Successful Investing & Money Management

Announcing an "apprenticeship program" for aspiring millionaires

Now you can learn from self-made millionaires and leading financial experts the techniques of money manipulation and successful investing that may enable you to acquire great wealth

"You can become a millionaire." When nine out of ten people read that statement, their minds clamp shut like a steel trap. They refuse to believe it. That's understandable — they are leery of being burned by a "get-rich-quick" scheme or other worthless come-on.

In one sense, at least, they're absolutely correct. They never *will* be millionaires, because they refuse even to consider the possibility. So they'll never take the steps needed to turn a $1,000,000 goal into a living reality.

But we're looking for that one person in ten open-minded enough to say, "Show me."

If you're that one person, what we have to show you could change your life, not by magic but by *knowledge*. And, because it's perfectly understandable for you to have doubts at this stage, we will send you the first two parts of the program *absolutely free and without risk or obligation to continue*, to prove to you the worth of our program for attaining $1,000,000. (Why $1,000,000? For most of us, $1,000,000 represents substantial wealth. It is a symbol of comfort and financial security. For some, $500,000 would be enough; others might look at $1,000,000 as just a first step toward their money goal.)

Only two ways to get rich

The program we've designed to put you on a systematic path to wealth is *Successful Investing & Money Management*. It's based on one simple premise: *you can learn how to get rich.*

You see, the knack for making money is not "luck" or an inborn gift. It is a *skill*. And, like any other skill, it can be learned.

In fact, there really are two ways you can master the skill of becoming rich. The first way, and until now the only way, has been to learn the techniques of successful investing and money management by trial and error in the "school of hard knocks". This is how many self-made millionaires have done it — making expensive mistakes, learning from them, and eventually discovering how to survive and prosper in the financial jungle.

But most people don't have the time or bankroll to get a financial education in this way. And that's why *Successful Investing & Money Management* represents such a breakthrough.

Now you don't have to risk everything you've ever worked for to learn how to acquire wealth. Now you don't have to take the "trial and error" approach to investing. Now, for the first time, you have the opportunity to participate in a unique *"apprenticeship program" for aspiring millionaires.*

Through this program, you can learn the actual techniques of self-made millionaires and leading financial experts... men like Dr. Morton Shulman, multimillionaire investor and author of one of the best-selling investment books of all time, "Anyone Can Make a Million," and Andrew Sarlos, who started with $500 and built a multimillion dollar investment group.

From people who've actually done it, you can learn how to get rich. Not overnight, but through steady, systematic multiplication of your wealth through the techniques taught to you in *Successful Investing & Money Management*.

How to live richer now

So, you can see that it really is possible for you to amass a million dollars by the time you retire. But equally important, *Successful Investing & Money Management* will enable you to act *now* to increase your wealth. It will show you how to do this without lowering your standard of living, out of the money you have today. You will see progress immediately — in your very first two lessons. By applying the techniques you'll learn, you can reasonably expect to be on the road to financial security in five years. Ten years from now, you may no longer have to work for a living, for your income from your investment portfolio may well have surpassed the income you earn from your job.

Examples of what you'll learn

Here are a few examples of the powerful money-making techniques you'll learn in the program...

- How to understand and spot high-potential opportunities in every major field of investing — stocks, bonds, commodities, collectibles, franchises, condominiums, raw land, insurance and others.
- How to spot early warning signals that a stock is ready to make a major move, or be a likely takeover target.
- How to make some investment dollars do the work of $5 or $10.
- How to grow wealthy using *other people's money* (the secret behind many great fortunes).
- How your company might pay your medical bills tax free.
- How to borrow the greatest amount of money at the best rates and longest terms.
- Strategies that could double or triple your money within the first three to five years.
- Little-known sources of investment funds — including the favorite of giant corporations — and how to gain access to them.
- ...plus, the biggest mistakes investors make and how to avoid them... how to time your buying and selling to maximize your profits... and how you can legally reduce, postpone, avoid and eliminate many of the taxes you're currently paying.

And remember, these are not textbook theories, but the proven, real-life techniques actually used by self-made investment millionaires. So they can work *for you.*

Most important of all, *Successful Investing & Money Management* will train you to respond to the *everchanging* economic climate. You will know how and when to act as the financial picture changes. You will become equipped to make your own decisions — to be *really* in control of your financial destiny.

