A MIRACLE FOR LEG SUFFERERS...

All Natural VeinEase® has Already Come to the Rescue of over 100,000 People With Painful and Dangerous Leg Problems! Now it's YOUR Turn!

If you want your legs to quickly feel strong and healthy again ... VeinEase will soothe over 27 different leg issues. With 2 vital nutrients they're missing ... for total lower body rejuvenation!

Which of These Leg Problems do YOU Suffer From?

Dear Friend,

If you're one of the 80 million leg sufferers who experience pain and difficulty every day while simply getting around ...

From walking to the bathroom ... to getting to the mail box ... to going up and down stairs ... to getting from your car, across a parking lot and into a store ... **this message is for YOU!**

You see, these tasks will only get more difficult as your leg problems worsen. And it will get harder and harder to get your heavy, tired, aching legs to do what you want them to.

Oddly enough, leg health is not a problem you hear about often, compared to arthritis or heart disease. Yet tens of millions of men and women across the country deal with this endless leg misery every day and often all night! **The good news is ...**

NO single product has offered more relief than all natural VeinEase! For over 15 years, we have been the #1 natural reliever of leg issues for people like you!

The truth is, when you walk, you *should* walk with ease. NOT with discomfort, pain or a lot of effort!

When you sleep, your legs should NOT be keeping you awake all night with cramps, burning and itching, aching or restlessness!

- 
- ☒ Restless leg syndrome
 - ☒ Leg cramps, day/night
 - ☒ Heavy, tired legs
 - ☒ Poor leg circulation
 - ☒ Varicose Veins
 - ☒ Deep Vein Thrombosis
 - ☒ Diabetic issues
 - ☒ Itching and burning
 - ☒ Numbness
 - ☒ Spider Veins
 - ☒ Blood Clots
 - ☒ Difficulty walking
 - ☒ Swelling
 - ☒ Vascular Problems
 - ☒ Edema

And yes, this is true at *any* age! Because your legs comprise nearly ONE HALF of your body, they require specific care and attention just like the rest of your body. Maybe even more so, considering the tough job they have of getting us around through life!

The fact is ... Nearly ALL your leg problems are due to ONE underlying issue ...

You might be surprised to know that nearly every leg symptom I listed, and the ones *you* may be experiencing, are due to just one thing ...

POOR CIRCULATION.

That is the heart of the matter. The root of the problem! Your legs have many miles of veins, arteries and capillaries running through them. And with gravity putting added pressure on your lower body, poor circulation can cause a whole host of uncomfortable and even dangerous problems for you.

Slow moving blood that is constantly being pulled down puts tremendous strain on your veins and capillaries. Causing them to burst, leak and bulge, even cause deadly blood clots.

**America's
#1 All-Natural
Choice for Tired, Heavy,
Sore, Unstable and
Swollen Legs!**

**VeinEase goes
to the root of
ALL leg
problems ...
your veins ...
and improves
blood flow for
fast relief!**

Throw away your pressure bandages, heating pads, pills, creams, and medical stockings!

When your legs hurt ...

There is *no* shortage of “bandaid” options for you to buy that will *temporarily* relieve your pain. But that’s the problem, your relief is only *temporary*! You’re not really *fixing* anything!

VeinEase is NOT a bandaid! It’s a PROVEN physical solution that has already brought relief to over 100,000 people! It contains powerful, all natural ingredients that will go into your legs and fix the vein issues that are causing your daily leg problems.

So instead of cruising the aisle at your local medical supply store and paying hundreds of dollars for some of the available products, try VeinEase and STOP the problem for good, not just the symptoms!

And yes, poor circulation is also the underlying cause of cramping, restlessness, heaviness, swelling, pain, burning and much more!

So you might be thinking, the simple solution is to improve circulation ... and you’re right! But for most people with leg problems, this is easier said than done on your own. Even going to your doctor will only give you limited options.

There *are* a few drugs that treat a *few* symptoms ... Pressure bandages are popular, and a few surgical procedures that may have a small effect.

But what you really NEED is an END to leaky veins so circulation can continue normally!

