

New Wedge Sound System has more features than Bose® for a fraction of the price

Finally a sound system everybody can afford

Time is already set and automatically adjusts for Daylight Savings Time

Full Feature Review
By S. Hafford, Media Services

The Bose® radio has proved tabletop sound systems can have great sound, but its \$500 price tag makes it just too expensive.

The new Wedge Sound System offers an alternative with more features and the same booming sound but for only \$147!

That's a \$350.00 savings! The music community is buzzing with excitement over what the Wedge is offering.

For the first time, anybody will be able to afford a top of the line sound system!

Plus the company that has designed the Wedge is offering a 60-day in-home trial so the public can hear the crystal clear sound for themselves risk-free.

A truly unique aspect of the Wedge is you will never have to set the clock. The Wedge is already set for you when you plug it in and even adjusts for Daylight Savings Time.

Another unique feature is the dual battery back-up. If the power goes out, the Wedge won't and your alarm will still go off! You will never be late again!

And you can listen to any part of your music collection on your Wedge. From CDs and MP3s, to your favorite radio station, the Wedge plays them all.

The Wedge even stores up to 20 of your favorite radio stations for quick and easy access.

The compact design means you won't even know the Wedge is there until you hear it as and you hear the powerful speakers deliver crystal clear, booming sound.

To get the scoop on this new and groundbreaking technology, I spoke to the lead of Product Research and Design for the Wedge, Paul Goodman.

Q. How can you offer such a high quality sound system in the Wedge for only \$147 when the Bose goes for \$500?

A. We have designed the Wedge Sound System from the ground up. All costs are closely monitored and, through a streamlined manufacturing technique, the Wedge is able to be offered at this ultra low price.

You see, other companies, like Bose, often mark their products up several times more than they should to make more money.

With the Wedge, we want to give more people the chance to own a high quality sound system at the price it much less.

Q. How can the tabletop Wedge Sound System produce such lifelike sound?

A. Our special engineering team has developed a revolutionary design enabling the Wedge to fill a room with crystal clear sound.

The key is the power fed speakers. Other tabletop sound systems have speakers that put too much power and cause the speakers to sound as though they are about to be blown when the volume is turned up.

The Wedge has the perfect balance of power flowing to its speakers so the sound is crystal clear with the volume on low or high.

Q. Is the time on the Wedge already set for me?

A. Yes! You will never need to set the time on the Wedge.

Q. What made sources do the Wedge play?

A. You can listen to any part of your music collection on the Wedge. From CDs and MP3s, to your favorite radio

Wedge Sound System shocks the music community!

The new Wedge Sound System has the music community buzzing with excitement. Never before has a such a high quality sound system been offered to the public at such a low price. This makes it possible now to have a Wedge Sound System in several rooms of your home without spending a lot of money. Truly a high quality sound system anybody can afford.

	Wedge	Bose®
Price	\$147	\$500
Automatically Adjusts for Daylight Savings Time	YES	NO

Nap Alarm	YES	NO
Able To Operate Without Remote	YES	NO
Remote Control	YES	YES
Can Play Music From iPod® (mp3 player)	YES	YES
Concert Hall Quality Sound	YES	YES

The Wedge has more features than Bose for less. You can see for yourself, the Wedge is the best overall value compared to Bose. It has more features plus amazing concert hall quality sound, all for only \$147! And did you know the Bose becomes useless if you lose the remote or the battery dies? There are no buttons on the Bose! On the Wedge, buttons count free.

Here's what a few of the thousands of Wedge listeners have to say:

"The Wedge Radio has performed flawlessly and the clock automatically changes to correct the time when Daylight Savings Time comes in. In my opinion, it is better than the Bose Radio and it costs less. The Wedge Radio is an outstanding value."
