

**Cardiologist
DEVELOPED!**

By Stephen Sinatra, M.D., Cardiologist

Who says you have to grow old?

Spring
2014

Shocking advice from top cardiologist Stephen Sinatra, M.D.,

"Take Two and Call Me When You're 100"

"It takes about 60 seconds and all of a sudden you'll be SO DARN HEALTHY, you'll probably outlive every doctor you've ever seen!"

"It's the ONE thing I tell anyone who wants to live a vibrantly healthy life and stay OUT of the crazy, medical system.

"I take it myself because it's 8 TIMES better for healthy blood pressure."

Plus, it also provides:

- Healthy cholesterol ratios
- Healthy triglycerides
- Healthy arteries and blood vessels
- A brain that's sharp as a tack
- Healthy lungs and breathing
- Healthy digestion
- Healthy eyes
- And healthy, young-looking skin."

Stephen Sinatra, M.D.
America's #1 Integrative Cardiologist®

Plus: HARVARD scientists discover how to "switch ON" the longevity gene!

In this report: How a top cardiologist's discovery takes his patients from feeling exhausted, achy, foggy, and feeling OLD to YOUNGER overnight...

Partial Contents:

The Astonishing Blood Flow Breakthrough!

Remarkable discovery
that works with the cells
inside your arteries...
page 15.

Blood Pressure 113/70!

Plus a surge of youthful energy...page 6.

Well-satisfied with Cholesterol!

"Dr. Sinatra...that is the BEST I've ever seen
it...page 16.

Energy like I had in my thirties!

Finally seeing hope
...page 12.

The 4 MOST CRITICAL things you must do for your heart...

What Dr. Sinatra tells all his patients and
readers...page 7.

Why fish oils "STINKS" for your heart...

It's NOT just the fishy "burp,"
it's something vital to your
health...page 8.

Omega Q Plus Resveratrol case history...

*Archie adores the energy he gets
from Omega Q Plus® Resveratrol
and says he will take it forever...*

The ONLY time Archie feels tired is when he forgets to take it!

"I will be 55 in April...Last year
I was able to run 3 half mara-
thons, and 2 full marathons,
including San Francisco and
New York City, along with a
10K and two 5Ks. A total of
1,600 miles in training, and
over 100 miles in marathons."

It WORKS for you
or it's
FREE!

Awesome energy booster that keeps Archie ahead of kids HALF his age...

"The product has...surprised me as a very good energy
booster. I usually take it at noon each day...if I forget my
noon dosage...I start feeling tired..."

Cholesterol fantastic, great blood pressure too...

"I have continued to maintain a 175 cholesterol level as well
as 135 over 75 blood pressure levels...I plan on always
continuing to take this product..."

—Archie E., KY

This softgel is 8 TIMES healthier for your heart, your brain, your eyes, and every cell in your body...

**Cardiologist
Developed!**

"I created new *Omega Q Plus Resveratrol* so my patients could address the issues of aging almost overnight in a single, easy-to-swallow, *money-saving* dose."

By Stephen Sinatra, M.D., Cardiologist

How many vitamins and supplements are you taking right now? How many pills are you struggling to swallow each day?

How's that working out for you? Are you getting the results you want? Are your blood tests *improving*? Is your doctor patting you on the back...or scratching his or her head and reaching for a prescription pad?

I've got a much better idea for you. Just recently, in response to recent research breakthroughs and my patients' desire to get *better results*, take fewer pills—and save a *ton of money*, I created *Omega Q Plus Resveratrol*.

Stephen Sinatra, M.D.

It's ONE supreme supplement that delivers EVERYTHING you need ...

Just grab a glass of water in the morning, take 2 softgels, and you're good to go. You've just given your body virtually *everything* it needs to heal, repair, and *rejuvenate itself* from the inside out. For example...

You get the HEALTHIEST omega-3s known to science...and NO fishy "burp"!

No more *fish oil* for you. Now we know there's something *much* better. It's called *Calamarine*®, and it's bursting with more healthy DHA than any other source on earth. (More about this on page 8 in this report). Best of all, say goodbye to "fish burps" because *Calamarine* does NOT come from fish (or even krill).

You get the world's most bioavailable form of CoQ10: It's 8 times better absorbed...

It's called *Hydro Q-Sorb*® and it passes right through your cellular membranes and feeds your mitochondria—the *fundamental energy furnace of life*. Within days, this CoQ10 could double or even *triple* your energy levels! (See page 10 for the amazing FULL story on *Hydro Q-Sorb*!)

You get a professional-level dose of resveratrol that helps protect you from the inside out...

The science for resveratrol and its age-fighting powers is utterly astounding. Research suggests it may actually "switch ON" your longevity gene and extend your youth span way *beyond* what nature intended. (See page 12 in this report for the *astounding details*.)

(Continued on page 4...)

**It WORKS for you
or it's
FREE!**

Omega Q Plus Resveratrol Case History:

"I noticed improved energy right away & have excellent cardio reports...great product!"

...Continued from page 3

And there's still SO much more...

