

The Shocking Truth About Cholesterol-Lowering Drugs!

If you're taking:

✓ Lipitor® ✓ Mevacor® ✓ Pravachol® ✓ Altocor® ✓ Lescol®
✓ Zocor® ✓ Crestor® ✓ Or any other statin drugs...

READ THIS URGENT BULLETIN IMMEDIATELY!

Dear heart conscious-friend,

Layne Lowery
President
Health Resources™

If you or your loved ones are taking cholesterol-lowering drugs, you may be in grave danger. In fact...

...This health hazard is so dangerous, it may literally stop your beating heart!

Here's what's even more appalling:

Based on new guidelines from the *American Medical Association*...

...A whopping 39 million Americans will soon take cholesterol-lowering drugs **every day** to help keep their blood vessels clear and reduce their risk of heart problems.

That means doctors are writing out MILLIONS of prescriptions for Lipitor®, Mevacor®, Crestor®, Pravachol®, Zocor® and other powerful cholesterol-lowering drugs—and NOT TELLING

patients about one very deadly side effect!

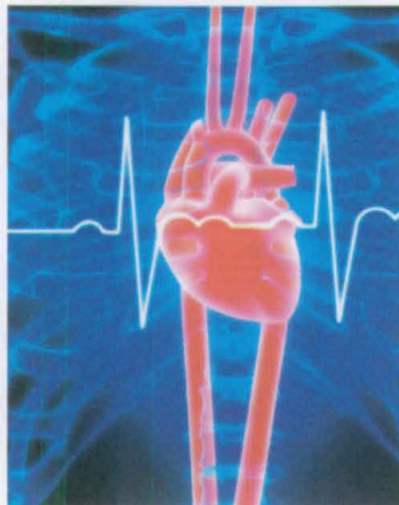

My name is Layne Lowery. As president of Health Resources™, one of the nation's fastest growing nutritional health companies, I'm sending you this urgent bulletin—at my own expense—so you can take action NOW to protect your family.

Because if you're taking cholesterol-lowering drugs, also known as "statins"—you must know this: (Continued on next page...)

Numerous scientific studies from prominent scientists and universities now PROVE popular cholesterol-lowering drugs significantly lower your precious levels of the lifesaving nutrient called Coenzyme Q10—also known as “CoQ10!”

The critical “spark” that keeps your heart beating strong!

You’ve probably heard about CoQ10. Without a doubt, it’s one of the most remarkable discoveries of the 21st century. Put simply: This amazing nutrient is the “energy switch” that sparks life to all 100 trillion cells in

your body. And your heart uses up to 10 TIMES more CoQ10 than any organ in your body!

More than 1,000 published human and animal trials performed all over the world, prove this Nobel-Prize winning nutrient can help you:

- ✓ Flood your cells with endless energy...
- ✓ Normalize and even restore healthy **blood pressure**...
- ✓ Relieve **tooth and gum problems**...
- ✓ Shield your brain—and help prevent **memory loss**...
- ✓ Repair **damaged cells** and feed healthy cells...
- ✓ Protect you from **free radical damage** that can prematurely age your body...

✓ Put an end to **headache** pain

When you were a kid, your liver produced an abundance of CoQ10 for your cells. That’s why you could go... Go... GO all day long!

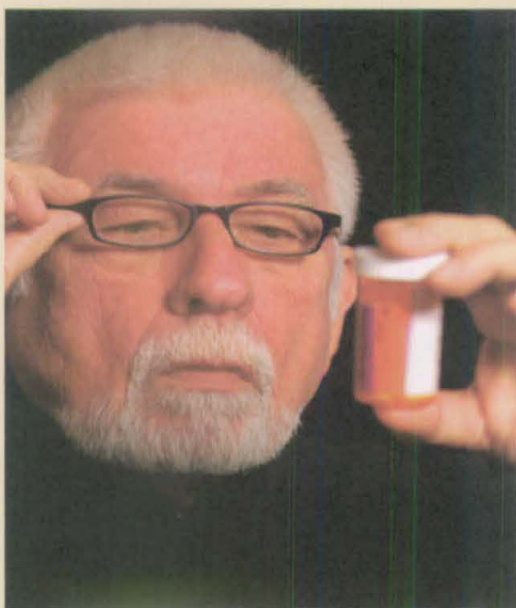

But around the age of 30, you start to produce less of this critical nutrient. And your CoQ10 levels continue to decline with every passing decade.