Successful Investing & Money Management will teach you to take advantage of the profit opportunities in each major economic development, whether it's a surging stock market, currency devaluation, or rise in interest rates. Successful investors know how to make money systematically from such developments, often with only slight risk. Now you will know how to do the same.

You don't need experience

The lessons in the program assume no prior investment experience. Designed with the help of leading educators, they employ the best advantages of self-paced learning. Each lesson is clear, each principle illustrated with examples. Course assignments and problems give you the chance to test yourself as you move through the program. And if you have any questions about any of the lessons, you can ask for help, as often as you wish, from the staff consultant assigned to you, and at no additional charge.

You don't need a large starter fund. You *do* need money to apply the investment techniques we recommend. But even if you don't have an investment fund saved up yet, the program will show you how to get one quickly. *Right in your first two lessons, which we'll send you free, you'll learn how to increase immediately the amount of money you have to invest.* By following certain surprisingly easy techniques, and without changing your lifestyle, you could have up to an *additional* $2,500 each year in investment funds. This will be your "starter" fund — your investment "acorn" that can grow into a mighty oak. What's more, we'll show you the advantages of setting aside a portion of your income each month for your future. In this way, your investment and savings fund will automatically grow and make you richer each month.

You don't need to take time away from your job. One of the best parts about this program is that you can take it at home, at your own pace, at whatever time is convenient for you. You don't have to take any time away from your job.

You don't have to give up all your free time. All you need to complete the program is approximately two hours per week and the perseverance to keep building your fortune the way we'll show you. These two hours will almost certainly prove to be the most *profitable* two hours in your busy schedule, because they can add many thousands of dollars to your net worth each year.

You don't need to be a financial whiz. The main things you'll be learning are *what to do with your money*, not complicated ways to count it. In those cases where you would like to see the financial implications of a certain investment, the program supplies all the needed charts, graphs, and easy-to-use slide calculators you'll need.

Accept your first two lessons *free*

In your two free lessons, you'll see how to take inventory of your assets, liabilities and financial goals. This will give you the clearest picture you've ever had of where you stand, where you want to go and how to get there. **For the first time, you'll have an actual blueprint for getting rich.**

You'll be given a comprehensive overview of the various investments open to you, so it will be easy to see which ones suit you best, and which ones you've been overlooking. And you'll discover some excellent ideas on how to improve your returns on many of these investments. All this, and much more, in just your first two *free* lessons.

A no-risk opportunity

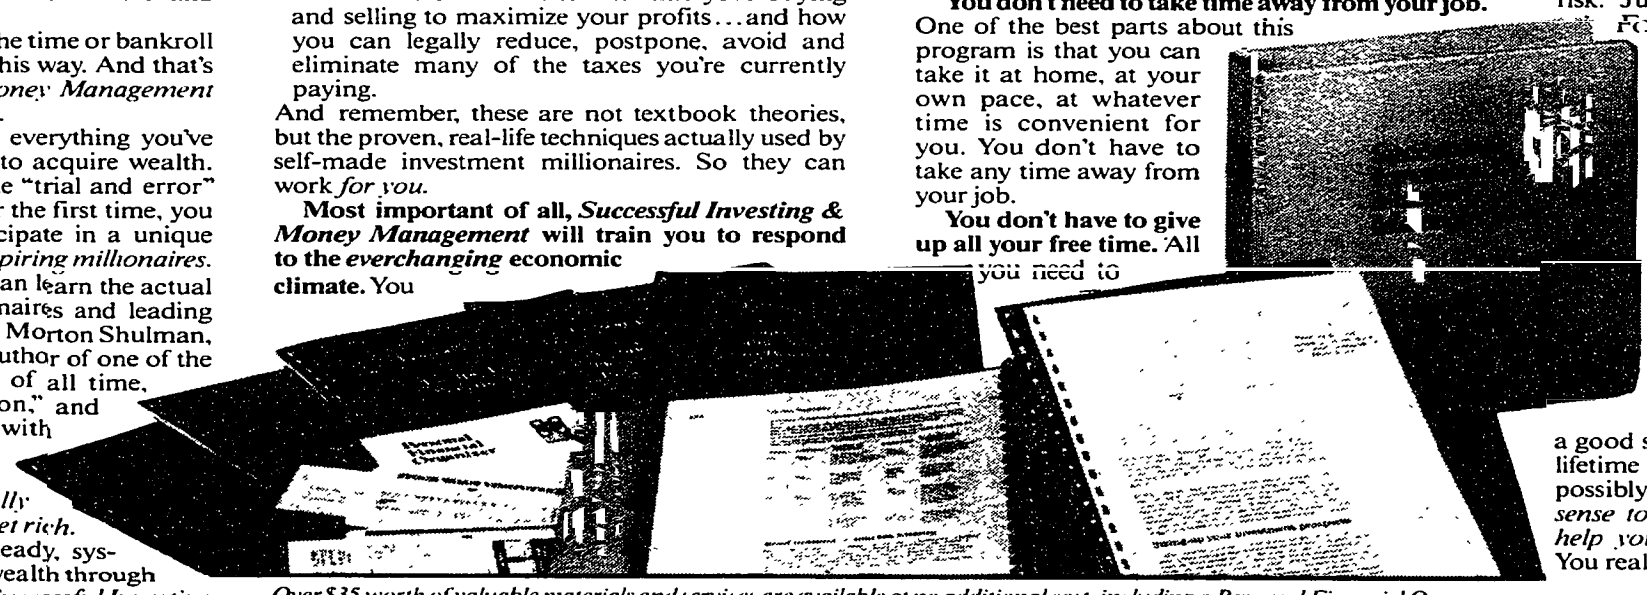
If you still find it hard to accept that you really can become rich — if you think that the exclusive "millionaire's club" will forever be open to others but not to you — all we ask is that you examine the first two lessons of this program to see for yourself how easily you can get started on the path to riches. More than any words we might say, they will demonstrate to you that you really do have the potential to become rich by developing the *skill* of becoming rich.