Nearly every leg issue can be helped by reducing the escape of fluid from circulating blood into the surrounding tissue. Once this “sealing effect” kicks in, blood flow will improve in your veins, and then reduce the swelling of those small veins in the legs.

By simply doing this, you'd be amazed at how quickly your leg condition will improve!

The second step is to improve the flow of oxygen-rich blood throughout your body which contains powerful, natural antioxidants to rapidly soothe and heal your veins and arteries.

To help you do this, VeinEase® contains 2 unique and vital ingredients that are proven in medical studies to do exactly what your veins need in order to reduce this escaping fluid. Once these natural ingredients kick into action, you will see ALL your leg issues begin to improve very quickly ... and for good!

POWERHOUSE LEG HEALTH INGREDIENT #1: HORSE CHESTNUT will become your legs new best friend!

What makes Horse Chestnut so valuable for leg health issues? An extremely rare and very special substance contained in Horse Chestnut called **Escin**.

Intensive research was done in Germany in the 1960s on Horse Chestnut for use on various vein conditions. And after years of exhaustive research, it proved to be more effective than any other known natural substance to help fight swelling and strengthen vein walls.

Since this breakthrough discovery, NOTHING has since proven more effective by *any* scientific group. It still reigns supreme when it comes to improving leg health!

- Tired, aching, heavy legs — GONE!
- Leg cramps — GONE!
- Restless legs — GONE!
- Poor vein tone — GONE!
- Spider veins — GONE!
- Sluggish circulation — GONE!
- Diabetic leg issues — GONE!

Horse Chestnut WILL help improve the vein elasticity in your legs, and improve collagen building (which keep your veins toned and strong), and promote increased blood flow.

In fact, it is believed that Escin is the single most important substance for offering relief from swelling

“If you’re a diabetic, I’m sorry to say, you are almost guaranteed to have leg problems.”

People with diabetes are prone to having leg problems. Often because of two results of diabetes: nerve damage (neuropathy) and poor circulation.

NEUROPATHY causes loss of feeling in your legs and feet, taking away your ability to feel pain and discomfort, making it tricky to detect an injury or irritation.

POOR CIRCULATION in your legs and feet reduces your ability to heal, making it hard for even a tiny cut to resist infection.

While VeinEase is no substitute for diabetes treatment, it WILL help greatly increase badly needed circulation in your legs to keep them healthy, AND make your diabetes more manageable.

and helping to support over all vein health. That's right, This ONE ingredient alone will greatly improve your vein health. Which will then cause all other associated problems to begin to vanish ...

AND ONE MORE THING ABOUT THE HORSE CHESTNUT IN OUR VEINEASE FORMULA ...

It is NOT like other formulas on the market that contain a mere 3%, 5%, or 10% Escin. VeinEase contains a whopping 20% Escin! Plenty to get the job done.

And if you compare this to any other product, you'll also see that it's the only formula that has enough to actually work ... as proven by well over 100,000 people who had twisted, bulging, or gnarled veins and are now feeling great!

If you are suffering daily pain, discomfort or agony, VeinEase, loaded with 20% potent escin can help ease your discomfort like nothing else!

The Most Common Leg Issues You May be Facing...

VARICOSE VEINS occur when the vein walls become inflexible and the valves in the veins don't seal properly. The result: blood leaks backward into veins and tissue, and pool, causing a bulging, twisted or knotted appearance on the leg.

VENOUS INSUFFICIENCY is caused when veins deep in the leg have a problem sending blood from the legs back to the heart. Normally, valves in your veins keep your blood flowing back towards the heart so it can't collect in one place. But the valves in varicose veins are either damaged or missing. Causing the veins to remain filled with blood, especially when you're standing.

SPIDER VEINS are purple, red, blue, or gray web-like streaks most often found on the leg. Spider veins result when a capillary becomes damaged or weakened. Blood becomes pooled in the capillary, causing the threadlike streaks to appear on the surface of the skin.

Spider veins are affected by many factors including: heredity, obesity, hormonal changes and standing or sitting for long periods of time.