And when you take cholesterol-lowering drugs—you can virtually WIPE OUT your essential levels of CoQ10 and prevent your cells from functioning properly. That means...

- ✓ **Skin cells**—get old faster!
- ✓ **Lung cells**—choke!
- ✓ **Liver cells**—fill with toxins!
- ✓ **Brain cells**—shut down!
- ✓ And **heart cells**—stop beating!

In fact, scientific studies show cholesterol-lowering drugs alone can reduce serum levels of CoQ10 by up to 40%.

Where’s the “Black Box” Warning for Cholesterol-Lowering Drugs?

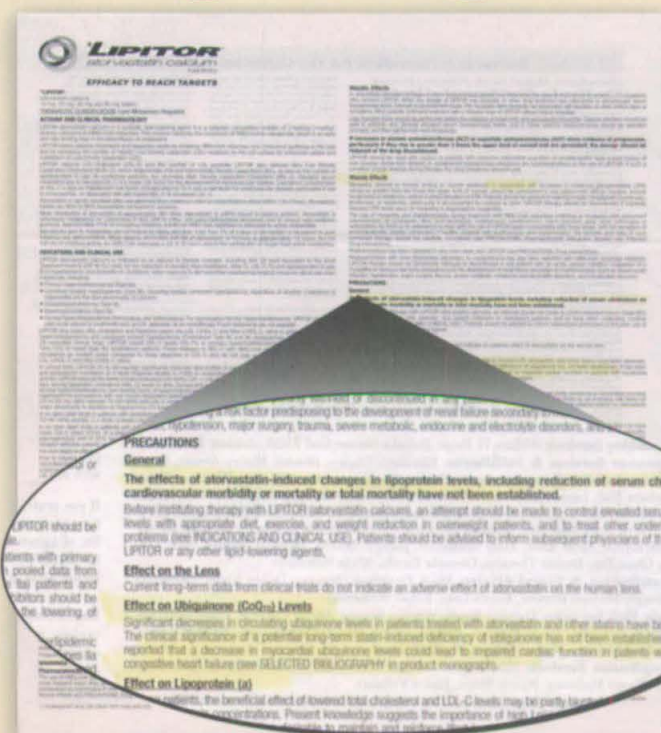

Research studies printed in *The Journal of the American Medical Association*, *The New England Journal of Medicine*, *The Lancet*,

and *The Journal of Clinical Investigation* now prove without a shadow of doubt cholesterol-lowering drugs deplete your essential levels of CoQ10.

So why aren’t drug companies required to warn you about this danger on every prescription bottle?

Canada now requires the makers of all statin drugs—which includes Lipitor®, Zocor®, Pravachol®, Mevacor®, and Crestor®—to include a warning and description of the risk in patient safety-information sheets. But U.S. drug companies are getting off the hook!

The simple fact is: If you’re taking cholesterol-lowering drugs—you’re likely in danger of a CoQ10 deficiency that can lead to a health disaster!

▲ HERE'S PROOF: Cholesterol-lowering drugs can dangerously reduce your CoQ10 levels!

That's serious because according to noted CoQ10 expert Dr. Karl Folkers...

"...When CoQ10 levels fall just 25%, you can experience illness. But when levels fall by 75%—the result can be death!"
Here's the proof:

A study recently reported in *Clinical Investigation* shows that low CoQ10 levels **predict death within six months** in 94 consecutive patients they studied!

Scores of other studies confirm the devastating effects of cholesterol-lowering drugs. For example...

Columbia University College reports dangerous side effects can happen in just 14 days!

A study from *Columbia University College* in New York found that patients taking Lipitor® significantly decreased CoQ10 levels in **just 14 days!**

CoQ10 levels PLUMMET with popular cholesterol-lowering drug Lovastatin

As far back as 1990, researchers discovered CoQ10 levels dropped in patients taking the popular statin drug Lovastatin. All the patients were suffering from a potentially fatal deterioration of the heart muscle.

The lower their CoQ10 levels fell, the worse their condition became!

Blood levels of CoQ10 take a NOSE DIVE while taking Simvastatin!

British researchers discovered that patients taking Simvastatin had substantially lower levels of CoQ10 in their blood. The greater the dosage of the statin drug, the lower their CoQ10 levels!

