(UMS) Everyone loves sick mouth-watering Filet Mignon. But we're all sick and tired of messing it up on the grill or spending a fortune eating out.

Well now, the Heat Surge grill company is actually giving away over 5 pounds of Gourmet Butcher Select Cuts including USDA Prime Filet Mignon free to the general public for the next 48 hours starting at precisely 8:00 a.m. today.

The only thing local readers have to do is call the National Distribution Hotline before the 48 hour deadline with their order for the remarkable new Heat Surge *Sear-Grill*™. Everyone who does is instantly being awarded all the Gourmet Butcher Select Cuts including USDA Prime Filet Mignon absolutely free.

This is all happening to launch the new high tech Heat Surge miracle *Sear-Grill*. This is no ordinary grill. The imported *Sear-Grill* uses a remarkable cooking technology that actually 'sears' meats and cooks twice as fast as a regular grill to lock in flavorful juices. So now, your food can taste like it came from a five-star steakhouse everytime.

Grilling experts explain that ordinary grills heat the surrounding air. This old fashioned cooking method is slow and causes the meat to dry out. But they say, Charcoal grilling is *actually* a better way to grill. This is because when Charcoal is burned, it emits infrared heat. The miracle *Sear-Grill* has what's being called 'Flareless Fire' infrared technology. But the difference is Charcoal grilling achieves only 25% infrared heat and the remaining 75% heat is just hot air. In contrast the miracle *Sear-Grill* uses 100% infrared burners, so the meat stays ultra juicy. There's virtually no hot air rushing past the meat drying it out. In fact the lid can actually stay open when grilling with the miracle *Sear-Grill*.

"No five-star steakhouse uses the same grills found in your backyard. What I mean is they don't grill with hot air, they know better," says Jesse Scott, Grill Master and Executive Chef of the award winning John Q's Steakhouse. "All those regular grills dry out the meat making it tough and loosing the flavor. The finest steakhouses I recommend, use the same grilling technology found in the miracle *Sear-Grill*."

But the story gets even better. Since the *Sear-Grill* uses no electricity, Heat Surge took it to the Amish community, sparking an Amish man to build a remarkable new invention.

For the first time ever, these solid stainless steel *Sear-Grills* are actually being installed in genuine Amish-made grilling cabinets for home use and are being delivered directly to the doors of all those who beat the deadline.

These humble Amish craftsmen are also geniuses at using scientific processes. They actually use a method to produce all-natural wood that virtually lasts forever. It's called 'Ever-Fresh' wood because it will virtually never rot. Fresh cut wood is put into a specially designed kiln where it is 'fast fired' in a chemical free environment with extreme heat and only the use of good ol' fashioned steam. The results are miraculous. This 'Ever-Fresh' wood has a lifetime durability making it withstand the harshest climate conditions, so it looks the same as the day it arrived at your door.

"We can barely keep up because we are giving away our butchers special Filet Mignon free. Now everyone's wants to get these miracle *Sear-Grills*', so Amish craftsmen are working their fingers to the bone to make sure everyone gets theirs in time for summer," confirms Timothy Milton, National Shipping Director.

You just can't find custom made Amish craftsmanship like this. That makes the miracle *Sear-Grill* with the handmade Amish grilling cabinet a real steal for just three hundred sixty-eight dollars and everyone who beats the order deadline gets all the Gourmet Butcher Select Cuts, over 5 pounds including the USDA Prime Filet Mignon for free.

"Everyone who calls will want one but those who want to take care of gifts for their friends and families can get two grills. That way they get

■ SUDDENLY, MR. POPULAR: Now everyone can grill like a chef at a five-star steakhouse. "I was a terrible cook," said actor Joe Butano, of Northfield, OH. "My wife would never let me near the grill, but now that my Heat Surge miracle *Sear-Grill* does all the work, she begs me to have friends over for a barbecue." But it's not just the succulent taste everyone is getting with the miracle *Sear-Grill*. It's even more special because it gets installed into a genuine handmade grilling cabinet built by Amish craftsman. These solid 'Ever-Fresh' wood grilling cabinets are built to last forever, so it is a real steal at just three hundred and sixty-eight dollars because all those who beat the order deadline by calling the National Hotline at 1-800-601-3765 are actually getting a massive spread of meat, over 5 pounds of Gourmet Butcher Select Cuts including the mouth-watering USDA Prime Filet Mignon all for free.

over 10 pounds of the Gourmet Butcher Select Cuts including double the USDA Prime Filet Mignon for free. That's like getting two free shopping sprees at the finest gourmet butcher shop," Milton said.

"If lines are busy keep trying. We promise to get to every call. Then your new *Sear-Grill* will leave the heart of Amish country and a delivery truck will bring it to your door. Our premier butcher will then deliver the Gourmet Select Cuts including the USDA Prime Filet Mignon free to everyone who beats the order deadline," Milton said.

"Now no one will ever have to eat tough, dried out food again. Everyone will be able to have perfect steak, tender chicken and decadent fish all grilled to perfection on the new miracle *Sear-Grill*," Milton said. ■

HOW IT WORKS: The solid stainless steel Heat Surge *Sear-Grill* is a work of engineering genius from the China coast so advanced it uses less energy because it cooks twice as fast. Yet it produces extreme temps over 1000°F. Extreme ceramic bricks similar to those used by the US Government and NASA, emit pure infrared heat. Magnum Burners then provide a uniform heat pattern that direct micro-flames upward so you never have to worry about flame flare-ups that damage food. The sizzling surface heat utilizes 100% infrared burners to lock-in juices for perfect taste and tenderness. Any standard propane tank simply snaps on the Heat Surge which is a certified member of the National Barbecue Association and comes with a full year limited money back guarantee of the purchase price.

How to get the free Filet Mignon

The National Toll Free Hotlines are now open. All those who beat the 48 hour order deadline to get the Heat Surge miracle *Sear-Grill* with the Amish built grilling cabinet get over 5 full pounds of Gourmet Butcher Select Cuts including the USDA Prime Filet Mignon for free.

Amish craftsmen are limited on how many cabinets they can build, therefore a strict limit of 2 miracle *Sear-Grills* per household, has been imposed. Since people don't have space for their custom grilling cabinet, they are letting people get the miracle *Sear-Grill* alone for just \$259 plus shipping, but they are only giving the Gourmet Butcher Select Cuts to those who beat the deadline for the Amish made grilling cabinet built to last forever.