DEEP VENOUS THROMBOSIS

is when a blood clot forms in a vein deep inside one or both legs. This causes ... Red skin color ... Increased warmth ... Leg pain or tenderness ... and Swelling (edema). DVT mainly affects the large veins in the lower leg and thigh. The clot can also block blood flow. So if the clot breaks off and moves through the bloodstream, it can get stuck in the brain, lungs, heart, or other area, leading to severe damage or even death!

RESTLESS LEG SYNDROME is a common cause of painful legs which typically only eases with constant motion and becomes more noticeable at rest. RLS often worsens during the early evening or at night, often leading to insomnia.

PERIPHERAL ARTERY DISEASE

is a narrowing of the peripheral arteries in the legs. PAD is similar to coronary artery disease. This condition is caused by narrowed and blocked arteries in your legs. These hardened arteries restrict the blood supply to the heart.

HEAVY/TIRED LEGS is caused by stagnate blood in the veins, making them dilate and causing calves and ankles to swell. It also makes them feel tired and heavy. Without treatment, these leg veins will enlarge and worsen with time.

Heat, long periods of standing, obesity, and improper diet increase heavy leg symptoms.

EDEMA is swelling or puffiness of parts of the body caused by extra fluid that builds up in the tissues of your body. Edema usually happens in the feet, ankles and legs, mostly due to gravity as it pulls fluid down into your legs and feet. Sitting or standing still for too long can cause edema of the legs, especially in hot weather.

CRAMPS are caused by poor circulation to the muscles in your legs.

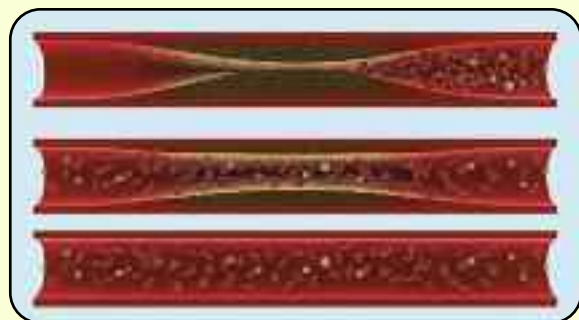

GOUT is a disease that results from an overload of uric acid in the body. This overload of uric acid leads to the formation of tiny crystals of urate that deposit in tissues of the body, especially the joints. When crystals form in the joints, it causes inflammation. Gout is considered a chronic and progressive disease. Chronic gout can also lead to deposits of hard lumps of uric acid in the tissues, particularly in and around the joints and may cause joint destruction, decreased kidney function, and kidney stones.

VeinEase® will work **INSIDE** your veins to strengthen them and make your veins less “leaky”!

When your veins become stretched from too much slow-moving blood, they also become porous, and fluid begins to leak out into your leg tissue. This chokes off healthy circulation and thus begins all of the leg problems you might be suffering from right now.

VeinEase was designed SPECIFICALLY to combat this problem, strengthening your vein walls to get all that excess fluid out that make your legs tired, achy and swollen. With VeinEase working inside your legs, you will notice a quick and remarkable difference in both the feeling and appearance of your legs!

POWERHOUSE LEG HEALTH INGREDIENT **#2: GINKGO BILOBA improves your vein health for greatly increased circulation!**

Ginkgo Biloba trees are estimated to be over 300 million years old, and are *still* used today around the world for boosting circulation throughout the entire body and helping to promote smooth blood flow.

Ginkgo Biloba is also a powerful, medically- tested antioxidant that will safely increase blood flow and the circulation of oxygen-rich blood throughout your body.

That is precisely why in many countries, it is the #1 selling natural remedy for enhancing vein health, which in turn plays a huge part in clearing up nagging leg issues.

What makes ginkgo biloba so potent for circulation and vein issues are the two active ingredients it contains, flavone glycosides and terpene lactones.

These two powerful ingredients help keep your blood flowing smoothly, while helping to improve the oxygen content of your blood. And both of these positive actions are vital to clearing up ANY leg problems. In fact, without these actions taking place, your leg problems will persist forever.

As an antioxidant, Ginkgo also goes to work to protect all your vein cells from being destroyed by

damaging free radicals. It is also believed to play a major role in keeping your veins and valves elastic so they can function properly.