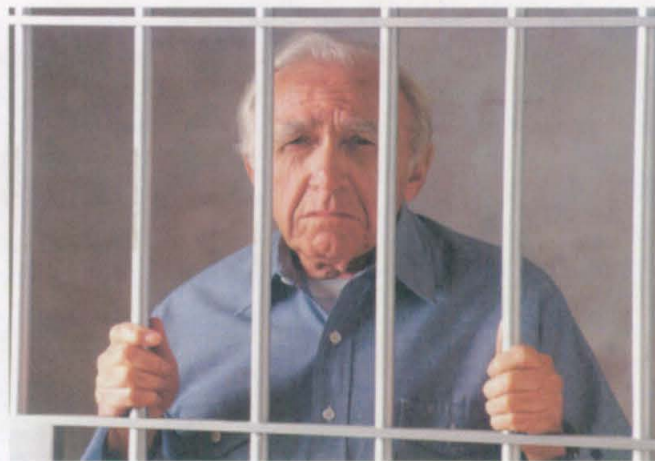

Cholesterol-lowering drugs damage heart muscle in just 12 weeks!

French researchers proved statin drugs significantly weaken the heart muscle in as little as 12 weeks. What's more, *The Journal of the American Medical Association* reported taking just 20 milligrams of Simvastatin a day lowered CoQ10 levels by 22%!

With all this research, clinical trials and studies showing the damaging effects of cholesterol-lowering drugs, let me ask you this...

Why in the heck are drug companies producing cholesterol-lowering medicines WITHOUT WARNING your doctor—and you—about this health hazard?

The truth is, pharmaceutical giants know the dangers of taking cholesterol-lowering drugs without supplementing with CoQ10.

▲ By ignoring the lifesaving benefits of CoQ10, drug companies are sentencing sufferers to a lifetime of ineffective treatment for their symptoms of high cholesterol.

In fact, back on **January 18, 1989** and **February 2, 1989**, Merck filed two patents to combine cholesterol-lowering drugs with CoQ10. Yet they've sealed and locked away those patents for over 18 years!

It's an outrage that pharmaceutical fat cats **IGNORE** the lifesaving value of CoQ10. They're still producing their cholesterol-lowering drugs without including this essential and life-saving nutrient! But that's not all...

The FDA, American Heart Association, and leading medical journals are also aware of this danger!

Medical journals such as *The New England Journal of Medicine...* *The Lancet...* *The American Heart Association...* and even the *FDA* are well aware cholesterol-lowering drugs

(Continued on next page...)

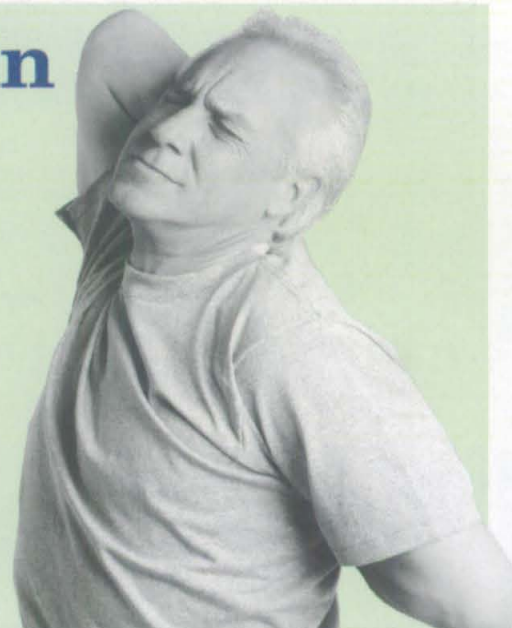

Surprising Cause of Muscle Pain

Noted cardiologist Peter Langsjoen, M.D. studied 20 patients with completely normal heart function taking the popular cholesterol-lowering drug Lipitor®. He made this eye popping discovery:

After six months on a low dose of 20 mg of Lipitor® a day, a whopping two-thirds of the patients developed abnormalities in the heart's filling phase—the stage when the muscle fills with blood!

According to Dr. Langsjoen, this malfunction is due to CoQ10 depletion. Statin drugs deplete the body of this critical energy-producing enzyme. Without CoQ10, the cell's mitochondria can't produce energy. This leads to muscle pain, weakness, and serious heart problems. Dr. Langsjoen adds, "The heart is especially susceptible because it uses so much energy."

The muscle pain and weakness you experience may be your body's silent cry for more CoQ10!

What's causing the epidemic of heart failure?

Noted experts speak out!

“...Dramatic increases in the incidence of heart problems may be partly related to the widespread use of “statin” cholesterol-lowering drugs, including Lipitor®, Pravachol®, Mevacor®, and Zocor®...”

