Pharmacists now armed with a powerful new weapon that delivers real joint comfort

Luck of the draw gives local readers 56 hour window to be the first to get the new pills

BY G. W. VARIER

Scientists and doctors have developed an amazing new oral tablet called Trigosamine. It's so impressive that one key ingredient has the ability to retain fluid up to 1000 times its own weight, with the potential to increase lubrication for the joints allowing them to move with ease.

"Using Trigosamine is like taking a can of oil and applying it directly to your joints" said Dr. Joseph Dietz, Chief of Health Sciences.

And thanks to the luck of the draw, readers of this publication will be among the first to get it. That's because this area has already been assigned a toll free Regional Health Hotline, but the catch is the hotline is set to close in just 56 hours.

"We recommend that those living in this area call now to get their share first," said Matthew J. Woods, Director of The Regional Health Hotline.

"Right now we're shipping out everything we have on a first come first served basis. We may not be able to meet everyone's demands as word continues to spread across the country," he said.

Trigosamine contains one of the most promising joint nutrients known to man. Researchers refer to it as HA13.

This important nutrient is a building block of naturally occurring joint oil which is medically known as synovial fluid. This fluid reduces friction in the joints allowing for effortless motion. It not only lubricates the joints but it also acts as a comfortable shock absorber.

"As the body ages the production of synovial fluid declines which forces the joints to grind together resulting in nagging discomfort," Dr. Dietz said.

"HA13 has been shown to be absorbed into the body and made available to the joints. That means it has the potential to replenish the ultra slippery synovial fluid, which allows joints to slide freely and smoothly," said Dr. Dietz.

Now for the first time ever the Trigosamine brand combines HA13 with the essential blend of Glucosamine and Chondroitin.

It has been clinically shown that this essential blend of glucosamine and chondroitin helps to build healthy cartilage in the joints and allows for increased flexibility and range of motion. This impressive combination works to alleviate uncomfortable joint dysfunction which results in amazing comfort.

A clinical study conducted by the United States government found that glucosamine and chondroitin, similar to those present in Trigosamine, had a remarkable 79.3% effective rate for those with moderate to severe joint discomfort.

It was also announced at The American College of Rheumatology meeting that the combination of glucosamine and chondroitin showed promise among persons with moderate to severe discomfort.

"The clinical trials have been consistent. The essential blend like the one present in new Trigosamine has been proven safe and is extremely effective," Dr. Dietz said.

One of the reasons Trigosamine is receiving so much attention is because it is derived from natural sources. The ingredients are combined to make a revolutionary new formulation that is taken orally just once a day without a prescription.

The tough part now is how to get it.

"Everybody wants it," Woods said.

"The first drugstores to get this new formula couldn't keep it on the shelves."

That's why CVS/pharmacy, Rite Aid and Brooks/Eckerd have already stockpiled the first available shipments. The down side is the other drugstores may not get their shipments until later this year.

That makes the next 56 hours so critical for everyone living in the local area. Those who get through to the Regional Health Hotline before the deadline will get Trigosamine sent directly to their homes.

Otherwise, those who miss the deadline and everybody else living in other parts of the country will be hard pressed to get it.

So, even with the clock ticking local readers still have the advantage of being among the first to get their hands on this new medical breakthrough. ■

Here's how to get it

Until all pharmacies are fully stocked the national distribution of new Trigosamine is being conducted on a state by state basis. Those living in the states listed below with a ★ next to it are authorized to have it sent directly to their home by calling The Regional Health Hotline now.

Regional Hotline Approval Code: **TG2062**

★ = Call **1-800-782-8750**

LINES OPEN at **9:00 am** today

- ALABAMA: must wait
- ALASKA: must wait
- ARIZONA: must wait
- ARKANSAS: must wait
- ★ CALIFORNIA: call now - 56 hour deadline
- COLORADO: must wait
- CONNECTICUT: must wait
- ★ DELAWARE: call now - 56 hour deadline
- FLORIDA: must wait
- GEORGIA: must wait
- HAWAII: must wait
- IDAHO: must wait
- ILLINOIS: must wait
- INDIANA: must wait
- IOWA: must wait
- KANSAS: must wait
- ★ KENTUCKY: call now - 56 hour deadline
- LOUISIANA: must wait
- MAINE: must wait
- ★ MARYLAND: call now - 56 hour deadline
- MASSACHUSETTS: must wait
- MICHIGAN: must wait
- MINNESOTA: must wait
- MISSISSIPPI: must wait
- MISSOURI: must wait
- MONTANA: must wait
- ★ NEBRASKA: call now - 56 hour deadline
- NEVADA: must wait
- NEW HAMPSHIRE: must wait
- NEW JERSEY: must wait
- NEW MEXICO: must wait
- NEW YORK: must wait
- ★ NORTH CAROLINA: call now - 56 hour deadline

■ **HEALTHY JOINTS:** Diagnostic x-rays reveal human joints that have the proper amounts of synovial fluid to lubricate the joints and act as a comfortable shock absorber. The plentiful fluid allows for comfortable and effortless motion.