- You get *L-Carnitine* that helps shuttle fatty acids (fuel) to your mitochondria so they can keep you energized and youthful all day long.
- Plus you get vitamins B6, B12, and *folic acid* to help keep your *homocysteine* levels healthy. In fact, this combination has been shown to be *three times* more effective at promoting normal homocysteine levels. *That's SUPER important for your heart.*

It WORKS for you
or it's
FREE!

In combination these nutrients help nourish and rejuvenate every cell in your body.

You'll feel an almost immediate surge of energy and then SEE a profound improvement at your next checkup...or it's FREE!

From Dana L., Ohio

"I started taking the *Omega Q Plus* in my early 40s. I noticed improved energy levels right away. I didn't have any health concerns and have excellent blood pressure and cardio reports."

Dana saved her husband too!

"My husband (was worried about his heart)..."

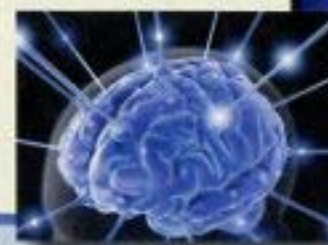

I convinced him to try the *Omega Q Plus*. He now has normal readings... We know this is a great product and very necessary as we are aging."

*Results will vary.

8 TIMES More Potent for Your Heart, Your Brain, Your Eyes, and Every Cell in Your Body...

The special CoQ10 used in *Omega Q Plus Resveratrol* has been tested in human trials and it's *8 times better absorbed* by your cells.

That means more "fuel" reaches your body's energy factories (mitochondria). And the *highest* number of mitochondria are concentrated in your *heart, eyes, and brain*.

Why is *Omega Q Plus Resveratrol* SO fantastic for your blood pressure? It's the secret of DHA...

"Recent clinical trials have revealed that it's *not* enough to just take ordinary omega-3s. You need to find a potent supplement that contains the *perfect* balance of fatty acids, or you're wasting your money."

By Stephen Sinatra, M.D., Cardiologist

Everyone knows that omega-3s are good for your heart and your whole body. But almost *no one* knows that there are *two* forms of omega fatty acids: EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid).

They're *both* healthy for you, but as a cardiologist, I feel that DHA is *pure magic*.

DHA is a potent nutrient for your blood pressure, your heart, your eyes, and your brain...

In fact, research has shown that DHA is critical for cognitive development and brain function and helps keep your memory sharp as a tack for life.

Is this the REAL reason the Japanese have such healthy hearts?

Researchers have often wondered why the Japanese have one of the lowest rates on earth for heart problems and they may have finally found the answer: DHA.

You see, the average daily intake of DHA in Japan is *five times* higher than the United States. The more DHA you get, the *healthier* your heart...

The blood-pressure research is utterly astonishing...

In a double-blind, placebo-controlled study conducted at the West Australian Heart Research Institute in Perth, test subjects were given purified supplements of EPA, DHA or a placebo for 6 weeks. *The conclusion?*

The daytime and 24-hour blood pressure readings were FAR healthier in the DHA test group...

Even more significant, the scientists observed that your body can NOT make its own DHA from the EPA in your diet.¹

So the best way to get your DHA is from diet and supplements...and you need to make sure you get a sufficient, clinically tested dosage to see the results you want.

(Continued on page 6...)

Blood pressure and cholesterol now normal

"My BP came down to normal and so did my cholesterol count. My energy level is normal. I have been strongly recommending this product to my friends, family, and told my doctor about it."

—Frances P., LA

*Results will vary.

¹ Mori TA, et al. *Hypertension*. 1999;34(2):253-60. Subjects were given 4 g of EPA, DHA, or placebo.

“The DHA in new *Omega Q Plus Resveratrol* is perfect for healthy arteries and blood flow. It helps *signal* your arteries to open wide so your heart doesn’t have to work so hard.”

...Continued from page 5

DHA is also fantastic for blood flow and healthy arteries...

In a separate report on the *same* test subjects, scientists discovered that the DHA group showed amazing improvements in *blood flow* (measured on the forearm).

**It WORKS for you
or it's
FREE!**

Apparently, DHA helps improve what’s called *vasodilation*—a medical term that means your blood vessels and arteries “open up” and relax. That means *healthier* blood flow and healthy blood pressure.

Plus, when your arteries are relaxed and healthy, your heart doesn’t have to work so hard.

There’s just ONE big problem with DHA...

Most omega-3 formulas go heavy on the EPA, and add just a pinch of DHA to make you *think* you’re getting an effective dosage. Why? Because EPA is cheaper, and they make more money—while YOU don’t get the benefits you need.

Only *Omega Q Plus Resveratrol* delivers the dosages and balance you need...

New *Omega Q Plus Resveratrol* delivers both the *DHA and EPA* you need to get the results you want. *It MUST work for you or it’s FREE...*

“I took the *Omega Q Plus* for the first seven days and I had a real boost of energy...”

“...my daughter and I keep a check on my BP often; when she checked it, we got a reading of 113/70 and I thought the machine was wrong... I was really excited. I have a lot of energy now...”

Jeri also loved the easy-to-swallow pill with ZERO fishy “burps”!

“The thing I like about *Omega Q Plus* is the easy to swallow pill and there is no fishy aftertaste when it dissolves in your system.”

So she told her daughter all about it! And she’s VERY happy she tried *Omega Q Plus Resveratrol* RISK FREE...

