

Urinating All Night Long?

And that's just the start of your problems!

By Steven Rothenwex

National Health Correspondent

Too many middle of the night bathroom emergencies? Guys, you're not alone. Sooner or later, almost every man will suffer from prostate problems. In fact, doctors say that a whopping 9 out of 10 men will have to deal with the pain, misery and frustration of an enlarged prostate.

A GROWING PROBLEM

The problem is, as you age, your prostate gland grows.

When it presses against the urethra, it squeezes off the urine flow. So going to the bathroom becomes a nightmare.

A BLOATED PROSTATE CAN RUIN YOUR LIFE

If you're like most men, you suffer in silence. But beware. It could end up destroying your home life, your career, your social life, and your sex life.

Left untreated, it could ruin your life.

END THE PAIN AND EMBARRASSMENT

So if you're staying locked up inside your house in fear of a "bathroom emergency"...if you haven't had a good night's sleep in ages because of constant urges to "go"...if you're frustrated and embarrassed by always having to run to the bathroom and then nothing happens...real relief is here.

A SUPERIOR PROSTATE FORMULA

Researchers have developed a revolutionary, all-natural, power-packed super-pill that not only shrinks even the most swollen prostate...it actually restores it to its normal size -- without tiresome doctor visits, dangerous surgery, risky drugs, or nasty side effects.

Prostalex Plus lets you enjoy trips, spend time with your grandkids, play golf, and sleep like a baby right through the night. It'll even rev up your sex life again.

THE MIRACLE OF THE "GOLDEN SEVEN" COMPOUND

Here's how it works: Unlike other formulas that have one or two active ingredients, Prostalex Plus contains 7 of nature's most powerful prostate-shrinking nutrients in precisely the right dosage. So the drips and drabs, sputtering and straining, pain and embarrassment will be gone forever.

A LIFE-CHANGING DISCOVERY

Prostalex Plus contains the most important prostate remedy ever discovered -- a plant extract hidden deep within the saw palmetto berry.

This compound regulates levels of DHT -- known to play a significant role in the development of benign prostatic hyperplasia -- from forming while also shielding your prostate against its attack.

EVERY KEY PROSTATE NUTRIENT IN ONE SINGLE PILL

It also has Pygeum Africanum,

Here Are 6 Warning Signs You Better Not Ignore

- ✓ ***Waking up 2 to 6 times a night to urinate**
- ✓ ***A constant feeling that you have to "go"...but can't**
- ✓ ***A burning sensation when you do go**
- ✓ ***A weak urine stream**
- ✓ ***A feeling that your bladder is never completely empty**
- ✓ ***Embarrassing sputtering, dripping & staining**

the top prostate-reducing treatment in Germany, France and Italy for reducing swelling and increasing urine flow.

Add stinging nettle root... pumpkin seed oil... lycopene... and beta-sitosterol and you've got an incredibly powerful formula that's fast and effective.

DRAMATIC PROOF

In one three-year study, 73% of the participants who took saw palmetto berry extract reported an improvement in night-time urination. And in a 1997 trial, 75% of patients said it improved their urine flow.

LIVE A NORMAL LIFE AGAIN

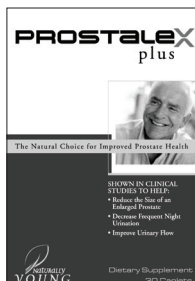

Laurence D., of Sarasota, FL says "I used to have to get up more than six times a night. Now I don't even have to get up once. It's a miracle!"

Prostalex Plus literally saved Larry D. from the unemployment line. "I almost had to quite my job as a truck driver, but now I can go for hours and hours without having to look for a bathroom."
