral Chelation™ compare to Intravenous (I.V.) Chelation Therapy?

A: Very well, thank you!

According to the *Journal of Laboratory and Clinical Medicine*, taking oral EDTA every day works just as well as occasional I.V. chelation sessions — but without the needles, time commitment and high cost!

A full course of 10 I.V. chelation treatments requires 30 hours and costs up to \$3,000. But Enhanced Oral Chelation™ is only 23 cents per capsule and takes only seconds — and no painful needles are required!

My Lowest Blood Pressure Reading in 20 Years!

"I just wanted to let you know that my blood pressure is the best it has been in 20 years."

"My reading was 110/60. The nurse at my doctor's office wanted to know what I was doing, so I told her and gave her all of the information."

—Vivian M., Martinsburg, WV

90 Days, 48 Points!

"About five months ago I ordered three bottles of Enhanced Oral Chelation™ from Health Resources™. My blood pressure was always high before. But my pressure was tested at least four times in those three months. It went from 145/93 to 120/70."

"I skipped a month or two and the blood pressure went right back up."

—Hugh M., St. George, GA

It's the Best Thing That Happened to Me!

"I have been taking Enhanced Oral Chelation™ for about three months and my blood pressure is almost normal. I'm 65 years old and my doctor was amazed that my cholesterol and blood pressure went down so much."

"Enhanced Oral Chelation™ is the best thing that happened to me."

—Sue L., Kaneohe, HI

Cholesterol-Clobberer!

At first, I was startled at the number of Enhanced Oral Chelation™ users who say it solved their cholesterol problem. But it's really a no-brainer when you think about it...

...When the EDTA in Enhanced Oral Chelation™ flushes away excess calcium in your bloodstream, excess cholesterol goes right along with it — and your cholesterol can return to normal!

That's why so many Enhanced Oral Chelation™ users are suddenly freed from high cholesterol worries and the adverse side-effects of statin drugs...

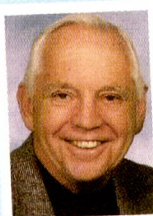

It Lowered My Cholesterol ...BY HALF!

"I was so amazed at the difference your product has made in my health.

"After taking Enhanced Oral Chelation™ for one month, my cholesterol was down by one half."

—Bettye G., Streetman, TX

It's an Answer to My Prayer!

"I can't say enough good things about Enhanced Oral Chelation™. I have had very high cholesterol all my life. My last blood test showed it had dropped 25% — a real answer to prayer. Thank you very much for your fine product!!!"

—Dale H., Avon Park, FL

My Doctor's Flabbergasted at My New Cholesterol Numbers!

"My doctor wanted to prescribe Lipitor® and I refused. I asked him to recheck my lab work in three months, after using Enhanced Oral Chelation™. The significantly lower total cholesterol lab results he saw 90 days later, astonished my doctor.

"Thank you for offering such an amazing product."

—Faid K.,
Punta Gorda, FL

My Total Cholesterol's DOWN 31% in 45 Days!

"Enhanced Oral Chelation™ cut my cholesterol from 245 to 168 in a month and a half. The doctor said my Triglycerides were excellent."

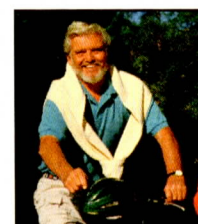

—Shirley W., Terryville, CT

"Thanks for the Enhanced Oral Chelation™ that I began taking a year ago. I used to have cholesterol of 350. I recently took a cholesterol test and my cholesterol has come down to a normal range of 199.

"I recommend that everyone take Enhanced Oral Chelation™. Thanks a million!"

—Gislaine A., Los Angeles, CA

Even My Doctor Stopped Nagging Me!

"I have had elevated cholesterol for as long as I can remember and a family history of heart problems. My doctor was threatening to put me on statin drugs. I was resisting because I am a cancer survivor and have been told that statins could affect my immune system.

"A friend gave me a large pamphlet on Enhanced Oral Chelation™ explaining how it worked. I started on the program six months ago and just had my yearly physical.

"My bad cholesterol went from 169 to 120 and my total went from 269 to 196.

"My doctor still wants my bad cholesterol to come down some more but statins are no longer threatened. My doctor asked me how I did it."