“I gave my daughter seven days of the product to try; she told me that it gave her a lot of energy and will be ordering... I am a...jazzy mother of five adult children, grandmother of seven, and excited to be living...”

—Jeri A., TX

Great Cholesterol Improvement!

“I ordered *Omega Q Plus* after blood tests showed my cholesterol level to be ‘creeping up.’ After 2 months of taking *Omega Q Plus*, I was retested. My cholesterol levels showed GREAT improvement...”

—Laura P., CA

*Results will vary.

*Results will vary.

"As a cardiologist, I know what you need to worry about. That's why I created *Omega Q Plus Resveratrol*..."

"I know when my patients have been taking *Omega Q Plus Resveratrol* because I see *healthy* blood tests that have my patients (and me) grinning from ear to ear. They never imagined it's so simple..."

By Stephen Sinatra, M.D., Cardiologist

If you were my patient, I wouldn't let you walk out the door unless you agreed to make *Omega Q Plus Resveratrol* a part of your daily life. Why? Because it

supports your heart in *four* critical areas I always watch in my patients.

1. It helps keep your blood platelets nice and healthy so blood keeps flowing freely.
2. It supports healthy triglyceride levels...a critical factor in keeping your heart healthy for life.

It WORKS for you
or it's
FREE!

Omega Q Plus Resveratrol keeps your "plumbing" healthy

1 Helps promote normal blood flow...

2 Supports healthy triglyceride levels

3 Helps keep cholesterol particles larger and SAFER

4 Supports healthy levels of "good" cholesterol

Some doctors ignore this number, but not me...and NOT you.

3. It helps keep your cholesterol particles big and FLUFFY. Why? Because *small* cholesterol particles "stick" and pile up inside your arteries easier—and cause much more trouble. Take it from me, BIG and fluffy is better.

4. It helps support HEALTHY levels of *good* (HDL) cholesterol.

Try it risk free and see for yourself. If you don't see a BIG improvement in these areas in your next checkup...it's FREE.

84-year-old square dancer depends on *Omega Q Plus*...

"I ran out of *Omega Q Plus* and...didn't have as much energy. At 84, I square dance and round dance just about every day, go to water aerobics classes, and work out at our wellness center 2 or 3 times a week. In the past 2 years, I have been to Spain, Germany, Malta, and 3 cruises to Mexico."

—Louise M., IL

THE TRUTH ABOUT FISH OIL from cardiologist Stephen Sinatra, M.D.

Why fish oil “*stinks*” for your heart, your brain, your blood pressure and cholesterol...

“DHA is *the* most important omega fatty acid. Ordinary fish oil just doesn’t deliver what you need...”

By Stephen Sinatra, M.D., Cardiologist

I used to be a BIG believer in fish oil, but no more. Fish-based oil just doesn’t deliver enough healthy DHA to your system.

Why is that important? Because recent research has revealed that DHA may be the most important fatty acid your body needs for...

- Healthy blood pressure
- Healthy cholesterol
- Healthy triglycerides
- Healthy arteries and blood vessels
- A brain that’s sharp as a tack
- Healthy eyes
- Healthy lungs
- Healthy breathing
- Healthy digestion
- And healthy, young-looking skin.

Ordinary fish oil, and many krill oils deliver mostly EPA because it’s cheaper. Yes, EPA is very healthy for you, but DHA is the real

superstar nutrient you really need.