Find out for yourself now without obligation or risk. Just return the enclosed Trial Enrollment Form with your $5 Registration Fee (or charge it to your VISA, MasterCard, American Express or Diners Club card). (See details in the Trial Enrollment Form below.)

There's never any obligation to continue. You reserve the right to drop out at any time — and that's guaranteed.

A chance to make the most of the 1,700 hours you work each year

One final point. This year and every year of your working life, you'll probably put in over 1,700 hours of hard work. As your reward, you'll earn a good salary which will probably translate into a lifetime income of well over a million dollars, possibly two million or more. *Doesn't it make sense to explore how these two free lessons can help you protect everything you're working for?* You really have nothing to lose.



Over $35 worth of valuable materials and services are available at no additional cost, including a Personal Financial Organizer, two sturdy vinyl binders for your lessons, a mortgage slide calculator, a stock value slide calculator, and any expert personal assistance you may require from a staff consultant, who'll answer any course-related questions you may have.

Proof that you can make a million

Still somewhat skeptical? Then consider this... By investing just $88 a month at 15% interest, anyone 30 years of age can retire with *over a million dollars.*

And now, consider *this*...

If you can invest more than $88 a month... and if you can get a better return than 15% (opportunities for gains of up to 25% are possible)... and if you learn how to make some of your investment dollars have the "leverage" of $5 or $10 (which we'll also teach you)... you can see immediately that you have the potential to join the exclusive "millionaire's club" *well before* your retirement years.

The secret lies in being able to put aside a regular portion of your income every month and then managing that money so that it multiplies at higher rates than you've probably ever gotten before.

No-Risk Trial Enrollment Form

To: Hume Financial Education Services,
835 Franklin Court, Box 105627, Atlanta, Georgia 30348

YES! I accept your invitation to evaluate *Successful Investing & Money Management* for myself without risk or obligation to continue. I enclose my Registration Fee of $5. Please send me Lessons 1 & 2 *FREE* of charge. I will read them over and start putting their wealth-building principles to work. Shortly thereafter, you will send Lessons 3 & 4. I'll have 15 days to look these over and *then* decide. If I do not wish to continue, I'll simply return Lessons 3 & 4, and pay nothing, owe nothing. And you will promptly refund my $5 Registration Fee.

If I wish to continue with the course, I will pay for Lessons 3 & 4, and you will send me the remaining 25 lessons at the rate of two lessons approximately every 3 weeks. You will bill me only $10 (plus a small charge for shipping & handling) for each of the lessons. Of course, I need pay for the lessons only after I have had the opportunity to examine them for a full 15 days, and I may cancel my enrollment at any time. In any case, the first two lessons will be mine to keep free of charge.