Conclusion of an article in the journal *BioFactors* by Peter Langsjoen, M.D., affiliated with the East Texas Medical Center in Tyler, TX

Journal of the American Medical Association reports...

“CoQ10 deficiencies contribute to congestive heart failure!”

(...Continued from page 3)

seriously lower your CoQ10 levels. In fact...

...In Canada, it's now MANDATORY for drug companies to disclose the CoQ10 deficiency danger when taking their prescriptions.

Well, that's great news for Canadians, but what about us living in the good ole U.S. of A.?

In our country, drug companies can legally keep MUM about this health threat—and that just boils my blood!

But fortunately, there's some good news—no, make that FANTASTIC news!

Because if you:

- ✓ Take any of the popular **cholesterol-lowering drugs** including Lipitor®, Mevacor®, Crestor®, Pravachol®, or Zocor®...
- ✓ Worry about the health of your **heart**...
- ✓ Suffer from **serious heart problems**...
- ✓ Experience **low energy** levels...
- ✓ Are plagued by fuzzy thinking, **forgetfulness**, and “senior moments”...
- ✓ Struggle with **poor circulation** and have cold hands and feet...
- ✓ Or want to look and feel decades younger...

Then you simply **MUST** take CoQ10! It's a wonder nutrient that's now proven to help **REVERSE** many serious health problems. For example...

91% of patients improve within 30 days!

According to a study published in the medical journal *Cardiovascular Drugs Therapy*, a whopping 91% of patients who suffer interruption of blood flow to the heart experience improvement **within 30 days** of starting CoQ10 supplementation! What's more...

✓ 75% of patients have fewer heart rhythm

disturbances!

✓ 66% of patients report diminished chest pain!

✓ 50% fewer patients suffer from a future cardiac event!

The Journal's startling conclusion: CoQ10 supplementation, “can provide rapid protective effects in patients if administered within three days of the onset of cardiac symptoms.”

87% restore heart function in just 8 weeks!

In another study published in the journal *Molecular Aspects of Medicine*, researchers discovered among patients

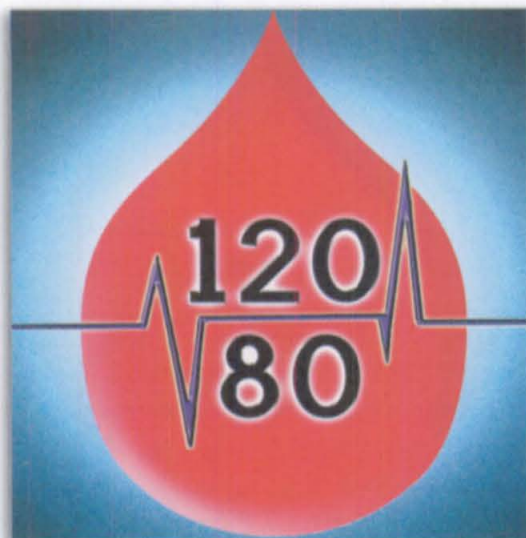

“Statins (cholesterol-lowering drugs) have killed and injured more people than the government has acknowledged.”

— USA TODAY

“It has been well documented from biopsies that the severity of heart failure correlates with the people who have the lowest levels of CoQ10.”

—Peter Langsjoen, M.D., University of Texas Health Center, Specialists in congestive heart failure and other diseases of the heart muscle.

Up to 90% Effective for Lowering Blood Pressure!

In one study, an average of 225mg daily of CoQ10 was given to 109 cardiology patients. All the patients had a higher than normal range of blood pressure for at least one year. The results?

Over 50% of the patients stopped taking one to three

of their usual blood pressure medicines within four months. What's more...

...A whopping 90% of the patients experienced noticeable benefits and improvements in their blood pressure *within two months of the CoQ10 therapy!*

who suffered from heart valve problems, an amazing 87% completely restored normal heart function after receiving CoQ10 supplementation for eight weeks!

Double the survival rate!

In yet another study in the medical journal *Circulation*, published by the American Heart Association, 49 patients who received cardiopulmonary resuscitation (CPR) after suffering a heart stoppage were randomly selected to receive CoQ10 along with other forms of treatment. The results?

The CoQ10 group had **double the survival rate**—that's 68% compared to 29%!

The researchers also found that 36% of patients in the CoQ10 group had good neurological results at three months, versus only 20% in the placebo group.