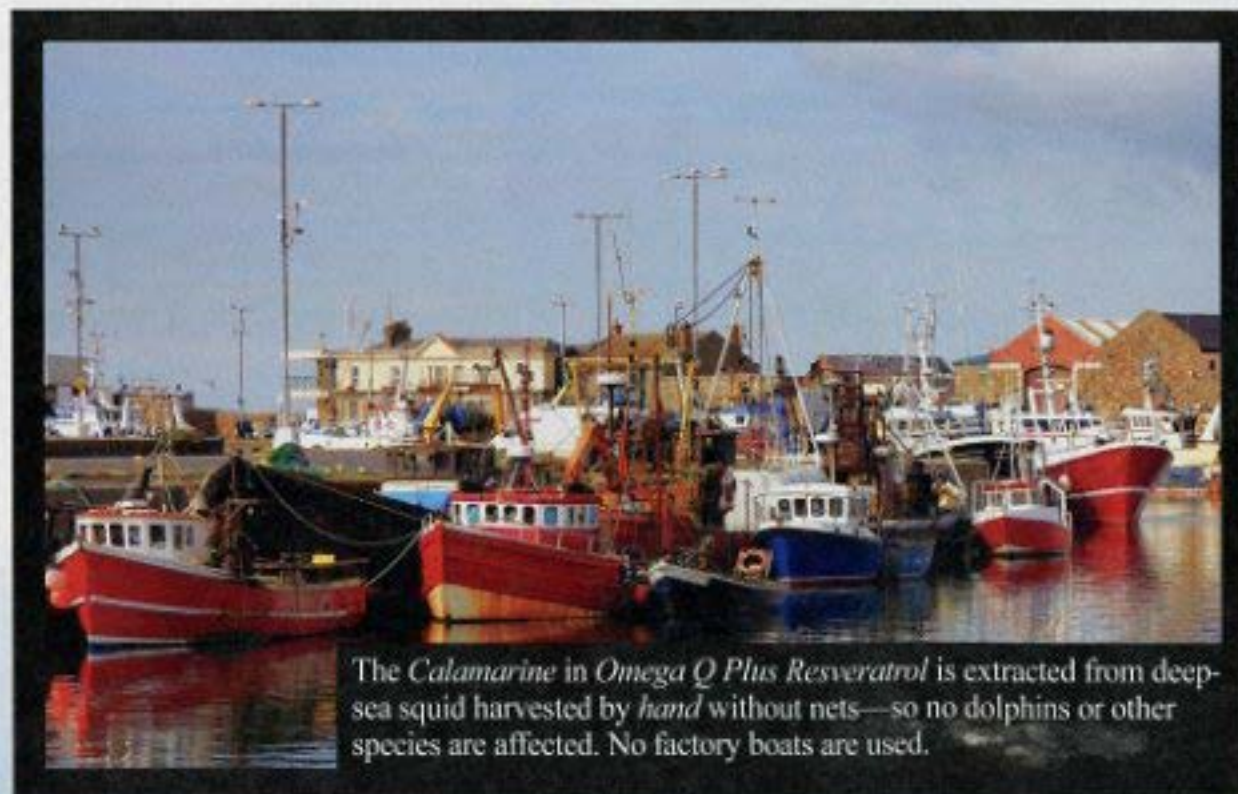

That’s why we chose *calamari* (deep-sea squid) as the source for our omega fatty acids in new *Omega Q Plus Resveratrol*.

Why *calamari*? They’re quite simply the purest, most sustainable source of DHA and EPA on earth.

Harvested from the pure waters off the coasts of Argentina and the Far East...

Calamarine is a dietary source for omega-3 fatty acids that’s not only *healthier* but completely eco-friendly. Calamari live only 450 days and reproduce in the *millions*—so the stock is not threatened at all.

More than 2 million tons of calamari are harvested for food every year. Ninety percent of the catch goes to make calamari rings consumption. *The omega-3s are extracted from the remaining catch.*

The *Calamarine* in *Omega Q Plus Resveratrol* is extracted from deep-sea squid harvested by *hand* without nets—so no dolphins or other species are affected. No factory boats are used.

Calamari are nature's PERFECT source for healthy omega-3s like DHA

Only *calamari*—deep-sea squid—deliver the correct *balance* of EPA and DHA fatty acids for maximum results. The short life-span of this abundant, renewable resource makes it the perfect source for *Omega Q Plus Resveratrol*...plus there's *never* that fishy taste or smell you just hate!

Compared to fish oil, Calamarine is more medically potent...

Why? *Because* it's bursting with far more DHA than any fish oil product. That's great news for your heart, your blood vessels, your brain and your whole body. It's also why we use Calamarine *exclusively* in *Omega Q Plus Resveratrol*.

That's why I recommended it to all my patients—and use it myself *every day*. I encourage you to try it. If you don't see *visible* results in your next checkup—it's *free*.

It WORKS for you
or it's
FREE!

Bursting with NEW ENERGY!

“This is the BEST vitamin I have ever taken...”

We asked Linda T. what improvements she noticed since taking *Omega Q Plus*. She told us that she not only had lower blood pressure and low cholesterol, she also reported a surge of energy “right away—2 or 3 days after taking *Omega Q Plus*...I absolutely love it...I strongly believe this is the best vitamin I have ever taken.

“Overall I get more energy. Some days when I have very little sleep and feel tired by 2 or 3 p.m., I just take *Omega Q Plus* and I am ready to go until 9 or 10 p.m., my bed time.” —Linda T., OK

Omega Q Plus Resveratrol BREAKTHROUGH:

You're looking at the world's most potent form of CoQ10. It's *8 times easier* to absorb.

That means it's *8 times* better for giving you the kind of all-day energy you had years ago.

**By Stephen Sinatra, M.D.,
Cardiologist**

Deep inside your cells are tiny "energy factories" called *mitochondria*. And CoQ10 is the *spark* that keeps your mitochondria pumping out the energy you need every day.

And NO part of your body needs more energy than your heart.

But CoQ10 levels decline as you age or take statin drugs...

The problem is that your natural CoQ10 levels decline as you age (or take statin drugs like *Lipitor* or *Crestor*). That

leaves your energy levels dangerously low—like a campfire that's fading away.

You need to restore your healthy CoQ10 levels to give your heart, and your whole body, the essential energy you need to stay healthy.

The solution is to take supplemental CoQ10, but not just *any* CoQ10 will do. You need to find a form that's *bioidentical* to your natural CoQ10 and *highly* bioavailable. That means it's *better* absorbed by your body.

That leaves *only one* solution: a highly bioavailable form of CoQ10 called *Hydro Q-Sorb*. And it's one of the key ingredients in *Omega Q Plus Resveratrol*.

In scientific studies, *Hydro Q-Sorb* was tested against regular CoQ10. The conclusion?

Hydro Q-Sorb was *8 times better absorbed than ordinary CoQ10 powder!* What does that mean inside your cells *at your mitochondria?*

It's like pouring lighter fluid on a campfire...