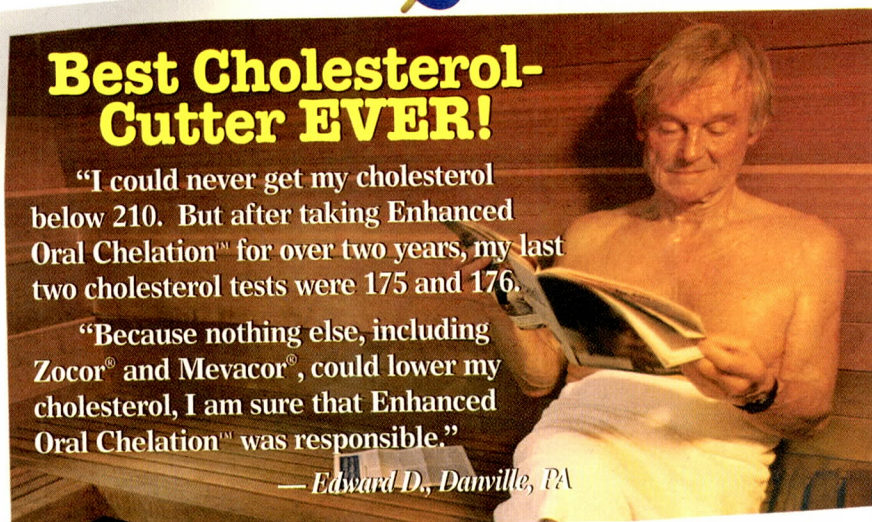

—C. G., Peterborough, NH

Best Cholesterol-Cutter EVER!

"I could never get my cholesterol below 210. But after taking Enhanced Oral Chelation™ for over two years, my last two cholesterol tests were 175 and 176.

"Because nothing else, including Zocor® and Mevacor®, could lower my cholesterol, I am sure that Enhanced Oral Chelation™ was responsible."

—Edward D., Danville, PA

Normal and Drug-Free for The First Time In Years!

"My husband Jim and I started using Enhanced Oral Chelation™ about a year ago. The first thing I noticed was the numbness in my hands started going away. It no longer wakes me up at night.

"But when we went to the doctor for blood tests, we were really surprised. Our cholesterol and blood sugar levels were normal. First time in years.

"My husband went off his Lipitor® and is doing fine."

—Dorothy P., Silver Lake, KS

I Pulled a Fast One on My Doctor — And Got Away With it!

"My doctor insisted that I take Lipitor® for my high cholesterol. I took it for about two weeks, then stopped after reading that it could cause liver problems, and began taking Enhanced Oral Chelation™ instead.

"On my next doctor's appointment 10 weeks later my doctor told me that my blood work showed my cholesterol normal and to keep taking the Lipitor®.

"When I told her that I switched to Enhanced Oral Chelation™, she told me to just continue taking what I was taking. My cholesterol is still under control one year later."

—Dale S., Dayton, PA

Q: Since EDTA removes excess calcium from my arteries — could it weaken my bones?

A: Your bones and teeth are quite safe.

In fact, through a complex action of the parathyroid gland, EDTA actually stimulates bone growth!

In fact, many health authorities believe EDTA is an ideal way to actually make your bones stronger!

Enhanced Oral Chelation™ is a Breath of Fresh Air!

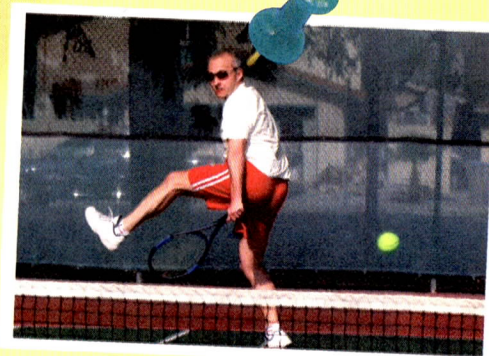

"My husband has only been on your Enhanced Oral Chelation™ for two weeks and he is already telling me how much better he feels."

"He has severe blood sugar problems and also had angina for several years. He is not as short of breath as he has been, he is beginning to walk better and is able to do some yard work for exercise."

"He can't believe he has felt the difference so quickly. We are so glad we read about your product and decided to try it."

—Mrs. Robert C., Ft. Pierce, FL

"I have been taking Enhanced Oral Chelation™ since Sept 2003. The product is better than you describe."

—Calvin J., Carson City, NV

"Enhanced Oral Chelation™ is a wonderful body cleanser and it makes you feel good all over."

—Mrs. Allan K., Glenview, IL

This product has probably added many more years to our lives.