46% reduction in angina attacks!

A study printed in the *Journal of Clinical Pharmacology* found that 150 mg of CoQ10 reduced the frequency of angina attacks by up to 46%, while improving the capacity for physical activity in those patients.

CoQ10 supplements REVERSE drug-induced deficiencies!

Italian researchers demonstrated by giving CoQ10 to patients taking cholesterol-lowering drugs, blood levels of this vital nutrient were maintained and CoQ10 deficiencies were REVERSED! In other words...

CoQ10 can help UNDO the damages of cholesterol-lowering drugs!

I could go on and on about the scientific proof that supports crowning CoQ10 the wonder nutrient of the century! But in a nutshell...

...There have been at least 34 placebo controlled studies involving 2,152 patients on CoQ10's effect on serious heart problems. Yet there were no reported toxicity or drug interactions! That's an astounding record!

If you have high blood pressure... "skipped" heart beats... or frequent chest pain—you need CoQ10!

Recent clinical trials show high blood pressure can be linked to low CoQ10 levels. In one study printed in *Pharmacotherapy*, over 50% of patients with high blood pressure were able to stop taking between one and three blood pressure medicines after just four months of starting CoQ10 supplements!

In another equally impressive study on patients with cardiovascular conditions, 43% of these patients successfully stopped taking between one and three cardiovascular drugs thanks to CoQ10!

Plus, more than 1,000 published human and animal trials performed on CoQ10 show this stellar nutrient is **completely safe**. With CoQ10, you can:

- ✓ Strengthen and **protect your heart!**
- ✓ Help **avoid brain problems!**
- ✓ Boost healthy blood **circulation!**
- ✓ Protect your heart **during surgery!**
- ✓ Help keep arteries **clog-free!**
- ✓ **Stabilize** and restore regular heart beats!
- ✓ And much more!

Despite the overwhelming scientific proof and positive results from CoQ10, I must warn you about this little-known fact:

You **will not** experience the healing miracles of CoQ10 if you're not taking the right form of this amazing nutrient. In fact...

...There's a 90% chance you may be taking the **WRONG** form of CoQ10 and getting little benefits. Here's why:

- ✓ **If your CoQ10 is a powder—TOSS IT OUT!** CoQ10 can be manufactured in either a liquid or a powder form. Many supplement

A Brief Message to Leading
CoQ10 Manufacturers:

Shame on You!

Take a look at the two photos below. Photo A is a dry powder CoQ10 formula.

When examined under a microscope at 200x, you clearly see thousands of tiny crystals. It's impossible for your body to absorb these microscopic "rocks."

Now, take a look at Photo B.

companies trying to make a quick buck choose the powder route—simply because powder is cheaper to produce. The problem is: Laboratory studies show up to 99% of most powdered CoQ10 is not absorbed by your body.

✓ **If your CoQ10 is liquid and contains crystals—DUMP IT!**

For optimal absorption, CoQ10 has to be free of crystals. However, the heating and cooling process used to manufacture CoQ10 turns a significant amount of the nutrient into crystals. It's impossible for your body to absorb these microscopic "rocks." That means you're only getting a fraction of the CoQ10 your body needs for optimal health!

✓ **If your CoQ10 doesn't contain healthy fat—CHUCK IT!** Put simply, CoQ10 can't be absorbed in your blood stream unless it's surrounded by healthy fats. So, if you're taking CoQ10 and you're on a low-fat diet, you may not have enough available fat in your digestive tract to properly absorb the CoQ10!

**Now, there's a way to
GUARANTEE you'll experience your CoQ10 miracle.
Introducing one of the
most potent and powerful
CoQ10s on the planet!**

It's a revolutionary, patent-pending formula called **Super CoQ10™**—available only through Health Resources™! Here are three reasons why Super CoQ10™ is superior:

**Superior Advantage #1:
Maximum
Absorption!**

Super CoQ10™ comes in liquid soft gel capsules. That means Super CoQ10™ quickly enters your blood stream to ignite your cells to optimum activity. How will you know if Super CoQ10™ is working for you? How about sharper thinking... a regular, steady, heart beat... and a boost of energy that lasts all day—and night!

**Superior Advantage #2:
100% Crystal-FREE for
Optimum Absorption!**

Super CoQ10™ includes vitamin E and D-Limonene—a natural substance taken from the peels of lemons, limes, and oranges. Why do we include these nutrients when our competitors don't?