Your mitochondria instantly *ignite* and your energy levels soar. As you read the pages of this report, you'll see *time and time again* how our *Omega Q Plus Resveratrol* users report a huge *surge* in energy levels. In fact, that's one of the very *first* things you feel as *Omega Q Plus Resveratrol* fuels your body one cell at a time from the *inside out*.

The Mitochondria Miracle

Deep *inside* your cells are tiny energy factories called *mitochondria*. *Hydro Q-Sorb* passes easily through your cell membranes to *feed* these "factories" so your energy levels *skyrocket*...

To Try *Omega Q Plus Resveratrol* completely **RISK FREE...**

**Call toll free 1-800-380-0858
and get FREE Shipping!**

The *Hydro Q-Sorb* in *Omega Q Plus Resveratrol* is 8 times more bioavailable to your cells

8X *Omega Q Plus Resveratrol*

1X *Ordinary powdered CoQ10*

Hydro Q-Sorb is an amazing anti-oxidant and free-radical fighter...

And that's important because as your energy levels soar, you need to neutralize the free radicals that are a by product of increased energy production.

Protects your cells and blood vessels too...

Even *more* important, *Hydro Q-Sorb* helps protect your cell membranes and arterial tissue from damage and even aging.

Hydro Q-Sorb is the only form of CoQ10 I now recommend to my patients...

Look, if you want to keep your heart healthy for life...and keep your energy levels *high*, you need to take CoQ10 regularly—and the *Hydro Q-Sorb* in *Omega Q Plus Resveratrol* is the only form I now recommend to my patients.

Try it yourself and FEEL the energy boost! If you're not thrilled, you pay ZERO. Your *Omega Q Plus Resveratrol* is FREE.

Actual case history...

“My doctor acted very skeptical but was astonished when there was such an improvement...”

“The reason I ordered the *Omega Q Plus* was because I thought it might help...my cholesterol numbers.

“After ...taking two *Omega Q Plus* (softgels) daily, my cholesterol was great when tested three months later.”

One year later, his cholesterol was STILL fantastic.

“When re-tested one year later, the level remained. Good cholesterol levels were at good levels, too, and the triglycerides were in the normal range as well.”

His doctor was astonished and wrote, “Good Job!” on his chart.

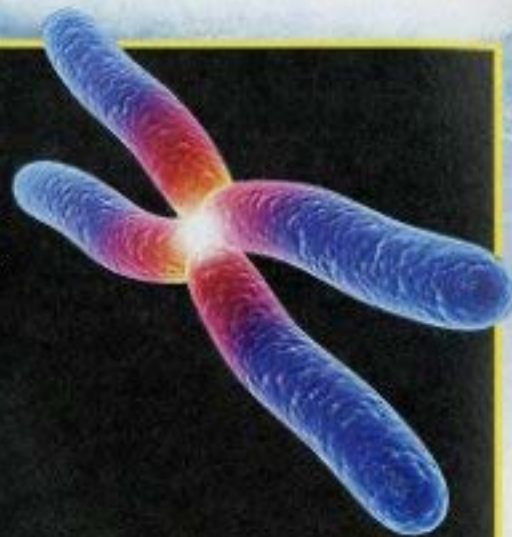

“My doctor acted very skeptical...but was astonished when there was such an improvement in my levels after healthier eating and taking *Omega Q Plus*. I noticed that he had written on my chart, ‘Good Job!’ and underlined it! But I think that a lot of the credit goes to the *Omega Q Plus*!”

—Gere M., MO

*Results will vary.

Omega Q Plus Resveratrol BREAKTHROUGH:

Harvard scientists discover a nutrient that "switches ON" your longevity gene and targets the signs of aging throughout your body.....

"Energy like I had in my thirties!"

"...I want to go back to the energy I had when I was in my thirties. With the results I have had so far, for the first time in my life I am seeing hope."

—Esther C., NC

*Results will vary.

By adding this nutrient to *Omega Q Plus Resveratrol*, I believe we have created the single greatest anti-aging vitamin ever.

**By Stephen Sinatra, M.D.,
Cardiologist**

I'm not a believer in *hype*. So when a new "discovery" comes along, I do my best to *prove it wrong* or find the flaw. But when it comes to *resveratrol* extracted from grapes, I almost don't know where to begin telling you about all the exciting new research.

Resveratrol seems to switch ON the genes that extend your lifespan...

Scientists have known for a long time that severe *calorie restriction* actually seems to switch ON the genes that extend your lifespan.

That was a remarkable discovery, but starving yourself just wasn't a practical anti-aging strategy.

So a pioneering group of Harvard scientists decided to see if there was any *other* way to turn ON the longevity gene. They tested *thousands* of substances to no avail. Then, all of a sudden, the longevity gene lit up like Christmas tree. What was the trigger? *Resveratrol*.

This research was enough to have manufacturers climbing all over themselves to sell resveratrol to the public... but NOT me.

Why? Because I need to see MUCH more than just one study before I even consider adding a nutrient to any of my formulas. And research on resveratrol is **EXPLODING** right now. So I took *over 12 months* to evaluate the newest studies out there. What did I

**It WORKS for you
or it's
FREE!**

find? That the longevity research *barely scratches the surface* of what resveratrol may be able to do.