VeinEase is *loaded* with a full 60mg of Ginkgo Biloba that will ensure you are getting plenty of this powerful, vein-helping ingredient! Ginkgo Biloba can help ...

- Increase the amount of blood that flows to your legs!
- Thin out sticky, sluggish blood!
- Eliminate discomfort while walking!
- Oxygenate poor blood!
- Halt the premature aging of vein cells!
- Improve circulation issues caused by diabetes!

“This is the best vein medicine I have ever used. It completely relieved the discomfort!”

— E.C. Purizean

The bottom line with your legs is this:
Until you improve the flow of blood and oxygen in your legs, your leg problems will *continue* to get worse ... until you eventually lose your independence!

It might start with only a few stray, innocent veins showing through your skin, but this IS a sign that your circulation is POOR. And it will only grow worse! You'll likely soon after begin to notice pain, fatigue, swelling, burning, tightness and restlessness, or worse, develop a silent but deadly blood clot.

If Your Legs Suffer Every Day and Every Night With Swelling ... Pain ... Heaviness ... Soreness ... Fatigue ... Restlessness ... Numbness ... They Are Trying to Tell You they Need HELP!

Stop the Pain, Agony and Suffering Fast With All Natural VeinEase! VeinEase is PROVEN to work day AND night, naturally INSIDE your veins to strengthen them and improve circulation. You will be thrilled with the revitalized improvement! Hundreds of thousands of people have already used VeinEase to naturally soothe their tired, heavy, swollen and painful legs ... for good!

After your worsening leg condition gets to a certain point, something else can happen ... your legs finally give out on you ... for good. Without a long term solution like VeinEase, you stand to suffer a lot and lose a lot! **Imagine ...**

... Not being able to walk long distances, like in park, or at a museum.

... Not being able to comfortably support any extra weight you may have.

... Not being able to walk to your mail box.

... Not being able to endure sitting on an airplane.

... Not being able to get out of your car and into your house.

... Not being able to get up the stairs.

... Not being able to enjoy a leisurely drive.

Losing your fully functioning legs puts you one step closer to a walker or wheelchair! Don't risk your independence or your ability to move around freely and comfortably!

During the last 15 years, over 100,000 people have turned to VeinEase with complete confidence...

"No more swollen legs!"

"I can't thank you enough for VeinEase. After taking it for just 30 days, I can walk and stand without my legs swelling. The leg cramping and throbbing, which I have experienced off and on for some time, are almost totally gone. My legs look and feel better than they have in years. I highly recommend VeinEase to all my friends." — **Mavis S., CA**

When it comes to leg health, VeinEase is the #1, leading all natural solution! Unlike too many natural supplements, MOST people reorder VeinEase and won't live without it!

The sheer number of users is simply a testament to the natural effectiveness of VeinEase! It WILL immediately go to work inside your veins to help strengthen them and cause increase elasticity. It WILL enhance blood flow while helping to ease the pressure on your suffering legs.

It will spell the END of cramping, swelling, aching, restlessness, spider veins, heaviness, fatigue and more! It will bring rapid comfort to your legs!

You don't have a lot of options ... but I can tell you with 100% confidence, VeinEase is no doubt your very BEST option...

Regarding the 80 million Americans who suffer with leg miseries right now ... Many will go under the scalpel for risky surgery to try to ease their pain. Many will take prescription medicines with serious side effects to ease their pain.

And some will simply use VeinEase and quickly and naturally watch their leg health improve with NO drugs or surgery!

End YOUR Suffering and Aching With this Doctor-Approved, All-Natural Leg Relief Breakthrough ... Just Like These People Did ...