"My husband was found to have a filling [that was] leaking mercury. Plus, we found out that he was subjected to much more mercury than we first thought. After the leaky filling discovery my husband told me he used to break thermometers from the science class in school and rubbed the mercury into the pennies so they would look like dimes.

"I asked him how long he did that and he said until they ran out of thermometers!

"So, a few weeks ago, our doctor suggested we buy a few bottles of Enhanced Oral Chelation™.

"The first thing my husband noticed was increased energy. Usually after coming home from work he would have dinner and take a three-hour nap and then return to bed a few hours later for the night. The three-hour nap is no longer needed, plus he is having a lot more energy at work.

"This product alone has probably added many more years to each of our lives."

—Favienne R., Shelby, MI

"I use Enhanced Oral Chelation™ to offset the danger posed by my dental work."

—James M., Jasper, AL

Partial Paralysis Gone!

"My husband worked for Farm Services for 37 years and was exposed to a lot of farm chemicals. One day he said to me, 'My hand is dead.'

"I had just received the information about Enhanced Oral Chelation™

through the mail and I had read the information several times. So I told him, 'Why don't we order some for you?'

"After two weeks, he stopped complaining about his hand numbness. At the end of one month, he was feeling more energetic and his disposition was greatly improved."

—Anne W., Tahlequah, OK

No More Lead!

"Two years ago, tests showed I had a lot of lead in my body. I started on your Enhanced Oral Chelation™, and today I feel like a different person."

—Weldon S., Allen, TX

My Personal Rx for Pollution!

"I had been forced some years ago to walk some distances in my hometown while a gigantic tire fire polluted the air with heavy metals and other toxins, so bad that the fish died in the local river!

"I was diagnosed several years ago as being in the 'early stages' of emphysema, but shortly after starting your Enhanced Oral Chelation™ capsules, I started to breathe more easily and clearly.

"And my weak, unstable legs started feeling stronger and I could take bigger steps than previously. The leg pain that's hassled me for years has definitely been lessened!"

—Gloria F., Seattle, WA

More "Q"s, More "A"s...

Q. Can I take Enhanced Oral Chelation™ while I am taking prescription medications?

A. Enhanced Oral Chelation™ is a dietary supplement. We are not aware of any contraindications with herbs or medications. You should always consult with your health care practitioner or pharmacist if you are taking medications or for specific health concerns.

Q. Are there any side effects with taking Enhanced Oral Chelation™?

A. There are no known side effects associated with taking Enhanced Oral Chelation™. However, it is important to understand that different nutrients affect people in different ways.

If you think something is not agreeing with your body, you may wish to reduce the amount you are taking and then gradually build back up.

As with any health concern, you should consult with your health care practitioner for specific health questions or concerns.

Q. How long before I see results from taking Enhanced Oral Chelation™?

A. Everyone is different. Some people start seeing results within days or weeks. Some take this supplement for two to three months or longer before they begin to see positive health benefits. You must remember that with years of constant exposure to toxins and heavy metals, it takes time for supplements and natural products to do their job.

And remember: You have plenty of time to let the product work for you. You're protected by my unconditional, 100% money-back guarantee with no limitations whatsoever!

These statements are anecdotal and may not represent typical results. Individual results will vary. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Save up to \$140.40 on Enhanced Oral Chelation™ and Claim up to 7 Valuable Gifts—A \$126.65 Value, FREE!

In the few minutes we've spent together today, I've introduced you to 134 good, honest people and you've heard their true-life stories about the astonishing effectiveness of Enhanced Oral Chelation™...

✓ You've met many whose lives were once severely limited by illness — and are now walking, running, swimming, weight lifting, gardening, bicycling, remodeling homes, enjoying hobbies, planning vacations, dancing, and working productively — all thanks to Enhanced Oral Chelation™.

✓ You've met folks who've had their open heart surgery cancelled — like Rick V. in Miami, FL... who had artery surgery cancelled — like Francis A. of Moline, IL... who had Heart Catheterization procedures cancelled — like Cheryl R. of Horsham, PA... and who swear Enhanced Oral Chelation™ saved their lives — like Anna C. of Rosebush, MI...

✓ You've seen how Enhanced Oral Chelation™ has made it possible for Fred M. of Brooksville, FL to live pain-free without his Nitroglycerine tablets... and how it helped James R. of Marcus, WA kick the blood pressure meds habit...

✓ You've met Rick T. of Wetumpka, Alabama and Billy A. of Hermitage, TN who no longer need expensive prescriptions for male potency... and Charles S. of Cameron, MO who says Enhanced Oral Chelation™ saved him from the wheelchair...