Resveratrol not only helps stimulate the longevity gene, it also goes to work INSIDE your very arteries...

In a French preliminary cell study, resveratrol demonstrated a *remarkable* ability to inhibit sticky "platelets" from adhering to artery walls. It also helped protect cells on the inside of veins and arteries from the oxidation and inflammation that comes with aging and poor diet.

It also may prevent the oxidation of cholesterol particles in your bloodstream...

When LDL (bad) cholesterol is in your blood, the last thing you want to happen is that it *oxidizes* and gets "sticky." An amazing preliminary study demonstrated that resveratrol may help reduce the oxidation of LDL cholesterol particles. And there's still much more...

Resveratrol could be insulin's new best friend.

A double-blind, placebo controlled human study showed that just 10 mg of resveratrol helps promote insulin sensitivity—your body's ability to use insulin to keep blood sugar levels steady. *Omega Q Plus Resveratrol* gives you a full 30 mg of *trans-resveratrol*—the most bioavailable form.

Your BRAIN CELLS use resveratrol to stay sharp!

Resveratrol is also a potent water- and fat-soluble antioxidant. And antioxidants are critical to reducing the oxidative stress on the human brain as you grow older.

(Continued on page 14...)

Judy's cholesterol report was SO amazing, her doctor wrote "Great!" on it.

"My cholesterol was WAY [healthy], especially my LDL level."* —Judy A., GA

"I feel like it's doing great things for my blood and brain..."

"The biggest thing I notice is that I can do the Sudoku VERY HARD puzzles!"

"When I saw the *Omega Q Plus Resveratrol* I felt I could use the extra boost of that for my blood circulation... I would recommend *Omega Q Plus Resveratrol* to anyone who would like to support their blood pressure, cholesterol numbers and general feeling of wellness. I wouldn't be without it."* —Anna B., NY

"My blood pressure is in the normal range as well as cholesterol. My doctor wants to know what I am doing!"*

—Elizebeth D., CT

*Results will vary.

**To Try Omega Q Plus Resveratrol completely RISK FREE...
Call toll free 1-800-380-0858
and get FREE Shipping!**

...Continued from page 13

It's an absolute *perfect* nutrient to give your brain the nutritional support it needs to stay healthy for *life*. But there's still MUCH more...

For Healthy Cells and Aging: As you age, and your individual cells replicate, your DNA gradually *degrades*. Some cells are replicated badly. And others die. But when your DNA doesn't "age" quite as fast as nature intended...when your longevity gene is switched on and into action...it's possible to stay vibrantly healthy *longer* than nature intended.

The polyphenols in resveratrol help keep your cells healthy and *young*.

Even For Your Teeth! Preliminary studies are suggesting that resveratrol may help promote optimal *dental health too!*

Obviously, much more human research is needed to confirm just how much power resveratrol has, but it's clear why I decided to add *resveratrol* (in professional-level doses) to *Omega Q Plus Resveratrol*.

The ULTIMATE, one-dose-a-day solution for lifelong health and longevity...

It's the *ultimate* one dose-a-day solution to staying vibrantly healthy and young for life. My patients and readers *love* the convenience, the immediate energy boost, and the amazing numbers they get at their checkup.

71-year-old dance teacher's cholesterol is NORMAL!

"I am a 71-year-old dance teacher, who tried *Omega Q Plus*. My cholesterol is now within the normal range. I also like to keep my joints limber, and I feel that *Omega Q Plus* has also helped me in that aspect."

—Janet S., IL

*Results will vary.

Omega Q Plus Resveratrol Case History:

Judith's blood tests are "excellent" and she *loves* the purity, savings, and convenience...

"Your age is just a number, *Omega Q Plus Resveratrol* targets the signs of aging throughout your body."

—Dr. Stephen Sinatra

"I LOVE Omega Q Plus..."

"I LOVE *Omega Q Plus*. Have been using it for about 2–3 years...Prior to my first order of *Omega Q Plus*, I had been taking all of the ingredients separately, from various sources."

Judith LOVES the fact that she can get better quality AND ONE-pill convenience...

"What attracted me to the *Omega Q Plus* was the purity of your products, the convenience of having all components integrated into one product, and the considerable lower cost."

Her cholesterol (lipids) are "excellent"!

"It changed my life. My lipid panel has been excellent. I am 72 years old, according to my birthday, but consider myself 'ageless' in living my life. Thank you for this outstanding product."—Judith G., CA

The Omega Q Plus Resveratrol Advantage: Ingredients studied in HUMAN preliminary cell study...

The exclusive nutrients in *Omega Q Plus Resveratrol* keep arteries and veins relaxed and flexible—for strong, healthy blood flow.

Preliminary Study from Johannes Gutenberg University, in Germany...

The key to healthy blood flow is hiding in the microscopic cells that line your arteries.

By Stephen Sinatra, M.D., Cardiologist

In medical school, when you're training to be a cardiologist, one of the first things you learn is the critical importance of blood flow.

