

Pharmacist of the Year Makes Memory Discovery of a Lifetime: Is It the Fountain of Youth for Aging Minds?

'America's Pharmacist,' Dr. Gene Steiner, finds what he and his patients have been looking for – a real memory pill!

PHOENIX, ARIZONA —

If Pharmacist of the Year, Dr. Gene Steiner, had a nickel for every time someone leaned over the counter and whispered, "Do you have anything that can improve my memory," he would be a rich man today.

It's a question he's heard countless times in his 45-year career. He has seen families torn apart by the anguish of memory loss and mental decline, a silent condition that threatens the independent lifestyle seniors hold so dearly.

In his years-long search for a drug or nutrient that could slow mental decline, he finally found the answer in the pages of an obscure medical journal.

"I was studying materials about memory loss and cognitive decline, and there it was, right in front of me...evidence of a real memory pill!"

Pharmacist of the Year, Gene Steiner, PharmD, was so impressed with his newfound memory powers that he recommended the patented, prescription-free memory formula to his pharmacy patients with great success.

"At the time, I was an anchor for a medical program in Los Angeles. I was so excited that I contacted the author of the research and invited him to come on the program as a guest."

"I wanted millions of listeners to learn about this important new development!"

Dr. Steiner's guest that night, US researcher, Josh Reynolds, observed a common 'disturbance' in aging brains, one that may be the primary cause of degrading memory and concentration powers.

Gasping for Air?

He saw evidence that older brains were 'gasping for additional oxygen,' a condition caused by poor blood circulation.

"Insufficient circulation," says Steiner, "reduces oxygen to the brain, a sign of premature mental decline. This also restricts the supply of critical brain specific antioxidants and nutrients."

Reduced blood flow has another brain-numbing effect: it slashes the number of neurotransmitters in the brain, the messenger molecules used by the brain to help form thoughts, retrieve memories, and help its owner stay focused and on-task.

Fewer neurotransmitters circulating in the brain translates to concentration and memory woes.

So, Reynolds and a team of scientists developed a natural, drug-free compound shown in research to prompt aging brains to begin to 'think and react,' younger.

Tired Brains Snap Awake!

"It helps tired, forgetful brains to 'snap awake,'" says Dr. Steiner.

"This natural memory pill is to your aging, sluggish brain, what a breath of fresh air is to your lungs," he says.

It works so well, explains Steiner, that the participants in a peer-reviewed, international research study not only saw improvements in their memory, mood and concentration, but they also regained lost brainpower equal to that of someone 15 years younger, all in a 30-day time period!

This made perfect sense to Dr. Steiner, who knew instinctively that age-related memory problems may be correctable.

After the Show

After the show, Dr. Steiner confided to his guest that he was fearful of not being able to recall certain subject matter for his popular radio show.

"He gave me a couple of bottles and instructed me on its use," says Dr. Steiner.

"Within a few days, I can tell you without reservation that my memory became crystal clear!"

Feeding an Older Brain

The formula helps oxygenate listless brain cells to revitalize and protect them from free radicals caused by stress and toxins.

It also helps restore depleted neurotransmitter levels, while feeding the aging mind with brain-specific nutrients and protective antioxidants.

Steiner was so impressed that he began recommending the formula to his pharmacy customers.

"I had such marvelous results that I not only started recommending it to my customers, I even shared it with other physicians!"

Pharmacy Best-Seller

"It became the best-selling brain health product in my pharmacy and customers were returning to thank me for introducing them to it."

"It felt great to see so many people whose lives were enriched by taking a simple, natural formula."

"A rookie doctor right out of medical school can set a broken bone, or treat a rash or runny nose," explains Dr. Steiner.

"But he is often clueless when it comes to helping a patient who can't remember to take his medicine, or forgets where he's parked his car, or even worse, foolishly leaves the oven on at night."

Seniors are more concerned about memory loss and mental decline than they are about death, itself, according to a new survey.

"With this simple, drug-free formula, we finally have something that we can recommend that is safe and effective. And you don't need a prescription either!"

Recently, Dr. Steiner relocated to another state and was apprehensive about taking the state board of pharmacy jurisprudence

For years, pharmacists told disappointed patients that memory loss was inevitable. A new, drug-free cognitive formula helps improve mind, mood, and memory in as little as 30 days.

examination, a daunting examination that tests a candidate's mastery of pharmacy law.

"I began taking the natural memory compound for two weeks prior to the test, and I passed with flying colors!"

"The recall I personally experienced was fantastic," says Steiner.

Many frontline healthcare professionals are embracing this natural remedy for three reasons.

First, the formula was submitted to the rigors of a placebo-controlled, randomized, double-blind clinical trial, using the same FDA-sanctioned brain testing protocols used to qualify prescription-sold cognitive medicines.

"The findings for improved brain function were shocking," says Steiner.

Then, the results were shared with the world in a well-respected, peer-reviewed medical journal.

#1 Selling Brain Health Pill

Thirdly, this natural, memory-boosting wonder has passed the toughest yardstick of all – scrutiny from the US consumer.

Word has spread; in a very short time, Reynolds' memory-booster has quickly become the #1-selling brain health supplement in the United States.

Dr. Steiner estimates that as much as 10 million single-doses have been used with excellent results by 'lots of forgetful folks.'

Users like Selwyn Howell* agree. He credits the memory compound with bolstering his confidence.

"It helped me speak out more than I used to. I am growing more confident every day."

Carey S.* reports, "I feel so much more focused and with the new energy I'm now ready to tackle the things I've been putting off for years!"

Elizabeth K.* of Rochester, New York experienced a night-and-day difference in her mind and memory. At the age of 54, her memory was declining at an "alarming rate."

"I was about to consult a neurologist when I read a newspaper article about it."

"It took about a month for the memory benefit to kick in. Six months later, even my husband was impressed with my improved memory. And I am very happy with my renewed

mental clarity and focus!"

"I highly recommend it," says Dr. Steiner. "This drug-free compound is the perfect supplement for increasing one's brain power. If it worked for me, it can work for you!"

Get a Free 30-Day Supply of this Pharmacist-Recommended Memory Formula!

Call the toll-free number below to see how you can reserve your free 30-day supply of the same, patented memory formula used by Dr. Steiner. It is the #1-selling memory formula in the US, and it is also mentioned in the medically acclaimed book, *20/20 Brainpower: 20 Days to a Quicker, Calmer, Sharper Mind!*

Claim Your Free Copy of the Top-Selling Book, 20/20 Brainpower

When you call the toll-free number below, ask how you can also receive a free copy of the medically acclaimed book, *20/20 Brainpower: 20 Days to a Quicker, Calmer, Sharper Mind!* It's a \$20 value, yours free! But don't wait, supplies are limited!

Free Brain Detox Formula, Too!

Be one of the first 500 callers, and you can also receive a free supply of the brain detox formula that is scientifically designed to help increase mental clarity and focus even further by helping flush away toxins in the brain. Call now while supplies last!