Because research shows vitamin E helps convert CoQ10 to its most powerful, active form. That way, you'll get maximum potency with every dose.

Plus, our scientific research shows D-Limonene is essential to help maintain the CoQ10 in a 100% crystal-free state for optimum absorption. That's why we can guarantee your Super CoQ10™ formula is 100% crystal-FREE!

**Superior Advantage #3:
24-hour Availability!**

Super CoQ10™ provides essential fat molecules to help ensure maximum absorption every time you take Super CoQ10™—even if it's at bedtime!

We add an optimum dose of medium chain triglycerides from healthy coconut oil to each capsule of Super CoQ10™. This guarantees you have the available fat in your digestive tract to help completely absorb your Super CoQ10™. If you're on a low-fat diet—don't worry—your Super CoQ10™ will still get the job done!

**Here's what folks—just
like you—experience first
hand when they take
Super CoQ10™ ...**

Not a day goes by that I don't receive letters from grateful customers who've experienced the healing benefits of Super CoQ10™. And Super CoQ10™ can do the same for you too...

**"I take a medicine
that lowers CoQ10
from my body..."**

"I was out of Super CoQ10™ and started feeling really bad. Your product is far better than what I was using. I now feel great, and won't be without it."

Slidell, LA

UNDO the damages of cholesterol-lowering drugs!

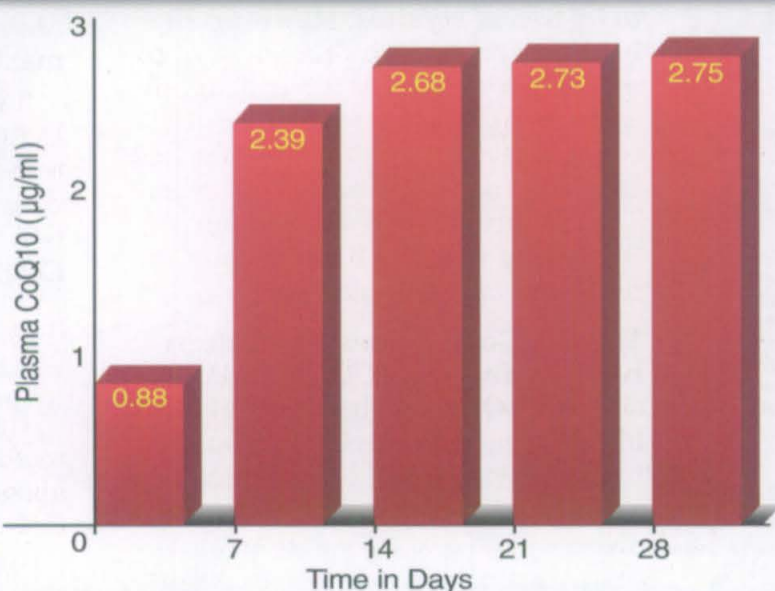

Bad News: A study from *Columbia University College* reveals popular cholesterol-lowering drug Lipitor® lowers CoQ10 levels starting in 14 days!

Good News: Clinical trial now proves Super CoQ10™ can TRIPLE your CoQ10 levels in 14 days!

Great News: Super CoQ10™ is GUARANTEED to help fuel all the cells in your body with abundant energy—or it's FREE!

A study from *Columbia University College* in New York reports cholesterol-lowering drugs

Steady State Bioavailability of CoQsol-CF™ (60 mg/day)

can significantly decrease your CoQ10 levels in just 14 days...

Thanks to Super CoQ10™, you can TRIPLE your CoQ10 levels in just 14 days! Here's the proof:

In a clinical trial performed in

2004, volunteers were given 60 mg a day of CoQsol-CF™ as found in Super CoQ10™.

Blood tests were administered at the beginning of the trial and measured on days 7, 14, 21 and 28 to determine bioavailability and to register CoQ10 levels.

The starting blood level of CoQ10 was .88 µg/ml. In just 7 days, blood levels of CoQ10 sharply increased. By day 14, the average CoQ10 levels more than TRIPLED!

"Pharmaceutical giant sits on 18-year old patents that could save millions of lives!"

Merck owns not one but TWO patents to include CoQ10 with their cholesterol-lowering drugs. After nearly 18 years—this drug giant has yet to produce a cholesterol-lowering drug that includes CoQ10!

One of these patents clearly states the benefits of combining CoQ10 and HMG-CoA reductase inhibitors (statin drugs) especially to patients with congestive heart failure and high cholesterol.