If your blood is just trickling, when it should be flowing like a mighty river, you're in deep trouble. Your heart has to pump harder. Your extremities don't get nearly enough circulation to stay healthy. And your organs can literally wither on the vine.

Please don't let this happen to you...

That's why I was especially delighted to see the preliminary human cell research on *resveratrol*. In a preliminary study published in a major medical journal, actual human *endothelial* cells were bathed in a *resveratrol* solution for 24 to 72 hours.²

Endothelial cells line all the veins and arteries in your body—and pump out an enzyme called *nitric oxide*

(NO). That's really important because nitric oxide tells your arteries and veins to "relax" for healthy blood flow. Nitric oxide is one of the critical controllers of healthy blood flow.

Resveratrol triggered endothelial cells to start pumping out healthy nitric oxide!

It's true. According to this very preliminary study, the human endothelial cells exposed to *resveratrol* started producing more nitric oxide in as little as 24 HOURS!

This has the potential to be a *truly stunning discovery*. And it's one of the reasons we use a professional-level dose of *resveratrol* in *Omega Q Plus Resveratrol*. Even better, we use *trans-resveratrol* in our formula because it's believed to be even more bioactive!

Perfect blood tests, more energy and healthy blood pressure at last...

"My husband's doctor recommended that we take fish oil, but we were looking for something better...when we got your advertisement in the mail, my husband immediately placed an order..."

Her husband's blood tests were PERFECT

"More energy, feeling good. My husband's blood tests came back perfect...my blood pressure is very good...Being almost 72 years old and my husband, almost 71, we live a very active life."

No brain fog and no fishy burps!

"Our minds are much more clear... There is no burping fish taste with this product...I believe your supplements are very pure and reliable."

—Wil W., OR

"Better energy...I know inside good things are happening..."

"When I took the *Omega Q Plus*, I had better energy and an overall sense of well-being. When that happens I know inside that good things are happening, and any time one has more energy, the body can look, feel and perform better. That's what folks are after, at least I am."

—Michael W., CA

"I am now on my SECOND order of *Omega Q Plus*..."

"I noticed a definite increase in my energy level...I've increased the distance of my daily walks, and my stamina seems to be returning. I feel more like my old self. I plan on continuing my use of *Omega Q Plus*..."

—Jack J., TX

"I feel so good, just like when I was young!"

"Since I have been taking *Omega Q Plus* I feel so good, just like when I was young. I can't imagine going without them."

—Rae W., WA

"Within a week I began to have more energy!"

"I am an 85-year-old WWII veteran. I kept trying various brands of vitamins. Finally, I started taking *Omega Q Plus* and within a week I began to have more energy and felt more alive. Aches and pains started going away. I shall continue to take *Omega Q Plus* every day to give me vitality."

—Harold S., PA

“Are you taking *Lipitor, Crestor, Vytorin, Pravachol, or Mevacor?*”

“If you take *any* statins, you need to take *Omega Q Plus Resveratrol* at the same time—here’s why...”

By Stephen Sinatra, M.D., Cardiologist

If you were my patient and I felt that you needed to take a statin drug for your cholesterol, I’d *insist* that you take *Omega Q Plus Resveratrol* at the same time. Why? Because...

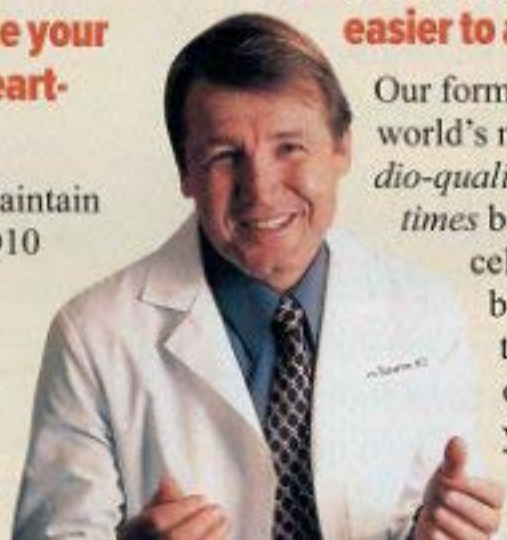

Statin drugs deplete your body’s supply of heart-healthy CoQ10...

It’s *critical* that you maintain a healthy level of CoQ10 to supply the cellular energy your heart needs to stay healthy. This is SO important, in fact, many drug companies are

investigating *combining* statins and CoQ10 in a single pill. Until that happens, there’s not a *single* statin patient that shouldn’t be taking *Omega Q Plus Resveratrol*.

Our advanced CoQ10 is 8 times easier to absorb.

Our formula includes the world’s most advanced *car-dio-quality* CoQ10 that’s *eight times* better absorbed by your cells. That way you can be sure you’re getting the CoQ10 you need to offset the depletion of your statin drug. And there’s *more...*

Statin drugs supply ZERO omega-3s too...

So you need to get your omega-3s (especially DHA) from *Omega Q Plus Resveratrol*. Our balanced formula is the absolute *perfect* companion to your statin drug therapy.

Try it yourself and see. I promise you’ll never risk a single penny. You (and your doctor) must love it, or it’s FREE.

It WORKS for you
or it’s
FREE!

I get it ALL in 2 Softgels!