"You were my last hope beside prayer. I've never seen results like this! I never want to be without VeinEase®. The doctor said there was no hope. But after 3 years of "severe" suffering, I found hope with your product. **It took only 3 days before I noticed results, then after 1 week – 90% relief.** Thank You." — **D.M. Zachary**

"To me, VeinEase® was an answer to my prayer, as I was having one of my worst days, with all the symptoms of heaviness and pain in my calves and thighs, and I was so discouraged. After about three days I felt so much better. Thanks to your VeinEase. I am certainly going to tell my doctor about it." — **Sister Bonita Fondell**

"I wish to thank you for your leg and ankle swelling and pain relief capsules. I've had this condition for at least 80 years and it was embarrassing to walk. **I was losing control, but shortly after taking your capsules, I felt relief!** Just three weeks ago I saw a specialist he suggested using a cane. Today I can walk upright without pain." — **Gordon J. Leslie**

"I'm 68 years old and was feeling like eighty. In 1978 after a major surgery, I had a bout with Thrombo Phlebitis (blood clotting) which caused extensive injury to my blood vessels on my left foot and leg. Initially, I was treated with for seven months with a blood thinning agent. The blood clots were dissolved, but it left me with much pain and misery (poor circulation on my left side, particularly my left leg.) My doctor, fearing the worst, always checks my left ankle for signs of swelling at each office visit. **Just recently, I sent for Vein Ease, and after three days of use, I felt a slight difference in my circulation. I'm now into my 13th day of use and feeling better.** Along with this letter, I'm sending for an addition at six month supply. I highly recommend VeinEase to all who suffer with the above condition(s)!" — **Mr. Ernest N. Quintanar**

"I am 78 and can hardly walk. But your VeinEase helped. God bless you." — **Zora Evangelista**

"The VeinEase really worked for me stopping leg cramps and helped swelling. I feel much better (my legs) Thanks very much." — **Charlie E. H**

"I simply can't be without this product! I have run out a few times and thought my legs would be okay, thinking the pills were my imagination. How could a pill recommended by a doctor work so well! I work in a hospital and am on my feet all day. The aching and painful cramps are gone with VeinEase. Thank you from the bottom of my heart!" — **Barbara Leroy**

"Your product helps me a whole lot! **I had to go without it for a week, and my leg got really miserable. I noticed an immediate difference as soon after taking the capsule!** My Mom is 91, has severe leg trouble and a lot of painful leg wrapping. So your product is going to be like manna from heaven for her! Great stuff!" — **Bruce Hurley, Hillsburo, OR**

"I've been out of my VeinEase for 4 months and I find that my legs are swelling again! So I need to begin taking it again. I got so I didn't need to wear these awful stockings. Now I will learn from that, and keep taking VeinEase. Thank you so much. **My Doctor has suggested it would help, and it has!"** — **Gladup D. Jones**

"I'm sending a check for more VeinEase. **The pills help me a lot, and I am very faithful taking them every day.** I'm running out, but I'll be ok until the new ones come. Thank you." — **Mrs. Make Melisi**

"I have taken capsules for 10 days and have not experienced leg cramps the past 6 nights. A wonderful relief! Thanks so much." — **Phuiey Philip**

"I just want to tell you that VeinEase saved my vacation! My sisters and I had planned a 5-day trip to Chicago for the end of June. For the past several years, I have had a problem with my ankles swelling and legs aching if I do a lot of standing or walking. I knew if my ankles started swelling, my sister would make me stay in the hotel room! Then I received a flyer in the mail for VeinEase. I ordered a 30 day supply, hoping it would come before I left on vacation. It came a week before I was to leave so I started taking it right away. I took them every day while I was on vacation, and I had no trouble at all with swelling ankles, and only the normal amount of leg tiredness from walking. I am ordering more Vein Ease. Thank you so much for this great product!" — **Bonnie Kitchen**

"Thank you for VeinEase! I had a blood clot in my leg 2 years ago that went to my lung. I was in the hospital a week. Since then, I've had swelling and discomfort in my leg that makes it difficult to walk, get in the tub and etc. **Two weeks on VeinEase has been a blessing. Nearly no swelling and the pain is not there. An answer to prayer.**" — **Shelva Palmer**

We have hundreds and hundreds MORE testimonials! Nothing works better for leg rejuvenation than all natural VeinEase!

If YOU are one of those 80 million Americans, VeinEase[®] is the safest (no prescription needed!), most natural way to quickly and assuredly bring comfort, health and strength back to your legs.

