

Here it is: The remarkable XP-100 Pain-Vanishing Capsule. The capsule containing the extraordinary ingredient that proved 100% effective at relieving pain in a major university medical study.

According to one of America's leading health experts, the major ingredient in this incredibly effective health capsule produces a bodily effect that is

STRONGER THAN MORPHINE YET SAFER THAN ASPIRIN.

A medical doctor states this firmly: XP-100 is one of the safest, most effective pain-killing pills ever developed.

A very special pain-vanishing capsule is now providing exceptional relief to pain sufferers all across America. And because it is so effective, it may soon become the most highly desired, sought-after, pain-counteracting pill in the world.

Unlike other pain relievers, it is non-harmful, non-addictive and long-lasting – a superb natural way to take the pain right out of your body.

Medical experts find the "key" for safe pain relief.

The development of this special capsule is based on a striking discovery at one of America's most prestigious medical schools. There, medical researchers found the "key" for effective and safe pain relief: A natural hormone located right in the brain.

Important follow-up studies not only confirmed this discovery, but determined that a natural substance that is non-addictive and non-toxic could provide long-lasting relief from pain by actually activating this natural hormone.

- A 29-year-old man, suffering with whiplash pain, had been treated for two years with aspirin and a widely prescribed tranquilizer – with unsatisfactory results. When he was given this natural substance, he experienced complete relief from pain.
- A 64-year-old woman, suffering

osteoarthritis in her hands, had been treated with aspirin for five years – with unsatisfactory results. When she was given this natural substance, she not only experienced relief from pain, she noted a marked reduction in her joint stiffness.

Health experts use research information to develop powerfully effective pain-killing capsule.

Health experts, realizing the importance of this discovery – realizing how it could bring relief and joy to millions of pain sufferers – developed a unique pain-relieving pill. It is called XP-100, and the good news is this: The XP-100 Capsule is now available to people in every state across America.

Exceeds the effect of morphine without mental or physical side effects.

According to a famed doctor and noted health expert, the XP-100 Capsule often equals or exceeds the effect of morphine and other opiate derivatives by actually activating your body's powerful pain-killing substance. Yet because it causes no adverse mental or physical side effects, and because toxic overdose is impossible, it is safer than aspirin.

Which means if you suffer any type of pain – whether it be arthritis, migraine, PMS, dental pain, muscle pain, neuralgia – you can take the XP-100 Capsule to

counter that pain. Because when you take XP-100, you don't have to worry about side effects – about stomach problems, about addiction, about it being habit-forming in any way. It works like magic.

If you suffer pain, you can order the XP-100 Pain-Vanishing Capsule right off this page.

To counter pain – safely and effectively – all you need do is fill out the No-Risk Order Form on this page as directed. And you can receive the exact XP-100 Capsule that works so well. In fact, you are **GUARANTEED** total satisfaction with the XP-100 Capsule – profound, joyous relief from pain without any adverse side effects. If not, you can receive a full refund of the purchase price by returning any unused portion within 90 days, no questions asked.

Why this Pain-Vanishing Capsule is becoming so popular ...

- It is not harmful to the stomach.
- It is not habit-forming.
- It causes no adverse mental or physical side effects.
- It lasts much longer than aspirin and narcotics.
- It allows the body's own pain-killing substances – which are 18 to 50 times stronger than morphine – to banish pain.

NO-RISK ORDER FORM

YES I would like to receive the marvelous XP-100 Pain Vanishing Capsule. I understand that although this capsule can banish pain in an incredibly potent manner, it is non-toxic, non-harmful and interacts well with other medications. **Item# 1190**

Within the past few months, hundreds of thousands of people have been sent notices about the availability of this special capsule. And people all over America are discovering how it can banish their pain.

"I love XP-100. I was skeptical when I ordered it, but I was tired of taking the prescription pain reliever that I was using at the time for my severe and long-lasting headaches. The prescription made me feel 'out of it.' After trying XP-100, I am a believer! It does indeed work and it works longer. XP-100 gives me a 'smooth' relief that doesn't make me feel drunk and doesn't affect my concentration like the prescription did."

— S. Bryant, FL

"I am 78 years old and will not live without XP-100. Your XP-100, without a doubt, has helped me. Arthritis started in my left knee, I started taking XP-100 and the pain is gone. I value my health and intend to be your customer for a long time. Thank you for 'helping me stay healthy.'"

— A. May, OK

"XP-100 has really helped given me relief from arthritis in my hands. I can also do activities that I want to do, without pain. Thanks."

— A. Hoffer, ND

"I ordered XP-100 because I had a pain in my knee. I followed the instructions, and when I finished the first bottle, I was disappointed that my knee still ached. Towards the end of the first bottle, I began taking two tablets after each meal. Now 1/3 of the way through my second bottle of XP-100, the 'miracle' has taken over. I have no pain whatsoever, and what a pleasure it is to get up from a chair without a trace of any discomfort. Thank you for recommending such a great product."

— E. Lakritz, WI

"I ordered XP-100 because I had a pain on the right side of my head. When I received XP-100, I took only one capsule and the pain left in less than 15 minutes. I wish I would have known about XP-100 a lot sooner, I wouldn't have had to live with pain for so long. From now on, I plan on keeping plenty of XP-100 on hand."

— B. Whismon, KY