“I don’t have to take several other pills...I get it all in 2 (softgels)...”

—Shirley K., MI

Amazing Energy!

“It really does give you good energy...Good stuff!”

—Raevonne R., AL

the best ingredients in a
single dose and pocket an
extra \$898 CASH?**

"Wow!!! My blood pressure is now constantly in the 120/70 range..."

Much LESS knee pain, better mobility.

"I started taking the *Omega Q Plus* because I had so much knee pain.

"I... have less pain in my knees and legs and was able to move easier...I felt better and had more energy than before. My cholesterol also dropped. I am able to go up and down stairs...No chair lift for me...I would recommend this product..."

—Rachel W., GA

"Boy was I surprised and so was my wallet. *Omega Q Plus* works better; it's that simple..."

"I did not expect your product to work better, I just liked the idea of only having to take two softgels to replace five supplements I was already buying."

Better results, extra convenience, better digestion...and BIG savings

"Boy was I surprised and so was my wallet. *Omega Q Plus* works better; it's that simple.... in only

NO FISHY BURPS!
Because it's NOT made from fish!

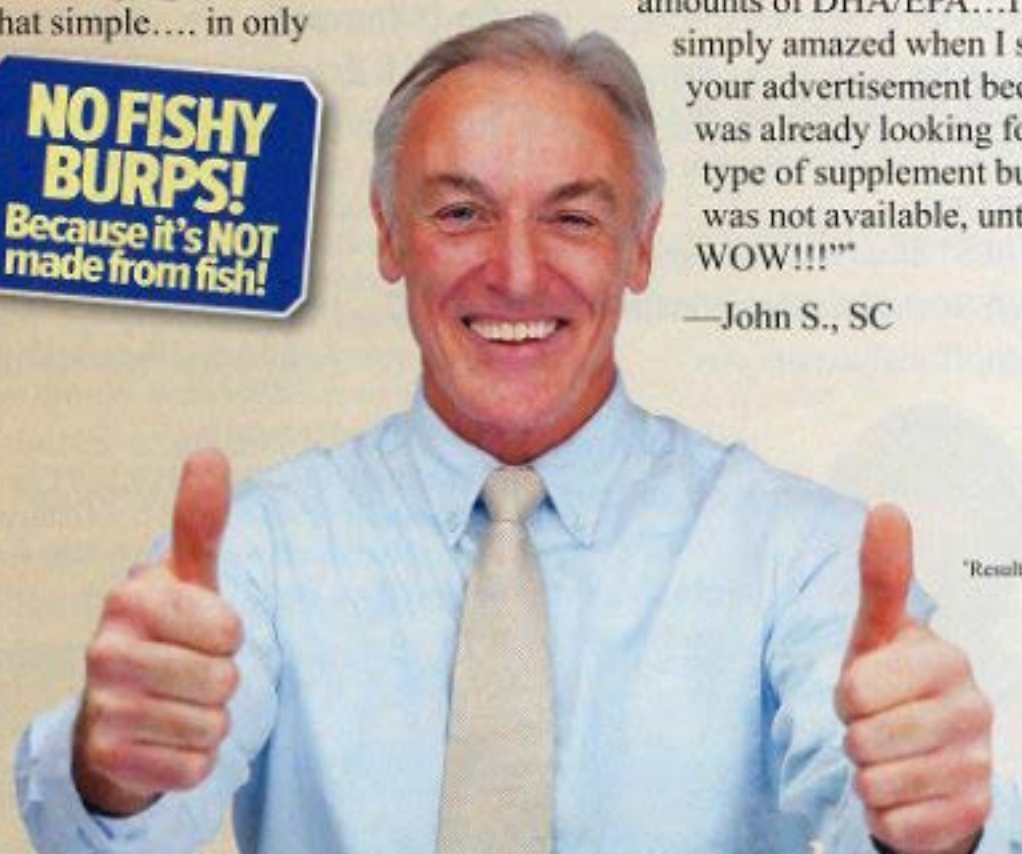

2 weeks of using *Omega Q Plus*, I have had more energy, as well as a dramatic improvement in my colon and intestinal health."

Fantastic blood pressure readings...

"My blood pressure is now constantly in 120/70 range. I already knew based on my own personal research that most fish oils did not provide significant amounts of DHA/EPA...I was simply amazed when I saw your advertisement because I was already looking for this type of supplement but it was not available, until now WOW!!!"

—John S., SC

Omega Q Plus Resveratrol Case History:

Rena and Duane are now ready to chase their 2-year-old grandson around the yard!

They feel SO fantastic, they don't need to take any other vitamin now!

"Both my husband and I have had low energy and have taken a very good vitamin for years but now we don't require the vitamin."

Rena no longer needs cod liver oil for her knee pain...

"I have taken cod liver oil for my joints, I am not taking the oil any more because the *Omega Q Plus* seems to be keeping my knees free of pain."

Duane's hands are now pain-free and flexible...

"We live in the north and come fall when the cold weather comes, my husband complains of cold, stiff, aching hands, this year he didn't notice that. I think we started taking this in September."

"I believe we will be able to keep up with our 2-year-old grandson this year. Thank you again for *Omega Q Plus*."

—Rena and Duane N., MT