HOW Trigosamine WORKS

Trigosamine oral tablets are taken once daily with a mechanism of action with three powerful joint nutrients put into place to provide comfort.

1. **Hyaluronate-HA13™:** This remarkable compound is present in the body's synovial fluid which acts as a shock absorber and makes the joints extremely slippery allowing them to slide smoothly over one another.*
2. **Glucosamine Hydrochloride-GH05:** This clinically proven compound helps build and maintain cartilage to reduce joint dysfunction.*
3. **Chondroitin Sulfate-CS12:** Clinically proven compound helps improve flexibility and promotes increased range of motion.*

Breakthrough medicine delivers rapid pain relief without dangerous side effects

Shortages possible, consumers must act quickly to get remarkable pain relief formula

Pain sufferers are calling it a godsend. Doctors are calling it safe and effective.

This remarkable new product is called FLUIDjoint DispersaCream.

"Everyone can expect it to hit several major pharmacies by year end, until then shortages are possible," said Matthew J. Woods, Director of Health Services.

"CVS/pharmacy has already sold through their first production runs," he said.

This remarkable new pain reliever gives swift temporary pain relief targeted directly where the pain starts. When used as directed there are no negative side effects to worry about like those associated with many oral pain pills.

FLUIDjoint's advanced technology enables the combination of powerful ingredients to be delivered quickly and safely directly to the site of the pain. Within a matter of minutes minor pain is relieved.

Dr. Joseph C. Dietz is the Director of Health Science, Research and Development at PatentHEALTH, LLC, the innovative healthcare company that developed FLUIDjoint DispersaCream.

"FLUIDjoint DispersaCream is a highly effective and safe new medicine formulation for the relief of minor arthritis pain. It provides penetrating relief directly to the joints that bother you the most," said Dr. Dietz.

The result is a fast acting, super penetrating, long lasting, pain reliever.

FLUIDjoint DispersaCream is notably effective in lessening arthritis pain.

FLUIDjoint DispersaCream is also extremely effective in helping people who have trouble falling asleep due to nagging pain and discomfort.

Applied topically at home, FLUIDjoint DispersaCream can help seniors and athletes reduce aches to provide temporary freedom from arthritis pain.

Scientists have developed FLUIDjoint DispersaCream to be a special transdermal preparation designed to penetrate the skin and reduce pain in the tissue beneath the skin surface.

FLUIDjoint DispersaCream contains two of the most promising ingredients discovered this century for safely and effectively treating minor muscular and joint pain.

These substances allow FLUIDjoint DispersaCream to quickly penetrate muscles and joints in localized areas. The overall pain relief effects are cumulative and are usually felt within minutes of being applied.

Individuals with arthritic diseases that cause pain, muscle and joint aches are likely to get remarkable relief using FLUIDjoint DispersaCream.

This new pain reliever is also well suited for people who don't want to add to all the pills they are taking. FLUIDjoint DispersaCream is cost-effective for treating targeted pain.

CVS/pharmacy is reported to have FLUIDjoint DispersaCream. Otherwise, readers can call the Regional Health Hotline at 1-800-840-7798 to get what they need right now. ■

What is it used for?

*RAPID PAIN RELIEF FOR:

Arthritis	Elbow Joints	Sore Muscles	[illegible]
Backache	Hands, Wrist	Sprains	Feet, Toes
[illegible]	Hip Joints	Shoulder Pain	
Neck Joints	Degenerative Joint Disease	[illegible]	

What others are saying

"I am 67 years old and have arthritis in many joints. At times I was unable to bend my fingers or make a fist. I tried FLUIDjoint and within minutes I could feel the difference. I can now bend my fingers with very little pain and I use it on my legs for muscular pain.

I recommended FLUIDjoint to my son in Oklahoma and he has had similar great results. Thanks for some much needed relief from arthritis pain."