Why go through all the trouble of getting two patents—and not use any of them? Simple reason: GREED!

Merck wants to protect their \$20 billion a year (and growing) statin drug business. If they revealed their drugs deplete critical CoQ10 levels—sales would plummet!

What's more, for economic reasons—it doesn't make "cents" for Merck to include CoQ10 in their drugs. Here's why:

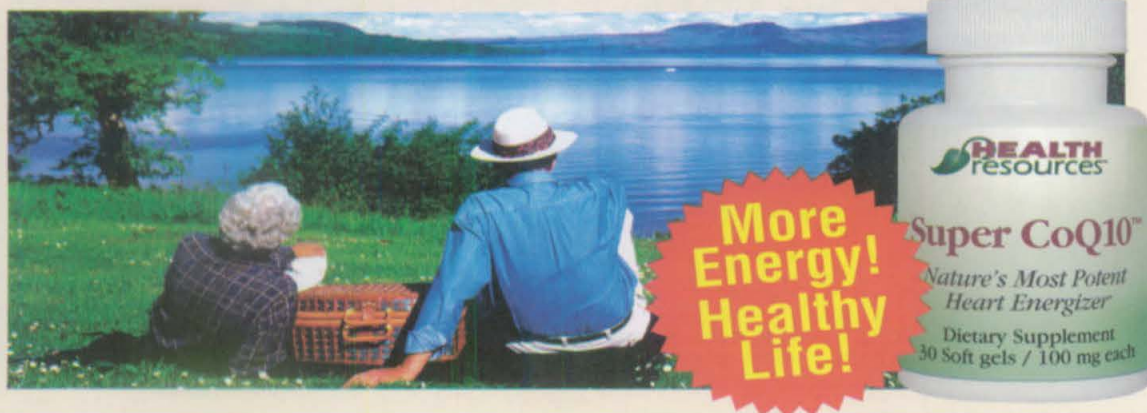

The world supply of CoQ10 is limited. In 2005, the cost of CoQ10 was \$2,400 a pound. Current production of CoQ10

"Arrhythmia dramatically reduced!"

"Since I've begun using Super CoQ10™, my wildly erratic cardiac arrhythmia has been dramatically reduced. I do endorse this product."

—Fred B., San Francisco, CA

"I didn't want another stent..."

"I got a stent in 1997. The doctor said I would have to come back for more in 6 months to a year. I started taking Super CoQ10™ and I don't

have any more chest discomfort. I haven't needed another stent for 9 years now. I'm 64 years old."

—Richard M., Wisconsin Rapids, WI

"Before taking Super CoQ10™ I had frequent chest pain..."

"Before I started using your product, I was experiencing some serious chest pain. About a week after taking Super CoQ10™, the pain was completely gone. I think it is a very good product. Keep up your good work."

—Rose-Marie T., Pembroke Pines, FL

"Normal heart beats!"

"I have been on this formula for about a month and I have noticed that I am not experiencing those skipped/irregular heart beats any more. I'm very grateful, because I was afraid if my doctor found out about the 'skips' that I'd be on more medication, and I'm hoping to get off the 2 medications I'm on now."

—Esther P., Amarillo, TX

"My doctor says it's good for me!"

"Please send me 3 more bottles. I had serious heart problems last year and spent 4 days in the hospital. On my last visit, the doctor said my heart is fine. I told him I was taking Super CoQ10™. He said that was fine and that it was really good for me. Thanks."

—Marie R., San Antonio, TX

"Don't need as much sleep anymore!"

"I have found Super CoQ10™ has diminished my excessive fatigue and excessive need for sleep."

—Valentine Z., New York, NY

"It's natural and safe!"

"I am 67 years old and had been taking a statin drug, so I thought it important to take CoQ10 with it. I chose to take your Super CoQ10™ because it is a natural supplement with no side effects. I have noticed more energy since I began taking Super CoQ10™."

—Jackie D., Laconia, NH

"Give it to my friends!"

"I not only use Super CoQ10™ myself, I also give it to my friends. Unfortunately, there are many folks who are skeptical because they do not know that this product is far safer than prescription drugs, which conventional medicine is pushing because of their financial interest. I hope time will change that."

—Frank M., Knoxville, TN

"It works for us!"