✓ You've listened as Hurschel R. of Jonesboro, AR, Mary C. of Benicia, CA and many others rejoiced over no longer needing eyeglasses to read, watch TV or even drive at night...

✓ You've heard many folks — like Homer C. of Willcox, AZ — say that Enhanced Oral Chelation™ is simply "Amazing"... and you've seen how

many of our Enhanced Oral Chelation™ users say their doctors are "Amazed"...

"Astonished"... "Thrilled"... and even turned into "Believers" because of the miraculous effects this amazing supplement has on their lives.

Here are six excellent reasons why this may be the best time ever to experience the benefits of Enhanced Oral Chelation™ yourself...

Reason #1:

During this Special Introductory Offer, you'll save up to \$140.40 on Enhanced Oral Chelation™

Save up to 30%!

When was the last time a big drug company or even a supplement firm offered you a 30% discount just for giving their product a fair try?

Reason #2:

You'll also receive up to 4 FREE bottles of Mineral Power!™ — a \$79.80 value.

Get up to 4 FREE bottles!

Since the EDTA found in Enhanced Oral Chelation™ is so effective at clearing out the gunk in your arteries, it's vital that you take a potent mineral supplement along with it.

Health Resources' scientists formulated Mineral Power!™ especially for folks taking Enhanced Oral Chelation™.

It combines calcium, zinc, selenium, magnesium, copper, manganese, chromium, molybdenum, and over 70 trace minerals into one powerful formula.

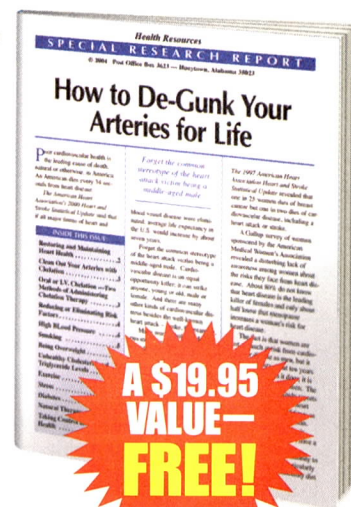

Normally, a single month's supply of Mineral Power!™ is \$19.95. But as part of this Special Introductory Offer, you can receive a free supply of Mineral Power!™ for as long as you're also taking Enhanced Oral Chelation™!

That's a value of up to \$79.80 per year!

Reason #3:

To help you enjoy the most Enhanced Oral Chelation™ has to offer, you'll also receive a complimentary copy of HOW TO DE-GUNK YOUR ARTERIES FOR LIFE! — a \$19.95 value, FREE.

Enhanced Oral Chelation™ is the ultimate circulation booster. And there's even more you can do to protect your heart and brain. **DE-GUNK YOUR ARTERIES FOR LIFE!** is your road-map to optimal circulatory health!

● *And much, much more!*

Reason #4:

A complimentary copy of NO MORE SNEAK ATTACKS!

— a \$19.95 value, FREE.

Every year, heart attacks strike people who weren't supposed to have one. Their cholesterol was low. Their blood pressure was perfect. They had no known risk factors whatsoever. And yet, a heart or brain disaster hit them anyway.

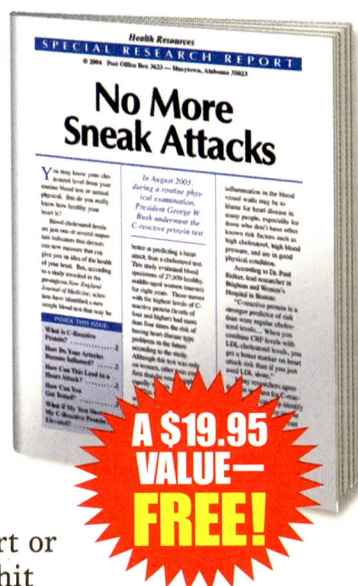

Why?

The answer may be inflammation of the arteries that is marked and even caused by high levels of C-reactive protein in the blood. According to a recent study, individuals with high levels of this C-reactive protein and low cholesterol levels are actually at greater risk for a heart attack than people with high cholesterol and high levels of this protein!

And get this — although 25 to 30 million Americans fall into this category, few doctors ever test for this dangerous protein!

But now, a quick, painless, \$10 blood test can instantly tell you if you are one of them!

In this critical report from Health Resources™, not only will you discover the name of the test to ask your doctor for — you'll also discover
