

Ultimate Weapon Against Diabetes

Here's important news for anyone with diabetes. A remarkable book is now available that reveals medically tested principles that can help normalize blood sugar naturally...and help reverse many symptoms of diabetes. People report **better vision, more energy, faster healing, regained feeling in their feet**, as well as a reduction of various risk factors associated with other diseases.

It's called the "*Diabetes Improvement Program*" and it was researched, developed and written by a leading nutrition specialist. It shows you exactly how nature can activate your body's built-in healers once you start eating the right combination of foods. It can work for both Type I and Type II diabetes and people report it has helped reduce their insulin resistance. It can give diabetics control of their lives and a feeling of satisfaction that comes from having normal blood sugar profiles.

The results speak for themselves. The "*Diabetes Improvement Program*" tells you which delicious foods to eat and which to avoid. It also warns you of the potential danger of certain so-called "diabetes" diets. Diabetics have written letters to the publisher calling this book "very outstanding"... "a tremendous help"...and saying it made "a difference in my life." The "*Diabetes Improvement Program*" is based on documented scientific principles that can help:

- **Eliminate ketones and give you more abundant energy**
- **Make blood sugar levels go from High Risk to Normal**
- **Stimulate scratches and scrapes to heal faster**
- **Improve eyesight**
- **Improve your balance**

- **Help numb feet regain a level of feeling**
- **Reverse neuropathy and resultant heel ulcers**

Improvement may be seen in other areas as well, such as **lower blood pressure, lower cholesterol and reduced triglyceride levels**. There may also be a reduction of other risk factors associated with: **heart attacks, stroke, retinopathy, kidney damage**.

What's more, it may help improve **short term memory** and make you feel **more alert** and **no longer chronically tired**. Improvements of **double vision** or *diplopia* may also be experienced.