"My wife and I have been taking Super CoQ10™ for a month now. She has more energy and feels better. I had an irregular heartbeat. The doctor put me on

meds for it, but it did not stop the irregular beats. About 2 weeks after taking CoQ10, I have not had any more irregular beats. My second order came in today. Thanks."

—Dalton & Betty T., Lafayette, LA

"I noticed a difference when I stopped using it!"

"I used Super CoQ10™ as recommended by a chelation doctor. I did not feel the value of it until I stopped taking it for 6 months. I felt a great deal worse and wondered why my heart was not regular any more. So I sent for more Super CoQ10™ and it has made a vast difference in how I feel. My heart beats are regular again. I will keep taking it."

—Betty W., Sandy, UT

"I look 30 years younger!"

"Your Super CoQ10™ has helped me a lot. Many people don't guess that my age is 95 plus! They say I could pass for 65. I still drive my car

where I need to go."

—J. H., Fort Morgan, CO

"I wanted to avoid prescription drugs..."

"4 years ago I was diagnosed with serious heart problems. Since my husband's illness and death, I have been skeptical of prescriptions so I opted to use a natural product like Super CoQ10™. Since using your formula my symptoms have not deteriorated as was predicted by my doctors."

—Joy C., Lincoln, NE

"Standing straight again!"

"I have a friend whose father has severe tremors. He was stooped and couldn't drive. Super CoQ10™ helped him stand straight and he is even singing in the choir at church!"

—Sarah G., Cincinnati, OH

"A real miracle!"

"CoQ10 is a miracle pill. I take it first thing every morning and my day is on the way. I have more energy from the start. I'm not napping 2 or 3 times a day, and I get a full 8 hours of sleep at night. I really feel great!"

—Jacqueline H., Billings, MT

"I'm shopping again!"

"About 3 weeks after using Super CoQ10™ I did notice vitality and more get-up and go during shopping and visiting the senior centers. I could stand on my feet longer instead of having to sit down after a few minutes. It has definitely helped me in my everyday life."

—Candy C., Danville, CA

"Good for my heart!"

"I have been diagnosed with serious heart problems. Since taking CoQ10 daily I have not been awakened during the night with heart fibrillations."

—Iris L., Lincoln Park, MI

A surprising "side-effect" of Super CoQ10™... FASTER Weight Loss!

Did you know that a CoQ10 deficiency could actually cause you to gain weight?

That's what researchers recently uncovered. *Here's what happened:*

In a Belgian study of overweight patients, Dr. Luc Van Gaal found that over half of the patients were significantly deficient in CoQ10.

So Dr. Van Gaal placed the CoQ10 deficient patients in Group A and the other patients with normal CoQ10

levels in Group B. Both groups were placed on a reducing diet and both were given 100 mg of CoQ10 daily. The results?

After 9 weeks, Group B (the normal CoQ10 level folks) had lost an average of 13 pounds. But here's what amazed the researchers...

Group A (the CoQ10 deficient folks) lost an average of 30 pounds!—more than double the other group!

Resetting your metabolic switch for faster weight loss may be as simple as a daily dose of Super CoQ10™!

Makes Old Hearts Young Again!

"This treatment will make the hearts of people over the age of 70 perform as well as those of 30 year-olds."

—Dr. Franklin Rosenfeldt

Head of Cardiac Surgical Research at the Baker Institute, Melbourne, Australia

After successful laboratory and clinical trials, scientists in Melbourne, Australia are now giving Coenzyme Q10 to elderly people preparing to undergo heart surgery.

Cardiac expert Dr. Franklin Rosenfeldt believes CoQ10 will improve heart function in two ways:

#1: The antioxidant effects of CoQ10 fight off free radicals released during stress. This includes cardiac interventions such as angioplasty, thrombolysis, and surgery.

#2: CoQ10 also improves the way cells convert oxygen and food to energy. This strengthens the heart and helps it beat stronger.

Dr. Rosenfeldt's laboratory studies, after 6 weeks of CoQ10 therapy, showed elderly rats improved cardiac function by 74% and oxygen consumption increased by 66%. This work has been accepted for publication in the journal *Cardiovascular Research*.

Another study performed on human heart tissues showed even more promising results. Tissues were

treated with CoQ10 and then subjected to stress to simulate a heart attack. The results?

The CoQ10-treated tissues of persons **over the age of 70** performed just as well as younger tissues!

Give your heart the "spark" of life for endless energy—take Super CoQ10™ every day! Call 1-800-471-4007 to receive your RISK-FREE introductory pack and up to 10 FREE gifts!