Even if you don't have signs of varicose veins now, but HAVE noticed even a slight difference in your leg function or comfort, VeinEase can help maintain proper leg health and structure to fight vein deterioration in the future.

The ONLY purpose of VeinEase is to improve your circulation and END your leg problems ... without drugs!

Maybe you've already taken clonazepam or diazepam for restless leg syndrome or other drugs to thin your blood.

And maybe they've worked, or perhaps they haven't.

But I'm pretty certain if you *have* used them, they've caused some uncomfortable side effects. As most prescription drugs do. These chemicals just aren't good for your body long-term.

Plus, there is no ONE drug that will effectively treat ALL of the 27 most common leg issues. In fact, NO other natural treatment so effectively treats leg problems like VeinEase does!

You might find a random product that aims to treat one or two symptoms of troubled legs. But I guarantee if you look high and low, not ONE will rescue your legs from top to bottom like VeinEase does.

Put a quick and natural END to all your leg problems ... Reply now 100% risk free for all-natural VeinEase!

VeinEase is the most potent leg health formula on the market today! I'm confident it will improve your circulation to soothe the tired, aching suffering of varicose veins.

Don't wait ... reply now to join the VeinEase family of satisfied users and get special, first-time-buyer-only low pricing. And if you reply within the next 7 days, you'll also get 2 FREE Special Reports.

"Amazing Relief of My Tired Aching Legs."

"I'm an active woman who runs a large art studio. I'm used to being busy all day at work, and at home with my family and friends. For the last year, however, my legs have ached and felt like lead

*weights, particularly when I stood in one place for a few minutes or walked more than a few blocks. I tossed and turned at night because of restless legs — so I was tired a good deal of the time. My doctor told me the only thing I could do was to rest; and try support stockings (which I hate) to help my circulation. **Since taking VeinEase for just a few weeks, I'm now on my feet all day and can take long walks without discomfort. I even have energy to burn, because at long last, I can get a good night's sleep!"***

— Frances P., NY

Don't risk your mobility and independence with deteriorating leg health!

Do your part to establish and maintain proper circulation and leg health, and avoid all the symptoms that can keep you down, or even kill you should you develop a blood clot.

As over 100,000 VeinEase users can attest, NOTHING works better than all-natural VeinEase!

Reply right now 100% risk Free!

Guaranteed to help support your vein wall tone and vein elasticity.

Guaranteed to give you relief from vein discomfort, and itchy, restless feelings.

Guaranteed to rapidly reduce feelings of burning and numbness.

Frequently Asked Questions About VeinEase:

Q: What are the proven benefits of Ginkgo Biloba and Horse Chestnut?

A: The proven-to-work herbal formula found in advanced VeinEase relieves the symptoms associated with Varicose Veins and poor circulation. In addition, the Horse Chestnut alone in VeinEase was shown to be as effective as using elastic stockings to treat Varicose Veins — reducing leg swelling by as much as 20%.

Q: Can anyone take VeinEase?

A: Men and women of any age looking to improve circulation can benefit from VeinEase. It is 100% safe to use even if you're taking medication or on a restricted diet. I do recommend advising your doctor before taking VeinEase, as with any nutritional supplement, just so they are aware.

Q: How long will it take for VeinEase to start working?

A: VeinEase begins working immediately to soothe tired, heavy, aching legs, and speed the flow of oxygen-rich blood to your tissues. Some VeinEase users have reported significant leg relief in only a few days. Since VeinEase is an all-natural product, it's best to take it daily, as directed, for a full 90 days to receive all of its guaranteed leg relief benefits.

Q: Does VeinEase have any side effects?

A: NO. VeinEase is hypo-allergenic, non-toxic and virtually free of any side effects.

Q: Are there studies to support the effectiveness of VeinEase?

A: Yes, one recent study of poor circulation sufferers showed a remarkable 82% of Escin-rich Horse Chestnut users reported their leg symptoms improved, some in as few as one to four days. Ginkgo Biloba extract has also been shown in countless studies to normalize circulation.

Q: Is my use of VeinEase guaranteed?

A: Yes, if you don't get the results you are expecting, you may return it for a full refund.
